Mayor Ingle explained that pital. He did think once that

about one year ago the question of to see their solicitor. building a sewer on Kent-st. to the Hospital was discussed by the Counto assist the town, which was to be committee, applied on the trunk line: (not includ-Asked for New Bridges and Other ing laterals) from Sussex-st. north. In constructing the sewer between Sussex and Albert-sts. considerable rock was met with, which necessitated a great deal of blasting and extra work. Further up the sewer | lough, an indigent, at the flome for quicksand was another obstacle to overcome. The extras which Mr. Pilkie, the contractor, had charged had amounted to \$321.71, which amount had been verified by Town Commissioner Chalmers. That was the amount the Town Council asked the County to pay; they were not asking for extras for the whole sewer, which amounted to \$777.36, but only for the cost from Albert-st .to the Hospital! Instead of the sewer costing \$7,259, it had cost \$8,036,36. The town would be compelled to pay the greater part of the cost because there is so much property owned by the town facing Kent-st. The Sylvester property could not be taxed for sewer frontage owing to an agreement made some years ago -not even for

Ald, O'Rielly said when the question of constructing a sewer on Kent-st. came up he opposed it because he thought the burden would be too heavy on the taxpayers of the town. All sewers were constructed under the Chipman plan, and three-fourtha Report of the Inspector of Schools of the owners of property on the street must be in favor before a sewer can be built. The total cost of this sewer was over \$8,000, including extras. This amount exceeded the contract price owing to many difficulties. According to the first plan the size of the trunk sewer varied, and kept getting smaller up to Albert-st., but when it was proposed to have it run to the Hospital it had to be made larger. Outside of the grant given by the County the greater part of thie cost wasborne by the town. Quicksand had already got in the sewer, and it had cost the town over \$100 this spring to clean it out. The town would be very glad to exchange-to give the grant and let the County assume the cost of the

Council then adjourned till 10 c'clock Thursday.

THURSDAY'S PROCEEDINGS

The County legislators commenced business Thursday with all the members present. After the minutes of Wednesday's proceedings had been rend and confirmed Mr. McGee stated that a deputation comprising Messrs, Webster and Parkin, members Fencion Council, wished to be heard relative to certain matters concerning their township.

The Basis of Complaint.

Mr. Parkin said they were present to protest against the high assessment of Fencion township. years ago the County valuators reduced the valuation a certain amount, but they still thought it was too high and hoped the Louncil would further reduced, as the burden pressed heavily on the taxpayers. The boundary road between Ops and Fencian, on the 12th con, between Mr. Reazin's and Mr. Tompkins' faarma, is only 45 feet wide, instead of 66, and on account of it baing so narrow, it drifts badly in winter, making the road impassable. There being only three residents on that narrow lane, it was impossible for them to keep the road clear, and they wished the Council's advice on the

Mr. Webster said he did not wish to leave the impression that Fenelon township was any better than the cthers, but he thought the rate was very high in proportion to Eldon and other townships. In regard to the narrow strip of the boundary line, he said there were too few settlers on it to do necessary statute labor. These settlers say their fences are row, and the township Council would like to have it made the full width

_66 feet. Mr. Johnston-"In comparison to the assessment according to acreage with Mariposa and other townships very much. Perhaps Eldon is a little low. Mr. McGee-"I told the deputation

Report of Education Committee On motion of Dr. Wood, seconded by Mr. Staback, the report of the! committee on Education was introduced, read and adopted without amendment as follows : Gentlemen .- Your committee have

considered the communication from

the Board of Education, Lindsay, rel ative to the maintenance of County pupils at the Collegiate Institute, and have heard the Finance committee of the Board in support of the same, It was shown that since the Junersessicn, 1501, the percentage of increase in the attendance of County pupils has continued, and that the Board would be entitled, if a settlement were made for this year on the basis of the percentage of the attendance for the previous three years, to a larger amount from the County than is payable under the terms of the triennial settlement made in the year 1900. It was pointed out on the other hand that, under the settleed a much larger amount from the County in the years 1807, 1898 and 1890 than the actual conditions of the years of the term would have warranted. Nevertheless, in view of the implied understanding when the matter was under discussion at the June session of last year, your committee recommend that the by-law fixing the amount for which the County was made liable for the term commencing Jan. 1st, 1900, and ending Dec. 31st, 1902, be repealed in so far as it applies to the amount to be paul by the County for the present year, and that the settlement be made annually for this and future

Your Committee recommend that a committee to be composed of Frederick Shaver, James Graham and Adam E. Staback, be appointed to settle with the Board of Education of the town of Lindsay the amoYunt to the paid for the maintenance of County pupils at the Collegiate Institute for the year 1902. Your Committee beg leave to introduce by laws to give effect to the foregoing

recommendations. Your Committee have read a communication from Henry Reazin, Inspector of Schools for West Victoria informing the Council of his inability on account of serious illness, to attend the meeting of this Committee. They would express their sympathy with Mr. Reazin, and the hope that he will soon be fully restored to good health.
