THE LATE PATRICK MCHUGH.

WHO DIED IN ST. PAUL, MINN., HOSPITAL ON SEPT. 16.

A Prominent North Dakotan who will be Missed in Public Life and be Mourned by Many Friends.

(Grand Forks Herald.) Langdon, Sept. 16 .- The receipt of a telegram this morning announced the very sad news of the death at St. Joseph's hospital, St. Paul, early this morning of Hon. Patrick Mc-Hugh. Notice of his condition was made early last week, but at that time no very serious doubts were entertained as to his ultimate recovery, for every person scemed of the opinion that a constitution such as his would stand a prolonged attack of an ordinary disease. Mr. and Mrs. McHugh left here with the Californaia excursion party. At that time his health seemed to be faiting him and it was thought that the charge of climate would do him good. They remained over in the west after the rest of the party had returned home and went to St. Paul. At the hospital it was found he was suffering from dropsy and an operation was decided upon as a last resort to save his life. The operation was performed about the first of last week, and since that time reports received here showed his condition steadily getting worse, until last evening his time was himited until midnight, which was very nearly correct, for att 2 o'clock this morning he breathed his last. In the death chamber were Mrs. McHugh and their daughter, Sister Antonio. At all times he was thoroughly in possession of his faculties and seemed to realize that he had for once

Mr. McHugh was born on a farm

in Victoria County, Ont., near Lindsay, on Sept. 23, 1846. Those whose memory can carry them back to this date in Ontario will have some idea. at this time, a vast wilderness, far distant from the centre of civilization, that had been heretolore the fishing and hunting grounds of the Iroqueis Indians. Mr. McHugh's parents were both born in Ireland and were among the early pioneers of Victoria county. At the early age of 16 he left home and went to work on a lake vessel, plying the coast of the Great Lakes for about six Jears. He then went to Omhha, where he was engaged in business for several years, and the last two Jones of his life there he was chief of police. In 1876 he was attracted by the ruth to the Black Hills and there he went, opening up a hoter at bendwood, where he remained uns til 1882, when he came to Grafton and file on a homestead. In 1884 he came to Cavalier county, although the county was not then organized. In the fall of 1884 he was elected to the territorial legislature and during the session presented and had passed the bill to organize the county. He was the first county commission r. being appointed by Governor Drdway; was also a member of the constitutional convention. At the first election after the organization of this county he was elected registrar of deeds, in which capacity no served for five years. In 1857 he secured the free right of way for the Great Northern extersion from Park River to Langdon, and for this the company gave him the disposis tion of the townsities of Edinburgh, Milton, Osnabrock and Langdon, in which he still owns a half interest. In 1897 he was appointed postmaster. here by President McKinley, which

A Bank at Bobcaygeon. Ind pendent: There is a talk once more of one of the chartered banks opening a b ranch here. A good old song spenks of a bank whereon the wild thyme blows, and that is about the only bank known to this great journal, and about the kind of time a bank would have that carried the paper of this great journal. And by the same token what a wild time this g. j. would have if it cruid get some paper floated. Happy thoughta new green bank might be invergis ed. Bo let us have a bank. By ali means bring on your bank. A nice one with stacks of new, clean bills, and a manager with strong prochvities for making himself a, good feilow, and solid with the public.

Not that we have a word to say against Jack Carcw's ability to put up a big day's work at shinglecutting or any other branch of the business-he was a husky kid in his younger days and can throw lumber with the best of 'em' to-days . We tion't think he ever laid claim to the shingle-cutting record because that honor belonged to the late Michael Honnessy, who not many years ago in this very mill cut 55,000 18-meh shingles in 11 hours, Bob. Russell and myself being the jointers. The week previous to that we turned out 226,-000 shingles. I know a tree by its bark, and a shingle by its butt."

Simple, intelligent application the principle of the government ownership of public utilities has result. ed in giving to New Zealand the highest general average of comfort, general industry and prosperity wealth-of any country on earth. There are few men with large fortunes, and no multi-millionaires, but the policy of Premier Seddon has given to each and all equal opportunities to do business, and has brought about "the greatest good to the greates number," - that greatest of governmental desiderata.

### Church Notes.

Uas, Dalton Killed a Mother Bear and Cub with one Bullet.

