STRANDED PAUPERS

Phase of Immigration Threshed Out in the House.

DISTRIBUTION OF IMMIGRANTS

Hon. Mr. Sifton Suggests That the Farmers' Organizations in Ontario Take Up the Subject and Make Suggestions to the Department—Port Arthur and Fort William Harbors—Inspection of Grain.

Ottawa, June 1.—The date of prorogation, it is hoped, has been materially advanced by the adoption yesterday of the motion of Sir Wilfrid Laurier to devote the greater part of Wednesday and Thursday to Government business for the remainder of the session. This gives Government measures precedence on all other days than Mondays, and was justified by the advanced state of private business. The report that large numbers of European immigrants who have recently arrived in Canada are penniless was brought to the attention of the House by Mr. E. F. Clarke, and was subject of a paper of immigration to be thrashed out. The debate disclosed the fact that Canadian medical examination is most rigid, and that the class of immigrants arriving are desirable.

Mr. Borden's Testimony.

Mr. R. L. Borden took advantage of the opportunity to speak of the excellence of the Galician settlers. Mr. Sifton, in response to suggestions from both sides of the House, promised to see what could be done in the way of distributing immigrants now seeking employment among the different Provinces. The advisability of making Port Arthur and Fort William free ports was suggested during the debate upon the bills establishing a harbor commission for those ports. Sir Richard Cartwright, in connection with the measure respecting the payments of bounties upon lead-bearing ores smelted in Canada, informed the House that the measure of last session had materially increased the output of the mines.

To Increase Bonding Powers.

A petition was received on opening yesterday afternoon from the Huron & Ontario Railway Company, praying for legislation to increase their bonding powers from \$10,000 to \$20,000 a mile.

Oil in Canada.

Ottawa, June 1.—The Senate convened yesterday after ten days adjournment. Senator Perier moved for a return of geological and other reports in the hands of the Government, showing the existence of petroleum at Athabasca Landing and in adjoining districts, also the districts in which crude oil has been discovered with quantities produced in 1902 and 1903. Hon. R. W. Scott promised to bring down all the information in possession of the Government.

GRAND TRUNK PACIFIC.

Committee on Railways Has Reported the Bill, Confirming the Agreement.

Ottawa, June 1.—The committee on railways yesterday morning reported the bill respecting the Grand Trunk Pacific Railway Company, which confirms the agreements entered into by the company and the Government. Among the provisions of the bill is one providing that the company may be organized when \$1,000,000 of capital stock is subscribed, instead of \$2,000,000, as required by the original charter.

The bill of last year was amended in order to permit the issue of paid-up non-assessable stock in consideration of guarantees, or other services rendered the company, due regard being had to the then market value of the stock. The company is also given all powers necessary to carry into effect the agreements between the company and the Government until the time for completion and operation of the line, which is limited to Dec. 1, 1911. Construction is to be completed within two years.

G. T. ALIEN INQUIRY.

Judge Winchester Continued His Investigation at Montreal Tuesday.

Montreal, June 1.—Judge Winchester continued his investigation yesterday re the Grand Trunk alien labor. J. R. Stephens was once more examined by his Honor in regard to the employment of Americans.

Mr. Stephens emphatically stated that so far from trying to get Americans, the very reverse of that was his thought and purpose. As a fact he had given employment to some four persons who were Americans. There was the case of Raymond Heckman, who had been employed at Winnipeg. That gentleman was no longer in the service of the company. He did not know where he was, it was quite unnecessary to say that, in view of this inquiry, he had made arrangements to have him employed by the C.P.R.

As to the case of Mr. Goodman, he had seen what excellent work he had done at Winnipeg, and he invited him to come to Montreal. Mr. Mallen, recently in his office, had left the Santa Fe Road and reached Montreal about a fortnight after he did. He did not send for him, but he put him on the payroll at \$125 per month.

There were four in all who had been on the Santa Fe Road who came to Montreal and who had obtained employment on the Grand Trunk.
