

STURGEON POINT REGATTA

Most Successful Aquatic Event Ever Held Under the Auspices of Cottagers' Association.

WEATHER CONDITIONS WERE PERFECT.

Events Witnessed by Fully 2500 Visitors from Lindsay and all Points on the Kawartha Lakes.

EVERY RACE WELL CONTESTED

Great Assemblage of Pleasure Launches—Chemong and Stony Lake Associations Well Represented.

Evening Post of Aug. 9
The sense of satisfaction induced by the knowledge of duty well and faithfully performed is today the heritage of every member of the executive who had in charge the management of the annual Sturgeon Point Regatta, held yesterday. True, the success of the affair was greatly aided by the magnificent weather conditions, the day being perhaps the finest of the summer. The heat in the mid-afternoon was somewhat oppressive, and was felt especially by

spectators gathered in unsheltered spots in the vicinity of the judges stand—the finishing point for all the races.

The accessibility of Sturgeon Point and the suitability of beautiful Sturgeon Lake for aquatic events, must have been well impressed on the mind of every visitor who viewed for a first time the grand sheet of water, with its background of charming shore line, majestic oaks, towering pines, and picturesque summer cottages and boat-houses, and even the semi-resident cottagers, who spend part of three months of the Point every season, were able to discover new beauties yesterday under the spell of the radiant sunlight skimming on the placid waters and new

Kathleen—arrived with a full load from Lindsay, and was followed at about 11 o'clock by the Esprit, the flagship of the Front Valley Navigation Co., with about 350 on board. Both boats made a second trip, and returned with their full legal complement. In the interval the Captain of the T. V. N. Co., arrived from Chemong with 200 people on board—members of Chemong Cottagers' Association, and leading citizens of Peterborough, and the Manita of the same line, pulled in from Boboysagon with a party of 125. Half-a-dozen steam yachts, one having on board a delegation representing the Stony Lake Cottagers' Association—four of any parties to swell the throng of pleasure seekers, the Kawartha bringing about fifty from Fenelon Falls.

VISITORS WELCOMED.
Cottagers took advantage of the opportunity to extend the right hand of fellowship to friends and acquaintances, and many lodged a welcome and bounteous fare in the one hundred or so homes of Point dwellers. The majority of the visitors, however, came provided with well-filled hampers, the contents of which were

THE LUMBERMAN'S FAVORITE YACHT.

sampled under the grateful shade of the greenwood trees. Bachelors and other 'lonelies' were provided for at Dickson's boarding house and Mrs. Walkey's restaurant, where meals and lunches were served to hundreds of hungry callers.

In connection with the 'feeding of the multitude', the officers of the Association have it in their power to effect an improvement next season that will be hugely appreciated by

color tones visible on every hand. Although the first race was announced for 1.30 p.m., people from the country roundabout began to gather in at an early hour—before many of the cottagers had partaken of their porridge. Early astir on the farms, they probably rushed the morning's work in order to enjoy a long and pleasant day by the lakeside. Next the campers appeared, along with athletic young men who had made an early start and paddled or rowed from Lindsay or Fenelon Falls. About 9 o'clock gasoline and steam launches, with joyous parties on board, began to awaken the echoes and proclaim to all and sundry that they were not the speediest of their kind they could at least make as much noise as the best of 'em.

regatta visitors who came provided with hampers. What is needed is a good dainties when the owners (and the care for baskets and parcels) at the regatta. A full lunch basket or dinner party is a comforting thing to have by one's side when the gangs of humor are beginning to manifest themselves, but up until the symptoms are well defined no one caters for the job of lugging the addressed hamper about, and the hot sun and the resultant shinning does not always tend to improve the contents of the family who is left to speculate under a tree is apt to imagine that he or she is missing all the fun, the result being that pliers find many baskets unopened. Yesterday quite a lot of petty stealing was done by young fellows who should have left the weight of

Constable Graham's heavy hand. In one instance, at least, the thieves made away with a large basket containing, in addition to cutlery for a party of half-a-dozen, silver knives, forks and spoons of a pattern highly prized by the owner.

