Christie, Brown & Co.'s Fine Biscuits

A large variety of all the best kinds in stock. They are always fresh—try some with your next order.

Montserrat Lime Juice makes an ideal hot weather drink. We have it.

We Know What We Sell is Good, and We Sell What We Know is Good.

A. L. CAMPBELL,

Doheny Block, Kent-st., Lindsay.

Camp or Cottage

In a few weeks the beauty spots along our lakes will be dotted with tents sheltering happy camping Parties.

The appetite of a healthy camper compels attention. We make it a feature of our business to cater to the needs of campers and cottagers. Try us.

Spratt & Killen

THE HOT WEATHER FACE.

Read This and Keep Cool. (St. Catharines Journal).

Yes, the weather is of the warm variety. It needs no thermometer other than your body to tell that. But if you were in doubt, you could read it in the hot weather faces all about you.

The hot weather sear! Look at the faces. Perspiration stands out in beads. And clothes are sticky. And feet burn. The air is murky and sweating humanity wears a tawny visage. Brows are corrugated. Mouths droop at the corners. Eyes glaze dully. Humanity glowers in discontent. Look at the faces!

They are repellent countenances. To smile at them feebly, and your smile fades as does a faint cooling breeze in the teeth of a sirocco. On every brow is a ready-to-burst thunder cloud. You lose your last tenacity to look pleasant, and your temperature goes up by notches. Presently you are a part of the scowling dissatisfied mob. You have caught the hot weather face.

But hold on— There's a face that is different. It is the face of a woman. She is disagreeably red, like the others. Her face is unbecomingly red. But she is smiling! And her smile is like the glorious bursting of the gun from the surrounding clouds. It is the smile that won't come off.

What a handsome face! and how ugly the other women are in comparison. To be sure, they have good features and are well formed and governed, and so on.

They are spoiling themselves by the grudge they carry on their features. And the more they frown, the hotter they get — and the uglier. There's another face—a man's. He perspires and smiles. He sops his

face and his eyes twinkle. He radiates good humor. And he seems a mile cooler than the others. He really is cooler.

But there is no call to add mental to material warmth. A smile does not make the temperature a bit warmer. It may even cool things some.

Therapy of the hot weather face: smile, brethren and sisters, smile! There's both religion and comfort in a smile.

A SENSATION.

The Napinee Tax Collector has \$1,100 too much.

Bellefonte Ontario, Napinee has a mystery and no man seems to have the story just right. However, the tale as it reached The Ontario is as follows: The assessment roll was made out and handed to the collector who duly made his rounds. When he handed the money over to the town treasurer the collector remarked that he had more money belonging to the town, but would not say how much. The matter was brought up again at the last Council meeting and the collector offered 10 per cent. of what he had collected, apparently over and above the amount appearing on the roll. He accepted the offer and said the amount was \$1,100. Now, the question arises, where did this money come from, as the collector had previously turned over the amount called for by the assessment roll? Nobody seems to know.

Clean Business Methods.

Exchange; There is nothing after all that pays like thorough going honesty. It is a long time since we have seen such a determined campaign against fraudulent business methods as that which is now being waged in the interest of the public. The grafters in the apple packing industry have been the latest to receive the rod of correction. Canadians cannot afford to descend to anything of this kind. There is no excuse for doing so. The natural resources of our country are not excelled by any other country in the world. There is a good living for everybody without coming down to the level of a grafter.

LINDSAY IN THE EARLY EIGHTIES.

Interesting Extracts from Old Files of The Weekly Post.

May 19, 1882—We understand that Mr. B. F. Jewett, together with his son, Mr. C. W. Jewett, will assume the management of the Daily house next week.

Mr. Geo. Little has under process of development a new platform or dais for the County Council room. We have cross-examined him with the utmost severity, but he offers no reasonable explanation of what the throne is intended for or who is intended to grace it. Mr. Little intends going into the Council himself next year, and is only making his seat, as it were—a sort of surymandering, so to speak.

Mr. Messrs. Irwin & Boyd's mill at Haliburton starts work this week.

Mr. G. H. Hopkins, of Martin & Hopkins, sails for Europe in a few days for the benefit of his health.

Mr. Thos. Stewart, of McIntyre & Stewart, leaves for Winnipeg next week for a trip. Perhaps he believes in commencing where other people leave off, and may come back some owner, lessee and manager of several prospective cities.

In all probability a station will be built at Fenelon Falls shortly.

The steam shovel which arrived at Onemose is being taken by the four-mile out-point on the missing link, where its services are most needed.

A new station has been built at Cambray, and one is under way at Lorneville Junction.

The breaking of one of the bottom boards of a wagon resulted in Mr. Jan. Arksay losing his life. He was loading some barrels of tallow at Robson Bros' barnyard the wagon standing about four feet from the edge of the platform. Eight or nine feet below the edge of the platform was a heap of stones and material from building. Mr. Robson and the deceased had placed one barrel on the wagon and had lifted up a second. Upon rolling it along the bottom boards the weight came upon the outside one which was not secured to hold the load, and broke. Mr. Arksay was thrown head first over the edge of the platform to the stones below, the fall being heavy. Drs. Burrows and Rogers were sent for, but Mr. Arksay expired about an hour afterwards.

