ASTRAVELLERS' COME AND GO

PITHY PERSONAL POINTERS.

Mr. W. T. Craig, of Kinmount, was in town Monday.

Mr. Cecil, of the G.T.R. staff, is visiting his friends in town.

Mr. Steve Ingles, of Toronto, is spending his holidays in town.

Mr. L. H. Rose, M. B., is spending a week vacation at Sturgeon Point.

Miss H. Watson, of Beaverton, was the guest of Lindsay friends yesterday.

Mr. John R. of South Ops, left Tuesday via C.P.R. for Seattle, Wash. to visit friends.

Mr. Wm. Cathcart, of Indian Head, N.W.T., was in town Tuesday for a few hours.

Mrs. L. B. Dillman, of Little Britain, is on her way to Seattle, Wash., to pay a lengthy visit with friends.

Rev. J. W. Macmillan, of Winnipeg, is spending his vacation at Sturgeon Point. He arrived a few days ago.

Mr. Wesley Thurston, of the R. N. Bell and wire store, Peterboro, is visiting his parents, William's, north.

Mr. and Mrs. J. W. Wallace, north ward, are entertaining Dr. Crane, Miss Marion Crane and Miss Lillie Wright, of Niagara Falls and Toronto.

Mr. Wm. Dundas, European buyer for Dundas & Frawley Limited, returned Saturday evening from the Old Country. He reports a successful and enjoyable trip.

BREEZY LOCAL BREVITIES

GATHERED BY POST REPORTERS ON THEIR DAILY ROUNDS

What is Happening in Town and the Country About Us.

—Bicyclists would feel grateful if Council would send a man to pick up the large stones on Lindsay-st., good road.

—Mr. Jessie Perrin, of the Canoe Club boat livery, has added several nice skiffs to his already large outfit of boats.

—The firm of Messrs. Boxall & Mathie have recently put up a very neat and becoming hanging sign in front of their store.

—Since the opening of the railway to Peterborough there has been a marked falling off in the quantity of freight carried by the Str. Esturion.

—The Kenosha brought in a large excursion party from Fenelon Falls last week. The outing was under the auspices of the band of that village.

—In Mr. Jos. Riggs' window are displayed some very choice postal card views of the Post-office, Collegiate Institute building, and other Lindsay beauty spots.

—And now Orilla is held for damages for flooding of farm lands by the dam at its municipal light and power plant. The damages are small but not so the costs.

—Seventy-five of the navies employed on the L.B. & P. Ry between Dunford and Bobcaygeon, held a picnic in Mr. J. H. Hancock's orchard, near Dunford on Tuesday last, and enjoyed a good time.

—Peterboro Sons and Daughters of England will run a joint excursion to Sturgeon Point and Bobcaygeon on Aug. 18, arriving here by special train in time to connect with Str. Esturion.

—Messrs. Stephen Sopher and Jas. W. Wilson, who were injured in recent accidents on the railroad, are now in charge of the diamond tracing in the east ward, being given permanent occupation by the Grand Trunk.

—All persons allowing horizons weeds to go to seed on their premises are liable to punishment under the statutes. If the guilty ones are to be prosecuted, Magistrate Jackson will have to defer his vacation until winter.

—The building formerly occupied by Mrs. Miller, miller, has been under the supervision of Contractor McGeough—been transformed into two good-sized stores. Mr. Warren, piano agent, is preparing to occupy one of the stores.

—Peterboro Examiner. Five cars will be placed on the street car service at the outset of the operations of the street railway—Up-to-date, \$75,248.49 has been collected in taxes as against \$66,329.98 last year, an increase of \$9,918.51.

—Manager J. E. Jackson, of the Petrie house, Cobocook, says the present season is likely to turn out the most successful of his career. Both of his hotels have been filled with guests for several weeks, and several large parties are due.

—The citizens of the town have not any idea of how far the season is advanced. Many farmers are still putting in a large plate glass window in place of the small panes which have done service since the Adams block was first erected. Today only half-a-dozen windows on Kent-st. each plate glass.

