

PARIS GREEN It is labor lost using poor Green. We have BERGER'S PURE PARIS GREEN, the best in the market.

MACHINE OIL We have a special heavy good oil for farmers' use. Only 35cts per gallon.

J. G. EDWARDS & CO. The Weekly Post

EDITORIAL NOTES. A communication is to be sent to Syracuse by the Per. H. Conference of the Methodist church to find out just what sort of a time those two ministers had there.

Since the death of Miss Elizabeth Mackenzie in St. Luke's hospital, Chicago on Sunday last, the only two members of the family of William Mackenzie yet living are Mrs. Charles Lindsay and Mrs. John Klug, of Toronto.

Whitney says the land through which the Algoma Central is to run is "uninhabitable." That is not Mr. Whitney's belief. He has bound himself to place a thousand settlers a month in it.

The Canadian Medical Association has approved the scheme for a system of medical reciprocity all over the Dominion so that a Canadian physician would be a qualified practitioner in any province.

Nova Scotia is to have a Provincial general election on October 1st, the intention being to have the ballots counted and the dust blown away before the arrival of the Duke of Cornwall.

Which sportsmen will appreciate the trophy which has been found in New York that Sir Thomas Lipton may succeed this year in carrying off the 'America' cup.

Mr. Resor—"No." Mr. McN. returned the same reply. Mr. Resor—"Well, Ald. Hore reported at last Council meeting."

Mr. Resor—"I fancy Mr. Hore was opposed to the walk from the first."

Ald. Hore denied being actuated by such a feeling. He had certainly got the impression from Mr. McN. and other persons that they were particular about having the walk built this fall, and as there was a great deal of work on hand he thought it as well not to press the walk in face of opposition, especially as the stone could be procured at a cheaper rate in winter.

Ald. Touchburn—"There would be no saving."

Ald. Jackson—"Oh, yes, there would; the stone could be drawn and piled, whatever wanted along the route of any proposed walk."

Mr. Resor said he had been told that the petition had been got up, which would necessitate the getting up of another one next spring. He didn't think it was fair to give that trouble the petition should be revived and held over if necessary.

Ald. Hore—"I'm willing to support that."

A discussion then took place as to whether the walk should be 4 ft. or 5 ft. in width.

Mr. Resor—"We don't care which but I notice a number of towns are making their walks 5 ft., and in Berkeley they've torn up some of the narrow ones."

In reply to a question Commissioner Chalmers said the difference in cost on the walk is within a margin of about 50c, which would mean the town's portion would be only 60 per cent.

Mayor Ingle Will Apply For a Gift of \$10,000. The Matter was Discussed at Saturday Night's Meeting of Committees—Other Business Transacted.

Several of the Council committees met Saturday evening to clear away arrears of business, and spent about two hours at the task. Mayor Ingle and all members of Council were present. A Carnegie Library.

On motion His Honor Judge Harding, chairman of the Public Library Board, and Mr. E. A. Hardy, secretary, were granted permission to address the members. His Honor referred to the well-known philanthropy of Mr. Andrew Carnegie, the multi-millionaire, and to his wide spread benefactions in the cause of education.

Mr. Hardy pointed out that Mr. Carnegie was devoting the balance of his life to giving away his money, but was finding it difficult to bestow it faster than it accumulated. Lindsay was already fulfilling the requirement for a \$10,000 grant, which Collingwood has received. Some people professed to be squeamish and inclined to refuse Carnegie money because he had made it in the States, but that was no reason. He hoped the Council would sanction the application for a grant.

Judge Harding—"As for the patriotic sentiment at stake, it should not be forgotten that Carnegie made his money by being the manufacturer of machinery, the structural steel consumed in the Dominion. Barring the editor of the Mail and Empire I do not think there is a man in Canada so sensitive as to refuse a grant for such a purpose."

On motion of Ald. Jackson, seconded by Ald. O'Reilly, Mayor Ingle was authorized to consult with the Public Library Board and take what steps might be deemed necessary in making application for the suggested grant.

Judge Harding said that in the meantime the Council should proceed with the fitting up of the Library quarters in the old Council chamber, because the terms of the present rooms in the Dominion Bank building expire on Nov. 1st and unless they left by that date the Board would become liable for another year's rent. Under the circumstances the room should be furnished as cheaply as possible; a new floor and counter would be required, also a number of revolving book-cases.

Police and Lighting Committee. Ald. Robson, chairman, reported the application of Mr. Patterson, of Toronto, for a billiard license, and started in to read a sheet of testimonials.

The Law Of health has no uniform guardians of its peace. If it had there would be arrests innumerable in every restaurant every day of the year.

Each day against the laws of health. Those who will not heed Nature's warnings cannot escape her punishments, and dyspepsia or stomach "trouble" is the inevitable penalty of careless eating.

There is no other medicine for diseases of the stomach, digestion and nutrition which can compare with Dr. Pierce's Golden Medical Discovery. It cures these diseases perfectly and permanently, and enables the building up of the whole body into vigorous health.

Ald. Touchburn said he was going to introduce a by-law at next meeting to see if the aldermen were looking after the interests of the town or the interests of private individuals. He thought it unfair that the people at large should have to pay 60 per cent of the cost of walks when the property owners concerned would thereafter be exempt from assessment for similar works.

