GERMANY WILL ADVISE PORTE.

ne Advise Will Be Good and to the ffect That the Sultan Should Settle With France as Soon as Possible -France Will Force Turkey te Fulfil Obligations to the Very Letter.

Paris, Sept. 2.-The result of Munir by the Turkish Ambassador to France, muing to Paris, in spite of the rupture & France-Turkish relations, and holding fete in the most open way at the Turkd Embassy yesterday, in honor of the floating flexibly connected pipe. universary of the Sultan's accession to the throne, was that the French governeat sent him a request to leave France smediately. Munir Bey departed for Switzerland in the evening, where he will main till the controversy between the no countries shall have been settled,

Ka ser Will Advise the Sultan. Constantinople, Sept. 2 .- The report that he Sultan has appealed to Germany to me her good offices to settle the dispute th France is confirmed. Germany, It is nderstood, will advise the Porte to settle with France as soon as possible.

M. Bapst, Councillor of the French Embssy, and the other members of the Emussy staff took the guardship Vautaur m an excursion upon the Sea of Marmora h order to avoid dressing the vessel as the other warships in the harbor were dressed, in recognition of the anniversary of the Sultan's accession to the throne, which was celebrated yesterday. The numbers of the Embassy did not participut in the congratulations of the diplomile corps, nor was the Embassy illumiuted. Turkish officials received only 40 b @ per cent. of their salaries on the p.m. universary of the Sultan's accession. Will Farce Turkey.

Paris, Sept. 2.-Advices received here fom Turkey indicate a disquieting internal situation; disorders and military uprisags are reported in Armenia, Macedonia and the neighborhood of Mecca. The son of a high functionary was carried out by brigands near Adrianopte. The brigands fought a bloody engagement with the troops sent out against them. A despatch from Salouica says that Nouri Bey, alde de camp of the Sultan, who was sent to investigate the brigandage in Albania, has been killed by Albanians.

It is also said that the Turkish troops at Prisrend. Albania and Uskub are rioting because they have not been paid. M. Constans, the French Ambassador to furkey, had another conference to-day with the French Foreign Minister, M. Delcasse. The government of France is determined to compel Turkey to fulfil her entire obligations. Unless the Sultan shall yield soon he will find the bill against | p.m. him increased by a number of other outstanding claims of France, which will make an appreciable addition to the sum now demanded.

Sultan Will Not Yield.

Paris, Sept. 3 .- The Matin announces that it has received from a source alleged to be authoritative in Constantinople, information to the effect that the Sultan, relying upon the assurance of a great power that France will not proceed to force and will refuse any concession in It is rumored to night that a maval diision will be ordered to Turkish waters

Munir Bey will only return to Paris gainst the wishes of the French government, unless the dispute is settled.

CALLED AFTER MR. TARTE. the Polson Iron Works-Mr. Tarte on

Toronto, Sept. 3.-The hydraulic dredge, "J. Israel Tarte," built by the Polson Iron Works for the Dominion Government, was launched under most auspicious circumstances at the Polson shipyards yesterday afternoon. This dredge is the largest

and most powerful in Canada. will be tested in Teronto. dredge went through the launching ceremonies in a most creditable manner, and slid down the ways into the slip quite gracefully. There was no hitch, and Mrs. Frank Polson christened it with a bottle of champagne. Hon. J. Israel Tarte was present,

and after the launching he made a brief and bright speech. With other guests, he was aboard Mr. Polson's steam yacht, the "Cruiser," after the launching. He paid a glowing compliment to the Polson Company and intimated plainly that Canada could evidently attend to all her own shipbuilding. This dredge is to work in the St. Lawrence River, and to-day the pickets about their mill held u another now being constructed by a special delivery boy from the postoffic the Polson Company will be used in British Columbia. Mr. Tarte told why the big dredge was made in Toronto, and criticised the Wolvin proposition, whereby the dredges might that the strikers stoned the company's have been built in the States.

