Sold by Leading Clothiers Throughout Canada.

**SYLVESTER BAND EXCURSION**

**TO TORONTO AND NIAGARA FALLS ON CIVIC HOLIDAY, AUGUST 11th.**

First Excursion Over the New C. P. & Line will be a Grand Outing.

The Sylvester Band and Employees will run their 2nd annual excursion Civic Holiday, August 11th, to Toronto, and Niagara Falls via C.P.R., from Bobcaygeon to Toronto. Steamer Chippewa to Lewiston, and the Gorge Electric Railway along the Niagara River, in full view of the wonderful White Sulphur Springs and Niagara Falls.

Excursionists can purchase tickets at Niagara Falls for Buffalo for 50 cents return. The fare from Bobcaygeon to Toronto is only \$2.95, Niagara Falls, \$2.35; from Lewiston to Toronto, \$1.85. Niagara Falls, \$2.10, children half-fare. Train leaves Bobcaygeon at 7:15 a.m. and Lindsay at 8:15, calling at intermediate stations. Toronto tickets are good for two days, and Niagara tickets three days. For further particulars see posters.—d3w1.

**FRUIT AND FLOWER EXHIBITION.**

**A Rival for the Winter Fair.**

The arrangements already made for the provincial fruit, flower and honey show, which will be held in Toronto during the second week in November, indicate that it is likely to prove an important event in its line as the big winter fair held yearly at Guelph. No effort is being spared to make each feature of the show of the kind that has never been held in Canada. The Ontario Fruit Growers' Association has drawn up a liberal prize list and will pay the transportation charges one way on all exhibits of fruit sent to the show.

Special prizes will be offered for the best exhibit of fruit made by any agricultural society. It is expected many of the societies in the province will send their total exhibits from their fall fairs to this show. Arrangements have been completed to keep this fruit in cold storage. In this way, it is hoped to have representative exhibits of fruit from all parts of the province. Demonstrations in packing fruit will be given and bulletins will be issued describing the special qualities of each variety of fruit and stating whether it is best for cooking or eating purposes. In this way, housewives will be enabled to secure the best varieties of fruits for their purposes. On the last day of the exhibition a big auction sale of fruit will take place.

The money offered for flowers is over 100 per cent more than has ever before been offered in Toronto. About \$1,500 will be given in prizes in this section alone. The arrangements are in charge of a floral committee of which Mr. Edward Tyrrel, president of the Toronto Horticultural Society is chairman. The honey prize list is also a liberal one. Several prizes are offered for commercial packages.

Among the important gatherings that will take place at the time of the show will be the annual meeting of the Ontario Fruit Growers' Association and the Ontario Bee Keepers' Association, while a meeting of delegates from the various horticultural societies of the province will also be held. The Ontario government has made a grant of \$1,000 to aid the exhibition, which has been supplemented by a grant of \$200 from the city of Toronto.

Particulars regarding the show may be had by writing to the Secretary, Sup't. H. B. Cowan, Parliament buildings, Toronto.

**MORTGAGE WILL BE CANCELLED**

**MR. CULVERWELL WILL GIVE THE TOWN \$1500.00 WORTH OF STOCK**

This will be returned to the Company if Burleigh Power Reaches Lindsay Inside of Five Years.

The Finance Committee of the Council met Saturday to deal with Mr. J. A. Culverwell's request that the \$1,500 mortgage held by the town against Burleigh Falls power be cancelled in order to enable him to carry out a scheme for the development of the property. Both Mr. Culverwell and Mr. R. J. McLaughlin, who opened the negotiations at a special meeting last week, were present. Aldermen Storr, O'Reilly and Robinson were absent.

Mayor Sootheran said he did not feel like giving up the mortgage without receiving an equivalent. Referring to the \$400 advanced to pay expert Wright, of Toronto, his Worship said the sum had been paid on the understanding that it was to be repaid by Mr. Culverwell when the Fenelon power was brought to Lindsay. The town was out that amount, although not owing to any fault of Mr. Culverwell's planning.