Bob. Independent; There are some places not so fan from here that make quite a fuss about seeing seven bears in a bunch, and afterwards by deadly laid plans capturing one cub out of the flock. Well, we can do, better than that, or we would not say anything about it. James Daiton live a bit off the Bobcayning at large on the commons near he would tak en stroll over and look up his cattle, and as James always gate a fit on for hunting at this time of the year he took his rilie plosg. Now it generally happens that when a man has his gun he does not see anything, but this true when he came in eight of the cattle what should he see but a big bear mooching around with the young steers. James crouched low and watched. He wanted to get a shot at that bear, but he did not want to have any beef on his hands as well as bear ment. So he had to wait, and stealthily moved to a more ary ntageous spot. While he was moving he saw what he had not noticed before-a fine cub on the far side of the bear. Just then the old plored. bear appeared to have caught might of James, and he decided to fire at once, so drawing a bead he pulled the trigger, and the bear dropped in its tracks. James was ready with another cartridge for the cub, but it was not necessary. The builet had passed clean through the bear, and into the beart of the cub. Datton saw just two bears, and he got both with one bullet, and he does not set himself up as such an all fired hunter either. The cub, which weighed 95 lbs., was in splendid condition and in good fur. The fur of the old bear was not so good

THE QUESTIONS OF TO-DAY.

Minister of Methodist Conference Says Every Employe Should Receive a Living Wage and Have Pleasant Places.

Winnipeg, Sept. 18 .- At the session of the Methodist General Conference yesterday the report of the Committee on Sociological questions was presented by the Rev. Dr. S. D. Chown, in which the attitude of the church toward the influences at work in the progress of the world was expressed. It recognized a want of Christianity and the inequitable conditions that mark the present social relationship. The church had not always fully recognized the importance of the social conditions. The feeling was expressed that every employe should receive a living wage, and that there should be a reduction of the hours of labor where practical. Also that there should be sanitary conditions which would make work a pleasure, affording leisure for recreation and social and intellectual development. The weekly day of rest, it contended, should be preserved and a weekly half-holiday on Saturdays provided, where possible. The right of employes, also of laborers, to combine was admitted. A law to provide for compulsory arbitration was favored, and the need of honorable election contests and the preservation of purity of the ballot-box was insisted upon. The increase of gambling in the Dominion was de-

Rev. W. H. Harvey presented the report of the Committee on Sabbath Observance, which consisted chiefly of a statement of the situation. The committee recommended that ministers continue to urge more close observance of Sunday upon the peo-

Medical Men Disagree, So Judge Took Case From Jury.

London, Sept. 20 .- The McArthur-Ninham manslaughter case came to a sudden termination yesterday. The prosecution closed soon after 11 o'clock, and without argument, Judge Lount decided to take the case from the jury. A few minutes later the prisoner was on the street receiving congratulations of his friends. The main reason for the judge's action was that when the medical men were unable to decide whether the death of Ninham was due to blows, excitement, liquor or exertion; it was not a case for the jury to decide.

Tarte in Jocular Mood.

Montreal, Sept. 18 .- At the Dentists' Association dinner last evening. Hon. Mr. Tarte spoke in a patriotic strain. He was in a jocular mood, saying that he did not know how long he would be a member of the administration.

NOTHING WAS ACCOMPLISHED. Sir Robert Bond Returns to Newfoundland

and Home.

New York, Sept. 18 .- Sir Robert Bond, Premier of Newfoundland, arrived here Tuesday on his way home, When seen at the Waldorf-Astoria regarding his interview with Acting-Secretary of State Adee on the subject of the fisheries reciprocity treaty, with Newfoundland, Sir Robert said: "Nothing was accomplished. I had hopes that something could have been done to further the interests of the treaty. The fact is the present policy of the United States Senate is not one which favors reciprocity treaties, so there is nothing to do but let the matter rest. It is a pity that it should be so. The treaty would be the greatest of benefit to

Ten Schooners Found Within Two Weeks -Crews Saved.

St John's, Nfld., Sept. 18 .- The steamer Virginia Lake reached here yesterday from Labrador. She reports the loss of ten fishing schooners, with their cargoes of fish and their outfits, during the last fortnight. The crews of the lost schooners were saved, and brought her by the Virginia Lake.

Officers of the steamer also report the finding on Belle Isle of the body of a woman, supposed to be Mrs. Bates of St. Catharines street, Montreal, who was a passenger on the illlated British steamer Scotsman, which was wrecked on Belle Isle in October of 1899. It is believed that articles found near the body will identify it as that of Mrs. Bates.