—Mr. C. M. Oke, expert oil well borer, of Petrie, says there is oil to be found in Bowmanville, and backs up his idea by a subscription of \$50 towards a fund to sink a test well into Mr. Reynolds' farm in the eastern part of the town. Mr. Reynolds has subscribed \$150 and others have subscribed, making the total amount nearly \$500. Boring will begin immediately.

—This morning, as Mr. Hart, of East Ops, was delivering a steer to a west end butcher the animal went crazy and ran amok. At the town wharf it tossed a young lad down the grassy bank without injury, and on Peel-st. R. Humberford, jr., had a narrow escape. The animal, turned into the yard at Horn Bros' woolen mill, where it was lassoed by one of the employees, hitched to a cart, and yanked back to the purchaser.

—Mr. John Everson, of Dunford, the well-known sprinter, paid our town an early visit last Saturday, arriving here before many of our citizens were out of bed. He carried a basket containing ten dozen fresh eggs, and didn't change hands often, either. Mr. Everson has furnished Mr. McConnell, of the Royal hotel, with fresh eggs for the past few years, and receives a couple of cents per dozen over market price because of the fine quality and size of the fruit.

—Toronto Globe fifty years ago notes: "On 8th inst. a beautiful steamer named the Agnew was launched at Fenelon Falls. She is owned by Mr. Wallace and is to ply between the Falls and Port Perry, and will run five or six miles per voyage as soon as the lock at Bobcaygeon is repaired." A former issue contained a notice of the trial trip of the steamer Passport, which is still on the regular route between Toronto and Montreal, and is apparently as sound as ever.

—As our band boys were rendering their weekly concert last Thursday night, a young man walked into the ring and was introduced to Mr. Roenick by a companion. The man stated that he was a clarinet player and would like to play in the Sylvester band. Mr. Roenick, who is always on the lookout for players, heard the band boys laugh and upon looking more closely he found that he was engaging a man who he knew well, but who had got a clean shave

and hair cut since the bandmaster saw him last.

—Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant. 34

—Two work train gangs were taken off the L. B. & P. Ry today. The ballasting between this town and Bobcaygeon is now in good shape.

—Monday the town of Peterboro was visited by over 1,000 excursionists from Barrie. The excursion was under the auspices of the Barrie Fire Brigade. How is it that the town of Lindsay cannot attract an outside excursion here? The main reason is that we have no park accommodation.

—Owing to the high price of plank and the cost of retying Fenelon Falls bridge every couple of years, the Roads and Bridges committee of the County Council has decided to cover the bridge with a layer of concrete laid on a framework of steel.

—Some forty-five or fifty people arrived in town Saturday on the steamer Cora, from Port Perry and Ball's Landing. They spent the day in town, and many of them were carrying the new C.P.R. station and yards.

—A recent arrival from St. Louis states that the weather is terribly warm there, and that one needs no furs. The Philippines, who appear unnumbered with clothing, are the happiest people there.

—A very pretty picture is on exhibition in Mr. R. S. Porter's stationery store window. It is a large photograph of Mrs. Wm. McKenzie's new pleasure boat, which was taken while she was out on the town wharf. The photo shows a good view of the surrounding grounds.

—Mr. A. Clark, merchant tailor, town, received a message yesterday that his brother, Mr. Duncan G. Clark, had died in Saratoga, N.Y., on Saturday last. The remains are expected in Fenelon Falls tomorrow (Wednesday), and the funeral will take place on Thursday.

—During the first half of the pre-war building permits were issued in Toronto for 728 dwellings, 25 factories, 23 warehouses, 21 stores, 2 banks, 5 churches and missions, which, with alterations and additions, amounted to \$2,629,102 in value. This is a record breaker, and is practical evidence of the prosperity of that city.