June 2nd—On Tuesday evening last Mr. Young, who lives four miles north of Onemose, had an accident while driving down the hill east of the village. His horses took fright at the steam shovel, and becoming detached from the heavy, started off at full gallop meeting Mr. Lovew, who was driving in. The runaway horses took each one side of the neck yoke, upsetting horse and vehicle, and throwing Mr. Lovew out.

The following lacrosse players journey to Port Perry next week: Geo. Sherman, capt.; P. Hickey, S. Irwin, J. A. Kennedy, J. J. Berry, R. Lyons, W. H. Hunsford, H. Hunsford, W. Flood, J. Pethie, R. Lyons, R. Corneil, Ed. M. Woolhouse.

The two large tanks on West-st. are being water enough for street watering purpose. Their capacity is supplemented from the well on the market grounds, near the fire hall.

Messrs. B. Mowry & Son have moved their foundry business to Peterborough.

PETERBOROUGH AND NEW C.P.R.

Will the New Short Line Connect With Main Line Near the Town?

Examiner, Wednesday: Doubts as to whether the new C.P.R. line to the Georgian Bay would touch the main line east of west of this city may be set at rest. The Examiner learns from a reliable source that there is a strong probability that the junction of the main and branch lines will be made just west of the plant of the Peterboro Sandstone Brick Company. From this point the branch will run northerly along the valley back of Mr. E. B. Edwards' residence, crossing the St. Lawrence L.L. Lake. The surveyors have been at work on a number of lines, but this is recognized as the most feasible. This route will necessitate considerable cutting, but this is the case with any of the proposed routes, and it is said to be practically settled that this will be the route selected.

The Examiner's informant simply laughed at the idea of the junction being made east of the proposed route, and it is said to be practically settled that this will be the route selected.

A Sporting Athlete. Toronto World: The gold cup for the individual championship (pupil scoring most points) in the De la Salle Institute athletic games which were concluded Friday, was awarded to Gordon B. Roche, who took seven firsts and one third prize, giving him a total of 23 points. The nearest pupil to him was J. Neville, with 16 points, while J. Torbay and J. Graney tied for third place with 14 each.

Many of the Lindsay young men who know Mr. Roche are profuse in congratulatory expressions on his success in the athletic field. He is a nephew of Mr. Albert Duck, Glenora, Ont., with whom he spent his holidays last summer when taking a "little outing" on the Kawartha lakes, the scenery of which he greatly admires.

RETURN OF GALLANT 45TH.

MEN PRESENTED A MOST SOLDIERLY APPEARANCE.

Banquets for Bandmaster Roenick and his Clever Musicians.

From Evening Post of June 30, March on, Soldier Boy, is true. War is over, you are through. There is no more war for you. There is nothing left to do. So when you march along the street Listen to the cheers. But when you come back sick or dead, there are no cheers or tears.

Lindsay's contingent, along with the remainder of the 45th Regiment, returned from Cobourg Camp yesterday by special train at 2:30 o'clock, and were met at the G.T.R. station by a swarm of Lindsay citizens. The boys have been away just twelve days, and during that time have been thoroughly instructed in the various manoeuvres of the British Army. On their return they presented a more seasoned and soldierly appearance than when going away. A sunburnt complexion and a fairly good crop of whiskers gave a manly bearing to the younger volunteers.

The weather conditions during the camp were fairly good, Thursday night's shower being about the heaviest. A clear sky was gladly welcomed yesterday morning. Officers and men join in praising the camping grounds at Cobourg which, with the exception of one rather low corner, is in splendid condition. The only fault they have to find is that the grounds are somewhat small, the camp being crowded for room. Officers and men got along well together, and the battalion were congratulated by General Lake, of Kingston, on their very soldierly appearance. Cobourg citizens, as well as the officers, praise the orderliness of the volunteers. Strict discipline was observed during the whole stay at camp.

The Victoria Regiment on their return showed that drill had not been forgotten, and were wonderfully well drilled. At the station great precision was noticeable with a number of difficult commands were being delivered by the different officers. The eight companies, comprising some 260 men, were led by Captains W. Henley, A. Williamson, W. Holroyd, G. Le-Cray, F. Patterson, Goad and Lancaster. Under the command of Lieut. Col. Sylvester, assisted by Major Staples, the regiment, headed by the 45th Band, marched up Lindsay-st. and Kent-st. to the post office, where the arms were stored away, and the volunteers were dismissed.

