HE HAS FAITH IN THE WEST.

MR. ROBT. BRYANS THINKS THERE WILL BE A BIG CROP.

Regard Silver Bar District, Alberta, as good as Harpiss. Mr. Robt. Bryans, town, who returned last Friday evening from a five weeks' trip through the West, extending as far as Edmonton, is satisfied that unless, most unlooked for positions set in, another large crop will reward the husbandmen of that flourishing portion of this great Dominion. Mr. Bryans it will be remembered, some months ago diagnosed of several sections of land in Southern Alberta at a figure which about doubled his original investment, and his recent trip was taken in the hope of being able to make another good purchase. This time he invested in two choice quarters in the famous Clover Bar district, about sixteen miles east of Edmonton, seven miles south of Fort Saskatchewan, and three miles from a point where the Grand Trunk Pacific will erect an elevator. Mr. Bryans also acquired a couple well situated building lots in North Edmonton. (These going to be a big city.) He returned with enthusiasm. (The population now is close on 20,000, and in the course of a few years Strathcona, now a brick town of 4,000, is sure to join hands with its more go-ahead neighbor. When I visited there everything was on the march and it was estimated that 3,400 people were living in tents owing to the impossibility of building houses rapidly enough to supply the great demand.) SAW LATE MRS. PELKIE. Mr. Bryans also visited Vermilion, 134 miles east of Edmonton, to which point a train now runs daily over the C. N. R. He had tea with the late Mrs. Albert Pelkie at the time of the visit, about three weeks ago, and dined on his knee the neighborly child from whom Mrs. Pelkie contracted the fever which resulted fatally. Her own little daughter, aged about two years, had taken the fever previously but made a quick recovery. Speaking of Clover Bar district, Mr. Bryans said it reminded him of Arthur Moore's field at Port Perry of the prettiest fall wheat I ever saw spring out of the earth. I was sure he had described the soil qualities. Many settlers from Reabro and Lindsay districts are located there, and all are prospering—the Reid, McArthur, Moore, Burkes, and other well-known families. Many Ontario young ladies are teaching in the schools of the section, and the attendance of children is good. Speaking of the crops, Mr. Bryans said that in Southern Manitoba there had been a dearth of early rains and the crops were light; indeed, a lot of land had been ploughed up. A terrific hail storm had also done a lot of damage in other parts more favored. In Centre and north Manitoba, Saskatchewan and Alberta the crops were on the whole good, and in parts magnificent indeed. Mr. Bryans added he has after thought that Swift & Co., the great Chicago packers, are erecting a great establishment near Edmonton.

DRAINING OF LAKE SCUGOG.

PORRY STAR SOUNDS A NOTE OF WARNING.

Predicts Another Slaughter of Fish and Other Undesirable Things.

In last week's issue the editor of the Port Perry Star set forth at some length editorially, some reasons why the citizens of Lindsay and Port Perry should join hands in registering a vigorous protest against the present lowering of the water in Lake Scugog. The possibility of the fish being again decimated by frost during a cold winter will be disheartening news to the members of Lindsay Fish and Game Association, and indeed, to every citizen who realizes that every sportsman attracted to this locality leaves behind him a considerable sum of money in return for a few fish and the pleasure of breathing our brand of ozone and perhaps sampling our blend of phlegm.

More important, of course, than any question relating to fish or fishermen is that of the health of the people, and beyond doubt this will be very seriously endangered if the draining of the lake be continued. Another evil to be heard of is the water which is being drawn off, owing to an unusually low water level, from the water table to a depth of the fish in the lake died by the thousand, and were almost entirely "rotten."

Summer Advertising.

I recently had the opportunity of examining an advertiser's records, which showed that his largest sales for any month in the year were in October. The only explanation was that this was the accumulative result of the advertising he had done in the summer months. Many advertisers are, however, opposed to advertising in the summer months. Some have reasonable grounds for this; some simply cancel their advertising because others do not. People eat, drink and live in the summer, and buy goods, just the same as they do in the winter. Many read more in summer than in winter, because they have more time to spare. Leonard Darbyshire, Publisher Spare Moments.