—Manager G. H. M. Baker will start the Rathbun Co. mill on the right shift, thus giving employment to a double gang of men. Keenly interested in the mill, Mr. Baker has stored along the river and at Fenelon Falls, and the mill will have to be operated day and night at top speed to cut all the stock before the frost comes.

—Monday morning a well-known Peterboro business man was fined \$1 and costs for allowing waste paper to be thrown in a lane at the rear of his store. In Lindsay waste litter of all kinds is thrown onto Kent-st. instead of being disposed of in the bins provided for that purpose. The Council keeps a man constantly at work collecting and removing the stuff.

—Mr. Fred Edmonds, of the north ward, has secured patents in the U.S. and England for the "Twentieth Century Magazine Dissolving Slide Carrier," a clever invention to simplify the handling of slides of all sizes and renders it almost impossible to get a view upside down. He will likely realize a large sum from the invention, which is bound to be used by every showman. Two years ago Mr. Edmonds disposed of an invention to Ward Edison for a handsome figure.

—On July 28th Mrs. Mary E. Swan, of Brooklyn, N.Y., and Miss Nettie E. Somers, of North Attleboro, Mass., looked a splendid mask along while trolling in Boschnik Narrows, Stony Lake, Capt. Chas. Grylle, of the Str. Stony Lake, went to their assistance and helped to land the monster, which girthed 21 inches around the body and measured 50 inches from head to tip of tail. It was the largest fish caught in those waters for many years.

NOTICE.

Wanted a number of steady young women, not under 17 years of age. Steady employment will be given all winter, for which we will pay \$3 to \$4 per week according to the proficiency of picker. Will be starting working peas in Picking Room about 29th August, and those wanting a place will please call at the Seed House office at once and leave their names and addresses. Board can be procured cheaply for out-of-town applicants who wish to come and secure steady, clean and healthful employment. JAS. M. SQUIER & SON, Lindsay, 18th July.—W.

NO LOVE IN IT

We don't pose as public benefactors. We don't try to make you believe we're selling \$15 suits for \$10 because we "love" you.

We do claim to sell you dependable suits from \$5.00 to 20.00 that are worth every cent they are marked.

OUR GUARANTEE:—If you are dissatisfied after you have made your purchase you can have your MONEY BACK.

Men, young men and boys, our store is your wardrobe; it contains all kinds of Toggerly for you.

If you are not one of our customers it will pay you to get in touch with us at once.

M. J. CARTER

LINDSAY.

BOARD OF WORKS.

Contracts for Two New Sewers Let to Mr. Chalmers.

At Monday night's meeting of the Board of Works, held prior to the Council meeting, Mayor Sootheran and all members were present. The following offers were received for the construction of sewers:

Jas. M. Chalmers—Caroline-st., \$1589.00; Glenelg and Albert-st., \$1872.00; brickwork, \$17 per 1,000, side drains 72c. per foot, main sewer \$1.04, rock and quicksand \$3.95; concrete \$3.58; timber and plank \$14. C. H. Lindsay—Caroline-st., \$1,635.00; Glenelg and Albert, \$1730.00. Brickwork, \$18, side drains 70c., main sewer \$1.25, concrete \$1.75, lumber and plank \$10.

Jas. Bogue—Caroline-st., \$1608.88; Glenelg and Albert, \$1600.87. Brickwork \$20, side drains 65c., main sewer \$1.50, concrete \$7.50, lumber and plank \$18.

J. J. Miller—Caroline-st., \$1725; Glenelg and Albert-st., \$1850. Brickwork \$17, side drains 70c., concrete \$5, lumber and plank \$15.

Moved by Mayor Sootheran, the tender of Mr. James M. Chalmers be accepted.—Carried.

At Chairman O'Reilly's suggestion it was decided that Mr. James Ruckaby trim all overhanging branches of trees along the route of the town walks.

The chairman submitted a report showing that \$10.31 remained to the credit of the north ward snow plowing contract, resigned by Mr. Brooks and it was moved by Aldermen Robinson and Mauder that the amount be handed over to Mr. Brooks.