Bandmaster W. H. Roenick and his twenty-four musicians came in for a very large share of praise in Camp. The band have done nobly, being the best military band seen in Cobourg. Many honours conferred upon them. At the church parade on Sunday last, which attracted a very large crowd, the 45th Band played the accompaniments for the hymns, and their music was sweet and low and of true and noble quality. Their spirit and courage was much appreciated by those participating in the service. All the troops assembled in one large body, and the picture was one worth witnessing. The Protestants assembled at a drum-head service, at which various religious chaplains, such as the Roman Catholic, marched to church by a body, a special mass being provided for them. The staff officers, attired in military frock dress, stood near the chaplain at the drum-head service, while the officers and men of the regimental narrow-gauge railway, the 45th Band, the English service was used, the worshippers being provided with booklets giving the order of the service. It was a gay scene and yet one of great solemnity. The service was a short one lasting less than three-quarters of an hour.

Bandmaster Roenick had complete charge of the "Military Tattoo," held Tuesday night, in which the following bands took part: 45th, Peterboro, 47th, Cobourg, Frontenac, and 49th, Hastings. The tattoo proved an unqualified success and was witnessed by several thousand visitors. The illuminations and fireworks display were grand and lasted for over an hour.

Detachments were detailed to the town each day for police duty, and signalling was carried on under the instruction of the officers.

The work of the Y.M.C.A. Camp was very appreciated by the volunteers, and they speak very highly of the excellent assistance rendered by the Y.M.C.A. Camp, where free literature and writing material was always at the disposal of the men.

Major Martin, of Lindsay, visited the Camp on Wednesday, and was warmly welcomed by the Lindsay contingent.

The camera boys were on hand and caught some rare snap-shots.

Lieut. Col. Sylvester and Major Staples, commanding officers, are well liked by the regiment and officers.

Doubled in size in three years.

AND NOW OPERATE PRIVATE FREIGHT CARS.

The Mooney Biscuit and Candy Company, Limited, Stratford, Canada, is the fastest growing business in the Dominion.

Started in 1903, more ovens were necessary in nine months. In eighteen months, another wing was added to the original building, increasing the floor space by 18,000 square feet.

Building operations now under way will double the size of the Mooney Bakeries and Candy Manufactories, and give a total floor space of from 150,000 to 200,000 square feet. The illustration in the upper left corner shows the enlarged works when the addition is completed.

True to their policy, of adopting latest methods, the Mooney Biscuit and Candy Company, Limited, have had built and now operate, their own private freight cars. This company is the first in Canada to adopt this economical and rapid system of shipments.

Mooney's "Perfection Cream Sodas"

—are now known all over Canada—and this new line of freight cars will still further keep the name constantly before the public.

being acknowledged to be the best yet made.

As a general rule the camp has been remarkably free from sickness—not more than two men per regiment being detained in the hospital per day.

The closing day of camp presented a grand military spectacle. There were about 5,000 men of all arms on parade. At 2 o'clock all the battalions lined up on the commons, where they were inspected by Col. Gordon and staff. After the inspection the brigades did the march past, and this was the best sight of the camp. At four o'clock the great military street parade took place, and the streets were crowded all along the line of march. The procession was about two miles long.

No. 1 company of the 45th Regiment was one of the best in camp and Capt. Will Henley received much praise for the good impression made by his boys. On Thursday night his men showed their appreciation of his good treatment by presenting him with the following address and a valuable travelling suit case:

To Captain W. Henley: Sir and Captain,—We, the non-commissioned officers and men of No. 1 Co., 45th Regt., take this opportunity of expressing our good wishes for the success of your tour which you are making in Ontario, and we have shown up at this annual drill and ask you to accept this suit case as a slight memento of the very pleasant and profitable time we have had together. We hope health and peace may always be your portion. Witness the hand of the Co., Sergeant, Will Watson, Sergeant, Will Crosswell, Cobourg Camp, June 29th, 1906.

Cured a Comrade of Cholera Morbus and Saved His Life.

While returning from the Grand Army Reorganization at Washington City, a comrade from Elgin, Ill., was taken with cholera morbus and was in a critical condition," says Mr. J. E. Houghland, of Elgin, Iowa. "I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and he believed saved his life. I have been engaged for ten years in immigration work and conducted many parties to the south and west. I always carry this remedy and have used successfully on many occasions. No person travelling or at home should be without this remedy." For sale by all druggists.

Wipe Out the Vermin.

Mad or sane, Anarchists are vilely and abominably wicked, their enthusiasm for humanity is a sham, and they have no purpose beyond the gratification of the most brutal city. They deserve no pity, and should receive none. They have appealed unto Terror; to Terror let them go. We would not hesitate to inflict upon them the tortures they desire for others, and since they maintain that death by high explosives is comparatively merciful, we should not have the least objection to seeing them test their own theories. In the meantime an agreement among civilized nations to give them a sound dose of the cat before execution might act as a deterrent upon persons tempted to join them.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise. Instead of disappointment, it was the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the user make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.

You can advertise anything you want in The Post's "Want Column" and be sure to find it—with the exception of "Lost Opportunities."

KAWARTHA LAKES LINE. The Trent Valley Navigation Co'y Limited.

SAILINGS OF STEAMERS, 1906.
