Men's Suits

Coats are made with fitted backs-that is, the fitted effect is present, but they have that loose, stylish hang that most every man likes. Broad, good-looking lapels that set sure and flat. The collar grips the neck band with a firm, always there to hold-not the least sign of a "yawn." Straight or slightly rounded coat fronts hand padded, which makes them keep their shape as long as the coats have life.

Nice length vests of a decided mannish cut.

Trousers are as shapely and good looking as the coats, which is high praise for them, indeed.

Now isn't that the kind of a new suit you have been looking for? We are showing them in some exceptionally nice, stylish Tweeds and very durable and fashionable Worsteds. Handsome suits indeed and worth having a look at them-to-day-at Sutcliffe's.

Price Savings

It is'nt what you make counts most-it's what you save that swells the total achievements at the year's end. It's your duty to save and it's the duty of your store to help you save by offering dependable merchandise at lowest possible prices. But during August we do more than this-we are closing out all odd line throughout the store and the price reductions are extreme indeed.

Better just come each day and spend an hour or so in looking around - note the price tickets and you will see how great is our claim and how justly we are entitled to it when we say we sell "Trustworthy Goods at uniformly low prices" all the year around - yet we offer still greater reductions and savings for you to take advantage of during the next few days.

We close at Five O'clcck daily, except Saturday, during August.