AN ANIMATED SCENE.
As the hour for commencing the program drew near the visitors and cottagers congregated along the shore line, where a number of comfortable seats had been placed. The water was fairly alive with canoes, rowboats, gasoline and steam yachts, the larger craft being liberally decked with flags and banners. The scene presented was truly one worth witnessing, and those who had not been present at other regattas pronounced the scene one of the most entrancing they have ever witnessed.

THE RACES AND WINNERS

Contests were interesting and in the Main Well Contested.
The first race put on was one for gasoline power boats, which included all classes. There were four entries—J. Dickson's handsome covered launch, Jesse Perrin's new 30 ft. launch, which made its maiden run; Mr. J. W. Flavell's Swannona; and the Wilson boys' "It". This race was very closely contested, the Wilson boys' "It" being the victor.

of them indulge in a little "blowing" when there is no prospect of anything doing, when it comes down to clearing their decks and preparing for action. Commodore Brown is never able to find them.

THE OFFICIALS.
Too much praise cannot be bestowed upon the executive for their excellent management of the races. The time was lost in getting them started or during their progress. The gentlemen in charge were: Official starters, Dr. R. Allan, J. D. Flavella, J. M. Knowlson; official timer, Dr. Shields; judges, Messrs. Jones, Graham, Wood; measurer, Mr. L. Wood; megaphone, Mr. R. Miller.

THE HOME GOING.
The races finished at about 5.30 o'clock, but it was after 8 o'clock when the last boat load of tired but satisfied excursionists left the Point.

MISFORTUNE BROUGHT LUCK.
When in Trouble Remember this Peculiar Incident.
New York, July 24.—The man who fell in a sewer and came out immaculate, carrying a bouquet of roses, will have to take a back seat to Frank H. Moorehead, of Fairfield, N.J.

Moorehead went fishing recently in his canoe. About noon he accidentally caught his foot under the canoe seat and fell heavily, spraining his ankle and upsetting the canoe. He lost all the fish he had caught and handicapped by his sprained ankle, was almost drowned.

Crawling ashore half dead Moorehead painfully hobbled toward his home, taking a short cut. This brought him to a cottage, which he entered four years ago. Stopping there to rest his aching ankle, he fell into the cellar, tearing his clothes and getting painfully cut and bruised.

While Moorehead lay in a heap of wreckage, saying all the unkind things about fishing trips that he could think of, in the harshest and most forceful language at his command, he saw a silver sugar bowl nearby. Moorehead forgot his aches and pains and looked further. He caught himself up and ran, including big and little pieces, and in a crevise near by was a black box. It contained watches and a number of rings, some of them set with diamonds.

The goods found are valued at from \$2,500 to \$3,000, and are supposed to have been hidden by some thieves.

Victoria's Crack Regiment.
The following appeared in new Military orders, issued from Ottawa Wednesday:
45th Victoria Regiment—To be captain, Lieutenant M. A. Germain, vice Captain J. McN. McCrea, transferred to the reserve. To be provisionally lieutenant, Sergeant William James Thorne. To be provisional lieutenant (superannuated), Sergeant Bruce Holmes Hopkins.
South Ops C.P.R. Station.
The new C.P.R. station at South Ops, just completed, will be a great accommodation to the people of the entire section, and all feel grateful to the Company for so cheerfully granting their request. Although present arrangements provide for only two trains daily stopping there, the people feel that in a very short time the Company will realize that it will be to their advantage to have all trains stop there. Many visitors will arrive and depart from that station, in addition to local traffic.

The Mooney Way
There's nothing too good to go into MOONEY'S CRACKERS The best flour that Canada mills, the best butter and cream that Canada's famous dairies can produce, and the best equipped bakery in Canada, to convert them into the best crackers you ever ate—
Mooney's Perfection Cream Sodas
They are good eating any time and all the time.
Crisp, inviting, toothsome.

