

More than one best?

When you ask your grocer to send you the best flour, he sends you— the best. When you know the best flour and order by the name, the choice is not left to the grocer. Many grocers handle

Royal Household Flour as their leader. They have found it the safest flour to recommend because its results are sure and its purity is unquestioned. If your grocer's best is not Royal Household, insist on his getting it for you. The benefit will be mutual.

THROWN INTO RIVER.

Callant Rescue of Young Lady Who is Well Known in Lindsay.

The following paragraph, taken from the Trinidad (Colorado) Advertiser, of May 27th, will interest a number of Lindsay friends:

Friday evening Earl Herring and Miss Annie Pringle, of Belleville, Ontario, were horseback riding, and while crossing the river just below the power house the horse which Miss Pringle was riding started to mire in the quicksand, and becoming frightened he lunged so viciously that Miss Pringle was thrown into the water.

Veteran Haliburton County Hunter Makes the Strike of His Life.

Mr. D. Gaul, the popular conductor of the Haliburton express, vouches for the truth of a story that borders on the incredulous in the estimation of many who claim to know something about the habits of wild animals.

Conductor Gaul's story is this: On Friday of last week, as "Bill" Otto, a well known hunter and trapper, was paddling up the lake at a point known as "The Narrows" between Minden and Haliburton he observed ahead of him in the water a large number of moving objects.

By sharp work Otto managed to cut the eels off the line before the bodies sank, and by this time has no doubt made a requisition upon the County authorities for \$15 bounty for each pair, or the snug sum of \$195 for less than one hour's work.

Mayor Vrooman referred to the editorial published in The Post, and stated that a test of the milk supply of the town had been made by Mr. M. J. Lewis, of the creamery, which, although not complete, showed that the milk supplied by the town vendors was all right and satisfactory.

Mr. Alex. Scott was heard in reference to the building of a culvert between the township and the town, just on the boundary line, near Huth-bun's mill yard. (The matter was referred to the chairman of the Board of Works to look in to the feeling being that the town would give \$5, if the township would incur the balance, probably \$10.)

Ald. Eyles brought up the complaint about loam being taken from the town gravel pit and on his motion, seconded by Ald. Fisher, the chairman of the Board of Works and Town Property were instructed to see that the field is properly guarded in the future.

PETITIONS AND REPORTS. A petition was read from Mr. John Marshall and others, asking for a sewer on Colborne-st., from a point 180 feet west of Sussex-st. to Victoria avenue, to connect with the sewer on Francis-st.—Passed.

Petition from D. Ray and others, asking for a sewer on Russell-st.—Passed.

The reports of committees were then disposed of, also the reading of by-laws. One in regard to the regulating of the sale of cigarettes, allowed Messrs. Adams & Spurling to handle them, and the other was the Public Morals by-law, which came up for reading at a previous meeting.

Tax Collector McWatters was on hand and explained that there had been several delays until lately, when they were being handled punctually. There were a number of arrears but he didn't want to turn anybody out, although he was perfectly willing to do the Council's bidding.

The Council then adjourned.

Milk's Creamy Time. The grass is ready for pasture and the yellow milk is due. It gets rather white and thin towards spring, when the feed gets dry and stringy and musty. But as soon as the cows are let out on the new grass the milk gets thick and creamy and has a yellow tinge. This turning of green grass into cream is wonderful, but is one of the best arrangements we know of. Nature is very good to us, particularly in the spring.

SUNDAY MATTERS. Mr. F. Armstrong was heard. He had built a new livery barn and had made a box drain to carry off the water on the street, and he asked for a few loads of gravel to fill in with, which would also improve the appearance of the thoroughfare.—Board of Works.

Mr. L. V. O'Connor headed a deputation of young men, requesting that they be allowed to string nets on the town park in order to play lawn tennis. It was being re-organized in town. They would not destroy the grounds.—Town Property.