Mayor Sootheran—"Should we do that? It's a broken contract—he quit work during the worst storm of the winter, and left the citizens to plod through the drifts the best way they could. It will be a very bad example for future contractors. Not alone that—Brooks was very important to me, and to others also, when spoken to about his contract."

Ald. O'Reilly—"The work all over the town shows an increase of \$2.80 for snow plowing."

At the suggestion of Mr. Mauder, Mr. Waters, McCrea and Robinson held that it had been agreed that Mr. Brooks was to receive any balance that might remain at the end of the season.

Mayor Sootheran—"I never understood it that way, and I think you should back me up. Brooks threw up his contract when he thought he was going to lose money. It was well paid for what he had done up to that time, and no member would be so generous in his own case. We have no money to throw away in gifts."

Ald. O'Reilly—"If you allow Brooks the balance from the contract we should do the same by McCrea, the east ward man."

After some further discussion a vote was taken and Ald. Robinson's motion carried.

Mayor Sootheran—"Is a disgrace not a man at this Board would do such a thing in a private deal?"

The committee then adjourned.

A \$10 Chill.

Tompkins met Bell, who owed him some money. Bell was subject at intervals to shivering chills, which racked him in a terrible manner.

"Hello, Bell! How are you?" said Tompkins.

"Bad, old man, bad! Worse than ever."

"Indeed! When do you expect to have another chill?"

"I can't tell. Why do you ask me?"

"Well! I thought I'd like to be around to see if you wouldn't shake out that ten dollars you owe me."

East Cross Creeks Bridge.

A recent amendment to the Ontario Statutes makes it incumbent on County Councils to assume charge of all township bridges over 300 feet length. East Cross Creeks bridge in Ops comes under this ruling and as it was in bad shape the County Council has taken the repairs in hand, under the superintendence of Mr. Robert Bryans, member for Lindsay. A substantial timber bridge is now being erected, the superstructure resting on 110 piles driven many feet through the mud in order to reach a solid foundation. On these heavy 10x10 cedar timbers are laid, with equally solid cross pieces at intervals, and the flooring will be of squared cedars. Mr. Jas. Brisbin, of Burnt River, has the contract and is making a fine job. Traffic in that direction has been suspended for some days, and now goes by way of Hill Head.

LINDSAY PUBLIC LIBRARY.

VACANT POSITION OF SECRETARY NOT YET FILLED.

On account of the absence of the Secretary at last evening's meeting of the Public Library Board, the meeting was rather long and slow, and at times irregular. Those present were Judge Harding, chairman, and Messrs. Moore, Flavell, Beal and Kyle.

The minutes of last meeting were read and approved, and on motion Mr. Beal was appointed to act as secretary for the meeting.

The first item taken up was the resignation of Mr. E. A. Hardy as Secretary for the Board. He had been a member of the Board for over ten years and those present referred to Mr. Hardy's good qualities and agreed that it would be a very difficult matter to get another man as fit for the responsible position as was Mr. Hardy, who took a great interest in the library and was a lover of good books and familiar with all authors. It was moved by Mr. Beal, seconded by Mr. Flavell, that the resignation be accepted, and a committee of Messrs. Judge Harding and Father O'Sullivan

was appointed to draw up a suitable resolution on behalf of the Board.

Later on the immediate necessity of appointing a new Secretary was discussed, the members stating that it was necessary to have a man who was interested in library affairs. The names of Mr. Geo. Patrick, Mr. Jas. Low and Mr. Walks were discussed as being all good and capable men for the position, and it was finally decided that a committee comprising Messrs. Harding, Moore and Flavell should interview Mr. Walks, who is the successor of Mr. Hardy on the L.C.I. staff, and report at the next meeting.

A communication was received from Albert E. Henderson, stating that he had a list of good books for sale, which he would sell for fifty cents per volume, but as the books listed were already in the library the deal was unnecessary.