INTERESTING FARM NOTES
IMPROVING THE SMALLER GRAINS
The Work as Conducted by the Canadian Seed Growers' Association.
Extract from the last annual report of the secretary of the Association: During the past year the work in improving the smaller grains as conducted under this Association has made a steady and very material advance. Not only has the number of operators increased, but what is perhaps greater importance, there has been a very decided advancement in the intelligent interest taken in the work, and much has been added to our knowledge as a result. It is gratifying to note the degree in which many of the growers have caught the spirit of the work and have become sensible of the fundamental principles involved. With the increased interest in the improvement of strains there has come a greater tendency on the part of the growers to conduct trials with a few leading varieties of the crop or crops under consideration, and as a result many unsuitable varieties have had to give way to others more desirable as foundation stock. The improvement and maintenance of these superior varieties and strains seems to offer great advantages. The degree to which many of our best varieties have become mixed with other less desirable sorts is noteworthy. This intermixture is largely due to carelessness on the part of the grower and to the use of improperly cleaned itinerant thrashing machines. Some of these unwelcome kinds mature earlier than does the regular crop, and as a result they multiply with great rapidity. As an example of this we find the vagrant variety of wheat known as the Assiniboia Red, which contaminates many of the wheat fields of the West, maturing somewhat earlier and shelling more freely than does its host, and hence establishing itself more firmly as time passes.

Then again we find the different diseases to which these smaller grains are heir, very difficult to keep under control in large areas. As a result of these things it is almost impossible to secure with certainty strong, healthy, pure and uniform seed of high quality in the ordinary manner. This fact explains the growing popularity of the special seed plot of limited area as a place where high class seed may be produced. The use of only the best obtainable seed on clean and well prepared soil, allowing the crop to thoroughly ripen, making it possible to select seed by hand from standing plants of desirable types and in sufficient quantities to perpetuate the same, and threshing and storing separately from other kinds, are the main claims that this system has established in agricultural practice.

While the ultimate aim of the grower is to establish a strain which will yield more bushels of good quality per acre under his conditions than did the original, yet the factors in true breeding are overshadowed by the question of resistance. There are numerous adverse conditions such as rust, smut, weakness of straw, drought, impoverish soil etc., which go to influence the yield etc. which go to influence the yield etc. which go to influence the yield etc. which go to influence the yield etc. which go to influence the yield etc.

FENELON FALLS CIVIC HOLIDAY
Good Time Enjoyed by All Visitors at the Cataract Village.
Evening Post of Aug. 10
Yesterday was Fenelon Falls Civic holiday, and reports say the day was very successful. Large crowds from the surrounding villages were present, and a large programme of athletic sports run off.
The baseball tournament was a great drawing card, and resulted as follows:
(First Round)
Boboysgon 4, Hartley 3. Batteries: Boboysgon—Cameron and Hagatip; Hartley—McKerrill and McFadden. Cobcoek 9, Glenora 10. Batteries: Cobcoek—Cook and Hall; Glenora—Marchison and McLod.
In the play-off Boboysgon defeated Glenora with three innings by the score 18-1. "Bobbie" Cameron, in the box for the "Bobbie", is well-known to Lindsayites. Dick Butler, our own town league umpire, made a hit with the villagers.
Wear and Tear.
Valer—I can't seem to keep the crease in your trousers, sir.
Spoonster—Well, you know, my man, she's a pretty heavy girl.

McClary's
Only One Range Has An Enameled Steel Reservoir
and that range is the Pandora. Reservoir is in one piece, oval in shape, with no corners, seams, etc., to catch the dirt. Its heavy, triple enamel coating is as smooth as glass, easy to clean, and will withstand any degree of heat without chipping or burning off.
Such a cleanly reservoir that fruit can be cooked in it without fear of taint. You cannot do that with tin, copper or galvanized iron reservoirs.
If your local dealer does not sell the Pandora, write direct for free booklet.

Sluth From the Fishery and Dept. After Fur Smugglers.
Evening Post of Aug. 7
A detective from the department of Game and Fisheries of Canada, engaged on the alleged fur smuggling case, and the affair was allotted to the bottom.
Ugly rumors were flying last week concerning certain gamekeepers at Algonquin Park and their alleged lock-out. It is the opinion of the department's chief officer on the trail, however, is admitted that the place was not supposed to be protected, and that the smuggling of their furs, has been going on.
At present the place where they shall be arrested is being investigated, as is the name of the chief criminal officer on the trail. It is admitted that the place was not supposed to be protected, and that the smuggling of their furs, has been going on.
A Ready Tongue.
(Philadelphia Press)
"It's so long since you called on me," said the fair girl as she stepped down to the young man in the crowd. "that I was beginning to think you were forgetting me."
"I am for getting you," said the ardent youth. "and that's why I've called to-night. Can I have another?"
