### CANNOT FORGET OLD LINDSAY

Interesting Extract from a Letter Written by a Citizen of Long Ago.

In a letter enclosing his autograph to Mr. Root, Stevens, of Alpena, Mich., refers to old times in Lindsay, where he was born and bred. Lindsay is a prosperous provision dealer in Alpena, and will in all probability return to the old town to spend the evening of his life when he has made his pile. He says:

"It's twenty-eight years since I left Lindsay. I would like awful well to revisit the old town and meet old acquaintances. I used to work in the woods and on the river in the olden times. If I had been told those days that I would be in the active business I have been for the past twenty years, I would have said that were crazy. I am glad I came to this country—there are fine chances for good, honest men; if you try to help yourself the people are always ready to help.

"I was born and raised on the Saginaw River below Lindsay fifty-five years ago and used to know every stump and corner where Capt. W. F. Root used to hang up with the long raft of logs he used to tow with the old Mary Ellen long ago. I also knew how to catch a big muskellunge when I was just a youngster, and how to drop my line, I was so familiar with every spot on the old river. I can remember the old Woodman, owned by Capt. Crandall, and the old Ogemah, the first two boats

—I will mail you free, to prove merit, samples of Mr. Shoop's Restorative, and my book on either Dyspepsia, the Heart, or the Kidneys. Troubles of the stomach, heart or kidneys are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment and not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. An ill heart and kidneys as well have their controlling or inside nerves. Weak these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's restorative has made its fame. No other remedy ever claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me to-day for sample and free book. Dr.

—It is reported that the Snowden house, Peterboro, has been purchased by Mr. D. Fraser, of London. Mr. Wm. And yet the Council has this year passed these papers by and handed over the printing of the voters' lists to a job office, because of a trifling difference in price. —The water in Lake Seagow is said to be lower than for many years' past, and our fishermen are apprehensive that if a severe winter comes the result will be another general freeze-out of fish. The people of Port Perry, and the country roundabout, seem to have forgotten that the Trent Canal is supposed to extend to that village. They should have more attention paid to the effort to maintain the level for navigation purposes.

—Get a free sample of Dr. Shoop's "Health Coffee" at our store. If real coffee disturbs your stomach, your heart or kidneys, then try this clever coffee imitation. Dr. Shoop has close matched old Java, and a Mocha coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee imitation is made from pure toasted grains or cereals, with malt, nuts, etc. Made in a minute. No coffee, ever. You will surely like it. Sold by all dealers.

—Last Monday, while one of Mr. W. Goodwin's painters, Ed. McPhoe, was varnishing the front of the Public Library, preparatory to placing a sign there, a lady walked up the granite walk and accosted him with "Is Chief Vincent in?" Ed. collected his scattered wits soon enough to inform the lady that the police station was next door east, and that the building she was maligning was the Lindsay Public Library, of

which our citizens are exceedingly proud.

—How sweet it is to love a girl. And airy tales to tell her. But oh, how bitter, if the girl Prefers another feller.

—Mr. Duncan Walker, inspector of public schools in Peterboro for the past 12 years, has resigned to take a position on the teaching staff of one of the Normal Schools, with a possibility of becoming a principal.

—Pending the analysis of samples of the Gunigue well water, submitted to the Health Department, Toronto, to a test to the well has been forbidden.

—The samples show impurities in the well will be permanently closed.

—Lindsay's advancement is best gauged when you note the many vacant places built up, and cultivated (beautiful, by the way) lots on town. Take Mr. Ben Co. best lot on Mill-st. for instance—the lot was sold before he took his house, and raises a prolific crop of mulberries—now it is a garden and grows healthy vegetables instead of weeds to pollute the laws of the neighborhood. We are told that Mr. Cook has received several offers for the property.

—Lindsay is cursed with an innumerable number of stray, half-wild canines that roam the streets day and night, and cause extreme annoyance to citizens. Not only have complaints been made about dogs biting children, but adults have been attacked by these savage and half-starved brutes. That something should be done, and that immediately to thin their numbers, is evident to all but the owners, who lie to the assessors rather than pay a dollar for the cur they allow to hang around their premises.

—Peterboro citizens are not so suffering much from low water in the river. The Examiner of yesterday, referring to a shallow ferry, the steamer, left on her return trip about 8 o'clock, and the journey home was somewhat slow on account of the condition of the water, which is about six inches below its normal height. Just fancy! Here the Seagow has dwindled to a shallow creek, and citizens of high principle feel a sensation of guilt when they have occasion to dip out a pair of twe. (That is because they realize the water may be needed for Peterboro's industries.

### Pointed Paragraphs.

Great interest is centered in the coming race across the Atlantic from Queenstown to Liverpool between the Lucania and the new turbine steamer Lusitania. The Lucania holds the present record, which is five days, seven hours and twenty-three minutes.

A novelty which has been submitted to the police prefecture of Berlin for approval is an automobile harness. It is of the approved type, differing only from the ordinary harness vesting in not being horse-driven. The harness created much curiosity as it made its test pilgrimage through the city.

Even bricklaying is no longer a handicraft. A Farmanham man has patented a bricklaying machine which only weighs 50 lb., and does the work of seven men at much less than half the cost. The bricks are fed by hand, a lever presses them into place, side rollers keep a face on the work, and other rollers press the brick down on the mortar. A man can lay some 3,000 bricks a day with one of these machines.