The reference to the Fenelon deal elicited some heated remarks from Mr. Culverwell in whose breast the memory of that affair still rankles. He also pointed out that to bring the Burleigh power to Lindsay would cost about \$20,000 more than to take it to Peterboro, and to balance that the citizens of Lindsay should be willing to do something. The Council could give him a contract for the surplus over the fixed number of 60 street lights, and could also give him the contract for the waterworks power to operate the waterworks pumps. These contracts should be given at the price charged by the present Power Company, but he was willing to do better for private takers.

Mr. McLaughlin was heard, and after some further discussion Mayor Sootheran said it had been suggested that if Mr. Culverwell could see his way clear to give the town \$1,500 of stock in his company (the Central Ontario Power Co.), in lieu of the mortgage, the town would be safe in cancelling the lien. Mr. Culverwell was satisfied to do this, and the other members of Council thought it an admirable way out of a difficulty that might block the securing of the power for Lindsay.

The agreement will be properly executed in the course of a few days.

**SHORT STREET CHATS.**

**Conversational Tidbits Picked up by the Post Man on his Travels.**

Dr. Burrows—"I don't know how the invitations were arranged for the Lindsay, Bobcaygeon & Pontypool barbecue, but I notice there was a good representation of pettingloving Congress, birds of passage, and railway men. I cannot understand why the merchants, who will largely ship by the road and add to its success, are utterly and entirely ignored. However, this is probably only another example of personal merit and carrying of favor to self-advantage."

Mr. W. McGill (at the Lake)—"We in the section of the country, where I live feel that we will harvest one of the best crops we have ever had. Some low grounds have suffered, but the loss will not be irreparable. Our crop is all harvestable and we never had anything like it in this section of the country. As regards a noxious weed, which I notice is gaining great headway along the roadside, that is, the ox-eyed daisy. Now, I would advise the farmers in that section to beware even harder to get rid of than wild oats or mustard. Once it gets a start it takes a wonderful amount of cultivation to get rid of it. We are not troubled with it in our section, but have heard very bad reports of it."

Mr. Bert Weese—"This is a slightly old season in the horse business. I am occasionally picking up a few, but will not ship before Sept. Since April 15th, I shipped to Toronto market from this town one hundred and ten horses, of different grades. I notice periodically buyers from outside points come in looking for one particular class of horses. As a rule they get quite a nice personal mention but I handle everything from the lowest grade to the highest, and whilst I am not working for glory, yet I notice that the public does not hear much about my horses. I think notwithstanding the fact that some of our newspaper men pass as being 'horsemen.' I have been giving the farmers good service and they know it."

**MACHINE TELEPHONE SYSTEM.**

**Canadian Machine Telephone Company Actually at Work Here.**

(Peterboro Examiner, Saturday.)

Mr. F. D. Mackay, manager of the Canadian Machine Telephone Company arrived in town last night and will spend Sunday at Stony Lake.

Mr. Mackay informed the Examiner in a conversation this morning, that the plans for the installation of the system has been completed. These plans show that the whole town will be covered, and provide for an outside construction work costing \$30,000.

The material has also been purchased, and it will only be a matter of a short time until actual construction work will be commenced.

The underground work, according to the plan embraces a considerably greater territory than the contract with the town calls for.

It is seen from Dublin street to the C. P. R. station the wires on George will be underground, and the underground work alone is being planned for 2,000 subscribers.

The work is being taken up in a very thorough manner, and the really important work, that of preparing plans, and specifications and arranging for material, has already been completed.

**OBITUARY.**

**Edythe Letitia Brown.**

It is our sad duty to announce the death of Edythe Letitia eldest daughter of Mr. and Mrs. Weldon J. Brown, of King-st., east ward, at the early age of fifteen years, and eight months. Death resulted from the effects of a cold contracted some ten or twelve weeks ago, which developed into pleurisy and finally into pneumonia. Mr. Brown, who has been in Winnipeg for the past few months, was summoned by telegraph on Saturday to come immediately, and reached here in time only to see his beloved daughter pass away. Death, whilst sad at all times, is rendered more so when it strikes at the young and beautiful merging into womanhood. She was a bright, cheerful child, quite tall for her years and a general favorite. The sympathies of a wide circle of friends go out to Mr. and Mrs. Brown in this their hour of sorrow. The funeral took place this afternoon to Riverside cemetery, and was largely attended.