Ald. O'Reilly—"The Commissioner says it costs 60 per cent to lay plain walks, while cement pavement can be put down for 60 and which would last five times as long."

Ald. Touchburn—"The debt for Local Improvements is growing very rapidly, and we'll have to be careful." "The people want Local Improvements and we can't stop them."

Ald. Sinclair—"Make it difficult to get them by raising the proportion to be paid by property." Ald. Jackson—"All right introduce your by-law."

Board of Works Matters. Ald. Jackson—"About the steam roller—when will we take it up?" Ald. Sinclair—"I think after hearing the statement made by the representative of the Hamilton 10-ton roller we should all feel that it is not prepared to guarantee it."

Room for an Explanation. (To the Editor of The Post.) Dear Sir,—In your report of minutes of City Council, issue of September 7th, we notice a communication from the Flavell Milling Co., which contains the following paragraph: "It would also become necessary in the near future to have the tannery discharge diverted or filtered."

Now by said paragraph they have created an impression in the minds of at least a portion of the citizens that something is wrong with the discharge from our tannery, and in the interests of the contractor Britcourts we would ask the Flavell Milling Company to specify their grievance.

We are anxious to comply with anything reasonable and right, but we certainly are not aware of anything existing detrimental to the good health of the town—Yours truly THE R. M. BEAL LEATHER CO. Limited, Lindsay, Ont., Sept. 10th, 1901.

THE COUPLING PARTED. Mashup on the Down Trip of the Fort Hope Mixed Train Yesterday. Conductor J. W. Britton and those on board the Port Hope mixed train on Monday morning, figured in a somewhat exciting episode just as Onemec was reached. The coupling of the rear coach parted and when the front end was halted the detached car bore down upon it at a good rate of speed.

Mr. M. Mulvihill, G.T.R. carpenter, was one of those in the coach, and realizing the nature of the mishap he ran out and applied the brakes with a promptitude that resulted in materially lessening the force of the collision. However, the bump was a severe one and everyone on board felt it more or less. Conductor Britton, who was making his way to the rear to see what was the matter, was thrown against a door and had his head out and bruised, while Mr. Adam Switzer, who was sitting in the baggage car, was thrown from his seat and sustained some painful contusions.

The coupling mechanism having been knocked out of gear in the collision, the coach was made fast by means of chains, which answered the purpose very well.

DOMESTIC MINTS. Give your cat with mange a thorough rubbing over with warm castor oil. The animal will lick some of this off, and probably sicken a trifle, but the effect both external and internal is good.

Any unusual disturbance in telegraph wires is an infallible indicator of bad weather, and the nature of the changes in the atmosphere may be learned from the sound which the wind makes when passing through the wires.

Hold-Me-Tight, —AT— MORGAN BROS. Druggists and Opticians. Wood's Phosphodine is sold in Lindsay by all responsible druggists.

STURGEON POINT JOTTINGS. Interesting Notes from Lindsay's Popular Summer Resort. Ald. J. D. Flavell has had posters issued offering a reward of \$20 for the conviction of a thief who stole a canoe last Monday from the wharf opposite Mr. Hugh O'Leary's cottage.

Children Cry for CASTORIA. Polson's Nervine cures Rheumatism. The remarkable strength and marvelous soothing power of Nervine renders it quite infallible in rheumatism five times stronger than any other remedy.

ABSOLUTE SECURITY, genuine Carter's Little Liver Pills. Mus: Bear Signature on Seal. See Fac-Simile Wrapper Below.

FOR HEADACHE, FOR DIZZINESS, FOR RILIOUSNESS, FOR TORPID LIVER, FOR CONSTIPATION, FOR SALLOW SKIN, FOR THE COMPLEXION. CURE BIRD HEADACHE.

A Clever Gardener. Mr. John Hay and David Burley, judges of the best garden in the township, awarded 1st prize to Mr. John Everson, of Dundas.

Quality must be reckoned when considering watch values. The price of a watch is not ALWAYS the measure of its worth.

Every precaution that our long experience suggests is taken to secure the best possible value in every watch we sell. Our customers may rely upon getting value for every dollar invested with us.

It's Surprising, but True, Nevertheless, That the Fall Season is here; but we are prepared to meet it. We carry at present, just double the stock of Dress Goods which we showed last season. The new designs are very beautiful, and contain every leading style in Serges, Baritz, Homespuns, Henriettas, Velours, etc.

PLUMS We are Headquarters for reliable Fruit, and Housekeepers will find our Plums to be the very finest procurable. PEARLS and TOMATOES are coming in, but may not be as plentiful as last season.

LITTLE SHOES for LITTLE FEET. BABY SHOES. For TODDLERS' TOES we have a great variety of cunning little coverings. They are cut and finished in a way to give the GREATEST COMFORT TO GROWING FEET.

FINLAY & CHANTLER, The Peoples' Shoe Store, Blackwell's Block, Near the Market. The Quality must be reckoned when considering watch values. Measure of Watch Value. Our customers may rely upon getting value for every dollar invested with us.
