MILK PURITY.—A despatch states that impure milk has been the cause of fifty cases of typhoid fever at St. Johns, New Brunswick. Our health authorities and other citizens are heard from occasionally as to the necessity for taking energetic measures to secure the purity of our source of water supply for domestic purposes, but there seems to be no action towards protection against a more insidious danger, pollution of the milk supply.

EDITORIAL NOTES.—The Nova Scotia Assembly has been dissolved and the elections for the new body will take place on June 20, Premier Murray expects to be returned with an overwhelming Liberal majority.

The Methodist of the London district, in meeting assembled, have protested against Whitney's temperance legislation, especially "against the unjust and unwarranted attack upon the local option law," "practically destroying the only weapon left in the hand of the temperance people with which to fight the liquor traffic."

HONEST LABOR VS. PRISON LABOR.

Provincial Secretary Hanna is Glorifying in Making Money at the Expense of Employers of Honest Labor by Initiating the Odious Contract System in Prison Labor.

Organized labor is making a formal protest by means of a deputation against the contract recently entered into by the Ontario Government with Taylor, Scott & Co. for the manufacture of woodenware at the Central Prison, Toronto. The parliamentary committee of the Canadian Manufacturers' Association is meeting to take action in the same manner.

It is not contended for a moment that the inmates of the Central Prison should not be employed—it would not be fair to the state, which has a right in getting some return for maintenance and it would not be fair to the prisoners, to keep them in idleness. What is contended is that the prisoners should be employed in such a manner as to do the least possible injury to free labor, and that the Ontario government by its recent contracts entailed this competition.

Under Liberal rule, the prisoners were employed to some extent in the making of clothing, etc., for public institutions, the other industries being the making of rope and binder-twine, woodenware and brooms. But a small quantity of binder twine was manufactured and what wooden-ware was produced was made by the institution itself and disposed of to some of the large dealers in such a way as not to affect the market.

- 1.—For the making of zinc, glass and enamel washboards, 8 cents per dozen.
2.—Wood washboards, known as the 17-inch dovetail made all wood, six cents per dozen.
3.—Double washboards, i.e., with rubbing surface on both sides, 11 cents per dozen.
4.—Step ladders at the rate of half a cent per foot.
5.—Broom handles, any length up to 50 inches, at 81 per thousand.
6.—Sweeping, 50 cents per thousand.
7.—Lumber measure.
8.—Window screens, medium, five cents a dozen.
9.—Window screens, medium, five cents per dozen.
10.—Window screens, large, six cents per dozen.
11.—Butter moulds, 1/2 inch square, 11 cents per dozen.
12.—Clothes pins, ever ready, 7 1/2 cents per five gross box.
13.—Clothes pins, best, five cents per five gross box.
14.—Clothes pins, common 3 1/2 per five gross box.
15.—Toy or handy washboards, 6 cents per dozen.
16.—Self-wringing mops, 10 cents per dozen.
17.—Ash sifters, 6 cents per dozen.
18.—Broom racks, 75 cents per dozen.
19.—Egg carriers, one dozen size, 20 cents per dozen.
20.—Egg carriers, ten dozen size, 30 cents per dozen.
21.—Brush blocks, 35 cents per thousand.
22.—Any goods not before mentioned to be paid for by day labor at the rate of 3 1/2 cents per hour for each hour of every prisoner employed thereon.

The contractor guarantees that the above prices will bring a revenue to the government of 3 cents per hour of each prisoner employed, and in case the work done on the above scale of prices produces a less amount the company is to make up the amount to the said rate of three cents per hour. It is further agreed that should the work done at the above rates amount to more than 4 cents is to be refunded to the company by the government and adjustments of the account between the government and the company are to be made every six months in the average of such period.

In addition to the cut rate prices the company is rent free and taxes free, is not required to keep up insurance, and the government pays half the cost of a machinist, whose duty it shall be to keep the machinery in good repair and in perfect order, to sharpen all knives and saws, and to look after the motive power and heating plant and make such reports to the government as are directed by the inspector. The government agrees to give the company the use of the following portions and property of the Central Prison:
1.—All building and yards used by the prison wood-working shop when operated by the government.
2.—The general railway facilities of the prison.
3.—Any and all machinery now installed in the north shop.
4.—Sufficient yard room for piling 500 M of lumber on the siding in the yards of the prison.

It is not surprising that a contract of this kind has got both the manufacturers of wooden ware and the workmen into a state of agitation, but we are afraid that the protests will be of little avail, seeing that it was on July 20 last, went into operation on September 1 last, does not expire until September 1, 1910, and is renewable for a further period of five years, if so agreed by both parties. The prospect is certainly not an inviting one, which sees prison labor

Bad Death of Mr. H. G. Collins, of Emmer Township. At the early age of 39 years, and highly respected and beloved by everyone in the vicinity where he resided, Hugh Gilbert Collins passed away May 30th at his home in the second concession of Emmer. In addition to the fact that death came at such an untimely age, Mr. Collins' death is particularly sad in several other ways. He had only been ill a few days, death being due to diabetes. While ploughing on the farm about a week ago, deceased was poisoned by poison ivy, which it is believed caused death.

Cowley's Captain's Defence. Cleveland, June 4.—The steamer Cowley, which sent the Erin to the bottom in St. Clair River, is unloading her cargo at Port Huron. Capt. Montague says: "After the collision occurred, the barge Danforth, which was in tow of the Erin, began getting a boat down, and did so in our sight. The Cowley was leaning heavily, and it seemed highly probable that we would have to beach her to prevent sinking. By the time the exact condition of our boat was known we were too far away to render aid."

GUARDS ROUTED BY STRIKERS. 500 Shots Were Exchanged But Only Four Were Injured. Steubenville, Ohio, June 5.—The armed guard on duty at the mines of the United States Coal Co. were ambushed by striking miners about 12.30 o'clock yesterday morning while marching on the hills from Glens Run to Coal Hill. About 500 shots were fired and four persons were wounded, but as far as known no one was killed. The strikers were foreigners. The guard was finally routed, and forced to seek shelter, leaving 150 wounded on the field. Two miners were also injured in the battle. It is said the miners were aided by former soldiers from the British and Austrian armies. There was another conflict between the striking miners and guards at Plum Run during the night. About 100 shots were exchanged, and T. E. Young, manager of the mines, was slightly wounded. No one else was hurt. All is now quiet. Miners Back to Work. Springfield, Ills., June 5.—About 50,000 coal miners, who have been on strike for the past two months, resumed work throughout the state yesterday. Advise Pope to Yield. Paris, June 4.—All accounts agree that the result of the private conference of Catholic bishops to advise the Pope in regard to accepting new laws for the separation of church and state was a substantial majority favorable to the popular and republican version. The most notable exception is that the bishops voted to accept the law authorizing public worship associations by a majority of twenty-two out of a total of seventy-four votes. Robbed in the Postoffice. Detroit, June 1.—James McMillan, young man from Granton, Ont., reported to the police that while en route to the long corridor of the main postoffice to mail a letter home, he was approached by two men who held him up at a corner, and while one held him, the other quickly abstracted his pocket, and fled away.