Mr. F. D. Moore stated that the late Mr. Dan McGibbon, had had a number of books in his library, which were to be presented to the Public Library. Mr. Moore had inspected the books and said they were some editions of Carlyle's and Shakespeare's works which the library did not contain. The books were accepted.

The account of Mr. W. C. Way for \$5 for grading and inspecting walk, was left in the hands of Mr. Beal.

From McLennan & Co., stating that they could furnish Scranton coal for \$7 per ton.

A letter was read from Mr. C. H. Gould in regard to Miss Reazin's three weeks' course at Montreal, in which he expressed his opinion of the fitness of the librarian to undertake her work and spoke in high terms of Miss Reazin's good qualities.

The matter of getting hat racks for the library, and asking the people who attended to take off their hats, was also discussed.

The accounts were as follows: Toronto World, \$1.40; Miss M. Conside, \$1.00; W. A. Goodwin, \$1.40; Light, Heat & Power Co., \$28.18.

The Librarian's report was read as follows: For month ending July 12, 1904, circulation in detail History 12, Biography 19, Voyages and Travels 20, General Literature 13, Juveniles: Boys 117, Girls 25, Little Ones 41, Bound Periodicals 10, Poetry 12, Science 24, Miscellaneous 8, Fiction 349. Total circulation for month 650; new tickets issued during month, 22; total number of borrowers to end of month, 1643. Cash receipts for month, \$1.22.

The Board adjourned at 8.35.

To Exterminate House Flies.

Scientists having proved that the common house fly is responsible for the spread of some of the most deadly diseases, it becomes the duty of every housekeeper to assist in exterminating the little pests. Many contrivances have been used for the purpose, including fly traps of many kinds, sticky paper, and different makes of poison, but although all will kill some flies there is only one really effective way to kill them all, and that is Wilson's Fly Pads, being sure to follow the directions carefully. One ten cent packet of Wilson's Fly Pads has been known to kill a bushel of flies, and a few pads properly used will kill all the flies in any room in a few hours.—J.W.

BAKER'S Oil

OF

Lemon

MAKES THE CAKE.

NO WASTE.

REWARD—A Reward of \$5 will

be paid to any person giving information that will lead to the conviction of any person selling liquor in the County of Victoria otherwise than according to the law as laid down in the Liquor License Act. The address of the sender will be treated with confidence and the information will be acted on promptly. JOHN SBOET, License Inspector, Box 473, Lindsay.—J.W.

FARM FOR SALE OR TO RENT—

First-class farm for sale or to rent, being north half of Lot 25, Con. 9, Manvers, (the farm formerly owned by the late David Jemison), situated two miles from the Village of Bethany. Contains about 108 acres, of which about 12 acres is good hardwood bush, the remainder being good arable land in a good state of cultivation; soil clay loam, good buildings, one acre of good orchard; farm convenient to school. For further particulars apply to DR. A. JEMISON, Millbrook, or to SAMUEL T. JEMISON, Bethany.—J.W.

DEW DROP INN CAMP.

Headquarters of a Fun-loving Crowd at Rosedale.

—Miss May Sudham, one of our

tall members, is very hard on chickens but a poor judge of tender birds.

—Mr. A. Robinson, of Toronto, and Mr. Jeffrey, of New Jersey, paid the camp a visit Sunday. They are hearty eaters.

—All hands took in the Civic Holiday day at Cobocook, one of our dears winning a prize, although she had to "Leggit."

—The campers attended church in a body Sunday night at the Rosedale Cathedral. One would have thought we were a lodge, as we filled the church. A bat came into the church during service and all hands tried a visit to her daughter, Mrs. Edward Gagnier, was found yesterday by her grandson with her head and shoulders immersed in a water barrel, and all efforts to resuscitate her were unavailing. Mrs. Gagnier's complaint of dizziness, and it is supposed she fainted while bathing her feet in the barrel, which was quite full, and fell forward with her head below the water.