**CHAMBERLAIN'S COUGH REMEDY**

**ALWAYS CURES**

**And is Pleasant and Safe.**

This disease has lost its terrors since Chamberlain's Cough, Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known. For sale by all druggists.

**PAID INTEREST AT 350 P.C.**

**Two Women Borrowed Money Under Peculiar Circumstances.**

Before Judge Morson on Tuesday at Toronto there was revealed another instance of the high rates of interest charged persons whose circumstances occasionally make it necessary to call upon others for monetary assistance.

Mrs. Elizabeth Toplis of 25 Maple avenue and her daughter, Mary were sued by William Petley for \$275 on a promissory note for one month. The defendant's claim was that they had borrowed three sums, \$50, on which they were to pay \$40 interest, \$40 with \$65 interest, and \$15, for three months, on which the interest was to be \$13. Lawyer Lampert claimed that this was the most extortionate kind of usury, the rates being 82 per cent., 80 per cent. and 350 per cent. respectively. They had given \$100 on this, and had signed a note in favour of Mr. Petley for \$275, which was \$100 more than they owed. This was explained on the grounds that the women knew nothing at all about the business and were so frightened of what they had been doing that they were willing to sign anything to keep Mr. Petley quiet. They had paid money to him for which he had never given a receipt of any kind, and they had not known enough to ask for it.

"What is the result when you get into the teeth of sharks?" asked Judge Morison. "You are generally eaten up, aren't you? That's the result in this case. In common everyday language, my friend, you are up against it. Judgment for the plaintiff with costs."

The case may be appealed.

**TO ADVERTISE IN CHURCH**

**Milwaukee Pastor Proposes to Give Merchants Advertising Space For Increasing Congregation.**

That advertising pays is the motto of the Rev. W. A. Shaw, a Milwaukee pastor. To prove his contention, Mr. Shaw offered advertising space, in his church to merchants, and in the manner in which the members of his congregation have responded has proved his contention. He believes advertising is legitimate, and can be used to make the church more of a power in the world.

Mr. Shaw, who is pastor of the North Side Congregational church, announced at a recent Sunday service that two offers were open to merchants, those of his own congregation preferred. One plan was that the merchants be allowed to display advertising privileges in return for obtaining an increased attendance. The other that they pay toward improving the church property.

The first offer provides that the regular attendance for a specified period of a certain number of persons, the terms varying with the value of the privileges given in return. The second is being taken more general advantage of, though so far on a small scale.

Victor Wilderheim was the first to respond by building a cement walk around the church, paying for the walk and \$50 in addition to have his name imprinted in the pavement.

**Cholera Infantum.**

This disease has lost its terrors since Chamberlain's Colic, Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known. For sale by all druggists.

**TASTING THEIR OWN MEDICINE.**

**Peterboro Steamboat Men are Complaining of Low Water.**

For some years past—until the present season, in fact,—steamboat men of this district have complained with good reason, that the low water made it impossible for them to navigate their steamers to advantage and caused them much loss in having to pole logs and scows out of bays and small streams, where vessels could usually enter. This state of affairs is now getting a taste of the same medicine.

The steamboat men navigating the Otonebec River are complaining quite strongly of the low water in the river. They say that this low water is caused by stop-logs in the Hastings dam having been out since May. This condition has allowed the water to run away at that point, and has rendered it exceedingly difficult to navigate. The boatsmen say that the reason the stop-logs have been removed is that some market-gardeners living above the dam have made representatives that if the logs were put in and the water raised it would injure their crops which apparently have been put in close to the river.

The consequences of this action on the part of those in charge of the dam, is that navigation at nearly all points above the dam is being seriously affected, and those who are engaged in the steamboat trade on the Otonebec state that if it is not remedied speedily they will have to stop running.

This would be a very serious state of affairs, and one which would be a bad blow to the whole canal project.

It is not, as said by those interested, because of the fact that there is not sufficient water in the river, because if it were properly regulated there would be no such trouble as is experienced now.
