G. E. WILSON, Secretary; GEO. JOHNSTON, President; God Save the King

The Weekly Post

LINDSAY, FRIDAY, SEPT. 20th, '01. THE REFORM CONVENTION.

Our Liberal friends should keep before them the date of the Liberal convention at Lindsay Saturday, 5th Oct. The selection of the very strongest candidate to contest the riding in the coming Provincial campaign can only be secured by having a full representation from each subdivision.

COUNTY GOOD ROADS ACT

The action of the Provincial government in setting aside a sum of one million dollars to aid municipalities in constructing good roads has met with general approval, but there is a difference of opinion in some counties concerning the provisions governing the administration of the fund.

The question of a County system of good roads has been before the people of Victoria for some years, and the offer of government assistance comes at a most opportune time.

the representatives of the municipalities will then decide either to accept or reject the proffered aid. The people of the County should attend in large numbers to hear the discussion and keep an eye on the men who have it in their power to refuse a gift of \$25,500.

COME TO THE CENTRAL

Before another issue of The Post reaches our subscribers the Lindsay Central Fair will be in full swing, the dates being Thursday, Friday and Saturday, Sept. 26th, 27th and 28th.

PASSED THE 7,000 MARK

It will be remembered that a few days before the lists of the census enumerators for Lindsay were sent on to Ottawa, The Evening Post predicted that the published statement would show that the town had a population slightly exceeding 7,000.

It is, therefore, with much pleasure we announce the fact that, as the result of a protest sent in by Mr. F. C. Taylor, to Chief Census Commissioner Blue at Ottawa, the lists for Lindsay were carefully revised and compared, and an error was discovered that gives our town a welcome addition of nine citizens.

THE EMILY VOTERS' LIST

The Watchman-Warder in its last issue declares that our account of the proceedings at the court of revision for the voters' lists of the township of Emily was the product of our imagination, and it has the audacity to say that the reform lawyer who attended the court, and the Judge who presided there, confirm this.

The facts are that George McCauley, who is a lad of sixteen years of age, was placed on the assessment roll for the township by the assessor as a manhood franchise voter.

Afterwards Mr. McCauley applied for his witness fees, alleging that the assessor had placed the boy on the list against the protest of his boy who was only sixteen years old and not to put him down on the list, but the assessor said it was all right, and that if the grits didn't notice it and get him struck off the boy could vote.

Now this proceeding, together with the other cases referred to, are those which convince The Post that there was a deliberate attempt made by the assessor to stuff the voters' list of Emily with conservative names. The language of the assessor to Mrs. McCauley is sufficient proof of this.

qualifications; who say, "Let the grits strike them off if they can," and then strive to bolster it up by a deliberate lying in the private newspaper, is disgraced beyond doubt and its representatives and newspaper sunk beneath contempt.

We are authorized by His Honor Judge Hardin to state that nothing which he said to the interviewer of the Watchman-Warder could possibly be construed into what was published.