### The Crime of Perjury.

(London Free Press.)

The police at Hamilton have caused the arrest of six young men on charges of perjury. It is alleged that the defendants swore falsely in a Sunday orng game. As to the merits of the case, these have yet to be determined.

The important feature is that the crown officers have made a move to crown wiping out the foul crime of perjury. In this they will have the endorsement of every good citizen.

Perjury has operated tremendously against the even flow of justice in this country. It is met with in every court in the land. Its blighting effect is seen in the failures upon failures to bring the guilty to punishment.

So such an extent has perjury developed in the country there is no compunction shown by surprisingly large numbers of people in giving false testimony, when their evidence in any way affects the position of themselves or their friends.

Would it not be well if presiding judges, magistrates and jurors exercised a greater freedom of judgment in cases coming before them? Too often more attention is paid to the sworn testimony of a witness than to circumstances. The magistrate in the Hamilton case remarked at the trial that some one was not telling the truth. It is quite possible that a magistrate's keen discernment could have placed his finger upon the truth and the lie had he not clung to the notion prevailing in legal minds that oath must be accepted at the par value of another. To deviate from such a course might in instances be dangerous, and result in the punishment of the innocent. It remains true, however, that Solomon was able to divine as between the two mothers. All that is needed, then, to wipe out the blot of perjury, are a few more Solomons.

### LACK OF WHIPPING POSTS

Magistrate Says Child's Alleged Assault is Not Good Enough for Jail.

New York, Aug. 19.—Magistrate House, in the Harlem Court, lamented that the whipping post had been come away with.

"For the two years I was in the Legislature," said the Magistrate, "I stood for abuse because I wanted the whipping post re-established. People said that I was a brute and was going back to the dark ages of barbarism. But I wanted it for just such brutes as this man. Here's a man seven feet tall, weighing 225 pounds, and this little girl is his acquiescer. Well is too good for men like this. They don't mind it. They eat three square meals a day and if they become ill they are taken to a petting hospital than you or I have."

"A man beats his wife, and if he is sent to jail his wife comes around in a few days and tries to get him out. Jail is no punishment for that kind of a man. But if we had a good whipping post and a good strong man and a cat-o-nine-tails, and let each stripe go deep into the flesh and draw the blood, you would not see so many of these cases. Such a case might do even this man here some good."

JAS. M. SQUIER & SON  
Lindsay, Aug. 12th—w4.

Now He's Broke.  
(Pittsburg Post)

The young man lies him to the sea. He has been thrifty. And in two weeks he blows what he Saved up in fifty.

Juvenile Offences Should be Checked.  
(Peterboro Examiner).

One of the most discreditable features of Peterboro is the large number of ill-mannered, vulgar and occasionally inclined boys, ranging in age from six years upward.

One of the most serious charges that can be laid at the door of parents is the gross neglect of their children, and there is an alarmingly large number of Peterboro parents who will have to face that charge.

It is surprising and most regrettable the many boys—many children—who are every week found in the prisoner's box in the police court, while the number who deserve to be there is much greater.

The charges against these young criminals are theft, house-breaking, store-breaking, and practically everything that a boy can be guilty of. Such offenses as foul language, lying, vulgarity, impudence, and every other offense against common decency, are not punishable in the police court, but are extremely prevalent on every street corner and public place in the city.

Is there no punishment within the power of the police magistrate for juvenile criminals? Is there no immediate punishment of negligent and indifferent parents? Are the boys of to-day to be allowed to grow up in crime unchecked, only to bring disgrace upon the city and province when they reach the age of maturity and have become experienced and expert in wrong-doing? If that is to be the case, then should judgment rest upon the parents and officials who are responsible for the present deplorable state of affairs.

### The Dufferin Park Races.

A large number from Lindsay and vicinity attended the Dufferin Park August meet, at Toronto on Tuesday, Mr. W. H. Simpson's last race, Joe Allen, won third money in the 222 class. Among those who were at the races from Lindsay were Mr. Geo. Curtis, Mr. G. H. Simpson, Mr. W. H. Simpson, Mr. Ashmore and others. The Peterboro enthusiasts who passed through town were Messrs. "Bob" Redmond, Geo. Lipse, A. Rountree, Martin Connors and Dr. Johnson and wife. Mr. Geo. Miller, of Uxbridge, was also there.

### Red and Gun for August.

The delights of camping with an automobile is the latest experience open to sportsmen and the August number of "Red and Gun and More Sports in Canada," published by W. J. Taylor, at Woodstock, Ont., tells all about it. The diary of a big game hunting expedition in the north of British Columbia, and the successes achieved by the party, form interesting reading. Fishermen will find their requirements well looked after, and several stories on their favorite topic should give them some pleasant half hours; while hunters are far from forgotten. A settler's view of the dog hunting controversy should be read by all, inasmuch as it is not often this point of view is given, while a further novel is the description by Mr. James Knox of how some hunters find as much enjoyment from their fishing and hunting experiences in a well fitted up camp in Old Ontario as do those who go further afield and do pioneer work in a new country. With many other good things the August number is a budget no sportsman can fail to welcome.