American capitalists were the interested parties, and Mr. Tarte thought their proposition meant really a loan being made at 5 per cent. to enable them to build an elevator. They really wanted complete control of the basin at Montreal, and also wanted the use of the jetties at Port Colborne and a site on which to erect an elevator which they proposed should be taken over by the Government after a number of years. Capt. Wolvin had a proposal, too; to build ten ships for the grain carrying trade, but they would not be built in Canada. The intention was to have them constructed in Cleveland, and the Government had been coolly requested to admit them to Canada free of duty. Mr. Tarte hoped to see the shipbuilding industry flourish in Canada, and from what he had seen he was satisfied that it would. "Canada first" was his

theme throughout. Mr. F. B. Polson and Capt. Miller followed with brief speeches, after which the party enjoyed a short cruise around the Bay.

The dimensions and capacity the vessel may be briefly described to be: Steel hull, 100 ft. long, 42 ft. beam, 12 ft. 6 inches deep, capable of working to a depth of 50ft., and will discharge material any distance up to 2,000 feet by means of

BIG LABOR DAY DEMONSTRATIO

teel Officials Look Upon the Amalg mated Association's Failure to Cripple the Cornegie Plant at Dequesne the Death Blow of the Strike -McKay & Co's Plant Being Diamantled.

Pittsburg, Sept. 2.-The big Labor Day surrounding towns, but steel manufacturers went on making preparations for the opening of plants that are shut down by with a letter for the office, while he w. coming down 12th-street, and inspected th carriage on Pennsylvania-avenue this morning, but did no special damage to the strikers was further demonstrated late this Jones, a colored man, who was mistaken He had a narrow escape from serious injury and possibly death, by the appearance of Police Lieutenant Crossman, who came to his rescue. Before Crossman could secure additional aid he was almost overwhelmed by the large crowd that had gathered. The prompt arrival of a large force of officers probably saved Jones from being lynched, as the mob appeared a desperate one, and many demands were made that he be strung up.

The failure of the Amalgamated people to cripple the Carnegie plant at Duquesne this morning is looked upon by the steel officials as the death blow of the strike in the Carnegle mills at least. Last night the strike managers at McKeesport announced that a march would be made this morning to Duquesne, and predicted confidently that the men would not go to work and the entire plant would be tied. This morning no paraders appeared, the men went to work and the plant is in operation

The men who recently struck at the McKay & Co. chair works were treated to a surprise to-day, when the management put a force of men to work dismantling the plant. The company has erected a much larger plant at McKee's Rocks, and will abandon the Lawrenceville plant,

CANADIANS FINISH THIRD.

Twelve Teams Shot at Sea Girt for the Milton Trophy.

New York, Sept. 2.-The team of the District of Columbia, made up of 12 men, won the Hilton Trophy match at the Sea Girt ranges to-day from 11 teams of 12 men each, who shot for this prize, and the contest was so keen that the result was in doubt until the last bullet flashed thru the target. In winning the District of Columbia team broke the record which it established in 1895, making a score of 1098. The best individual shooting done in this match was that of Sergt. Corry of the 12th Regiment, New York, who made a possible at the 600-yard range and was only six points from a possible at all the ranges, the distances being 200, 300 and 600 yards. The New York team had a lead of 17 points when they left the first stage, but the marksmen from the District of Columbia overcame this in the last two distances. A "bull" was made by Wells of New York on the wrong target, and, according to the rules, this was marked a miss. If it had not been for this error the New Yorkers would have had the same score as the winning team. The Canadians, who arrived yesterday, were in eighth place when they left the 200-yard range, but their shooting at 500 and 600 yards placed them in third position at the finish. The New Yorkers' score was 1093; the

LEWISTON RAILWAY WRECK.

Several Toronto People Injured in a Train Collision. Toronto, Sept. 3 .- Several Toronto people were more or less severely injured in a railway collision at Lewiston last night shortly after 7 o'clock. The New York Central train from Buffalo was conveying an excursion party to Lewiston, when the smash came. The New York Central train, due at Lewiston at 7.30 p.m., to meet the Chicora, had to back down the steep grade running a mile from Lewiston. In doing this last night at a speed of six miles an hour the New York Central train ran off a switch and crashed into an engine standing on the wharf. Five coaches were attached to the New York Central engine, and several hundred persons were aboard. The crash produced a startling shock. The rear coach was badly shattered,

and the passengers were thrown into confusion. George Heath of 943 Queen street, this city, had his right leg broken above the ankle. He was in the car second to the rear coach. His back was also hurt.

A number of other Torontonians were severely shaken up, but escaped with a few bruises.

The collision caused a panic, but when it was found that no one had been killed, things quieted down. Politics in It.
