BALSAM LAKE WATERS.

Fenelon Falls Man Fined for Fishing-Gill Net Captured. From Evening Post, of June 9.

Fishery Inspectors Bradshaw, of Lindsay, and Watson, of Caesarea, made a nour of inspection of the northern waters of the Kawartha chain this week, and the trip was not devoid of results.

In the course of the cance trip to Fencion Falls the two Inspectors detected a young man named John Robson, of Fenelon Falls, in the act of trolling for 'lunge, and he was fined \$10 and his fishing year was confiscated but his boat was spared, it being a rented one .. .

Nothing wrong was observed on Ormeron lake or at Rosedale, but as the two overseers explored the recessea of South Bay, Balsam lake, the case was somewhat different. They came across at least a dozen boats which beyond all doubt had been used frequently by parties engaged in spearing fish at night the boats smelled fishy and charcoal used as fuel for the jacklight was meattered about.

SOCIALISM: WHAT IT IS. (To the Editor of The Post.) Sir. - In a communication signed

"W. A. G." of a recent date in The Evening Post, you head it "Social ists and Their Rights." It might be news for a number of people to know that Socialists-as Socialistshave no rights, neither do they claim any rights beyond the mights of their fellows. Socialism continually demands that wrongs shall be righted, but those demands are for all, and all receive the benefit. Many peo. ple are Socialista to a greater or less extent; those noble men whom knew when a boy, who demanded that the schools should be free for all children, and that all children should go to school, were Socialists in that respect as much as the men who to-day contend that food is in shull be fed, Socialists are not poi party-ewhat it may be necessity be is a propaganda or educational forward movement, with the earth as its field; it does not recognize any imaginary boundary lines laid down by this, that, or the other individual; it does not bow down to of some particular or peculiar color, cut, shape or pattern, and under their folds or covering create an exbetween Oriental or Occidental, Jew The two Inspectors paddled up or Gentile, Greek or barbarian, nor

our nation. I did not have the pleasure of hearing the gentleman, but if he is correctly reported he seems to have come for the purpose of having a fling at Socialism, a subject-judging said on that line-he knows nothing about. Surely this gentleman belook over his native province and as he must know they exist .. Had he done so intelligently I can hardly believe that he would have come to gress is not in the density of populain the strength of an army, or in the number of millionares-those age ephemeral things and are simply a repetition of the past experience of all other nations that have hitherto existed (and of which history has reccorded, and must continue to record, nothing but failure)-but in the degree of intelligence and comfort of all the people and in what can be shown for the common good of all. As far as that intelligence and comfort goes it matters not whether we are a nation of six, or sixty, or six hundred millions of the line we. with about six million inhabitants,

are putting forth every effort to swell the population, while they with nearly ninety millions are discussing the question of what to do with their natural increase, and business in proportion in regard to competition and profits, is about the same in both countries, as are also the opportunities of life and the means of exist-
