

THE DEMAND GREAT

People Want Tickets to Enable Them to Hear Chamberlain.

ALASKA BOUNDARY QUESTION

London Times Thinks the Real Problem is One of Law—Mr. Goldwin Smith's Interesting Article on the Irish Question—Public Opinion in Canada Ascent Mr. Chamberlain's Fiscal Proposals.

(By Canadian Associated Press.)

London, Sept. 3.—The demand for tickets of admission to hear Hon. Joseph Chamberlain speak at Liverpool on Monday is so great that it is proposed to erect a special building to hold 20,000 persons. It is believed in well-informed quarters that Premier Balfour's statement before the conference of the National Union of Conservative Associations in Sheffield will have an important effect, resulting in subsequent consideration of the fiscal question.

There was much talk in political circles yesterday of a possible compromise at next Saturday's meeting of the Cabinet on the tariff question. The Standard, the chief Conservative organ, whose recent denunciation of Mr. Chamberlain's proposals aroused so much interest, suggests that a small duty might be imposed upon grain and flour for revenue purposes only. If the Cabinet agreed upon these lines the Unionist free traders might accept it. "Then," says The Standard, "when the present heated discussion has subsided, we can calmly canvass any proposal which Canada is inclined to lay before us."

A letter in The Morning Post suggests that wheat from the colonies should be admitted free, and that emigration to Canada should be assisted by the Government.

Of Interest to Irishmen.

Yesterday's Irish Times says Dr. Goldwin Smith's paper in The Monthly Review excites great interest among Irishmen. It did Sir Michael Hicks-Beach's article giving his view of the fiscal controversy.

Referring to emigration The Irish Times says that the Irish people must remain in Ireland. "We look to them," says The Times, "to combat that feeling of antagonism toward Britain which Dr. Goldwin Smith says has been developed in Ireland through the influence of transatlantic journalism."

Supposed Canadian Attitude.

The Daily Mail publishes extracts from Toronto, Montreal, Ottawa, Halifax and Winnipeg newspapers, and says that the extracts show that public opinion in Canada is not only indifferent, but hostile, to Mr. Chamberlain's proposals. The sentiment is strong in favor of a continuance of the bond between the Mother Country and the colonies, but it would be suicidal to overstrain it. "Canada, in short," says The Mail, "does not wish her recent noble services to the Empire to be paid at the expense of the British taxpayer."

Exhibits on Voyage.

It is reported that a floating industrial exhibition of British manufactures to tour the Empire, has been organized. The movement has the support of prominent shipping and manufacturing firms. It will cover all classes of manufactures and articles which Great Britain supplies or can supply to the colonies. The exhibits would be on voyage for six months.

Canadian Apples Wanted.

Contracts have already been made for the shipment to Great Britain this year of over two million bushels of Canadian apples. Exports say that Canadian pippins, Ribstones and Baldwins are equal to the English fruit of the same name.

Bolt From Canon Brock.

Rev. Canon Brock, of Kentville, Nova Scotia, has aroused the indignation of a congregation on the island of Jersey by declaring his non-belief in the doctrine of eternal punishment.

Question of Law.

The London Times, commenting on the Alaska Boundary Commission, says: "Questions relating to occupation may give rise to difficulties, due to feeling and sentiment, but they cannot affect the question of law, which is the main question referred to the Commission. When that is settled by a practical compromise other matters ought to be."

Hutton in Australia.

The Melbourne correspondent of The Morning Chronicle says that General Hutton has not only unified the federal defence, but also has conceded much to Australian democracy.

Sticks to Marconi.

A protocol has been adopted at the International Congress of Wireless Telegraphy held at Berlin, and signed by the United States, Germany, Austria, Spain, France and Russia. But England dissented to the majority of its conclusions, affirming that no system should be used unless a certainty of connection was guaranteed. Italy associated herself with England, announcing that she could not break her contract with Marconi.

Will Appeal Case.

At a meeting of the Institute of Journalists at Bristol, it was decided to appeal against Justice Joyce's judgment that no copyright could be granted on reporters' work.

Chamberlain's Canadian Cartoonist.

Toronto, Sept. 3.—The London, Eng., managing committee of Hon. Joseph Chamberlain's tariff propaganda has engaged J. W. Bengough, the Canadian cartoonist, to make cartoons for the London Daily Express.

READ SECOND TIME.

Unexpected Progress in the House With G. T. P. Bill.

THE LOCATION OF THE LINE

Sir Wilfrid Laurier Kills One of the Very Banners—Mr. Maclean's Charges Against Senator Cox and the Globe—Fetters of the Bonds of the Railway Will Be by Public Tender.

Ottawa, Sept. 3.—Following the heavy work and little progress of the last few weeks in connection with the railway resolution, the House made a decided advance yesterday morning by passing the resolution through committee and adopting the second reading of the Government bill without debate and going into committee thereon. This rapidity was unexpected, and it only leaves the committee stage and the third reading to dispose of the whole matter. Clause 2, which provides for the ratification of the agreement with the railway, was debated last day, much of the old ground being fought over again. Mr. Maclean insinuated that Senator Cox and the Globe, which he said the Senator controlled, had worked for the railway for years, and now the former would profit by it, and also have the fetters of the bonds. This was indignantly denied by Sir Wilfrid Laurier and Mr. Fielding, who said the bonds would be offered by tender to the public. For the balance of the day a somewhat wandering, though at times animated, discussion ensued. The House adjourned at 6 o'clock and the members had a chance to rest after the hard work of the preceding day.

Railway Bill Arrangements.

When the House resumed yesterday morning, jaded and tired after Tuesday night's sitting there was a gloomy feeling that, with the amendments and redistribution bills, the session might last at least two months. This, however, was somewhat dissipated by the rapidity with which the railway question was passed in the first minutes of the opening.

Mr. Monk, who was leading the Opposition, in the absence of Mr. Borden, proposed that the agreement which Sir Wilfrid Laurier's resolution proposed to ratify should be read over clause by clause. After considering this for a moment, while an exchange of views took place between the respective leaders on both sides, it was mutually agreed to pass the resolution through committee, report it to the House, and take the second reading of the Government bill regarding the construction of a national transcontinental railway. These three stages were accomplished in a couple of minutes, and the House went into committee, with Mr. Holmes in the chair, on the bill. This was done on the understanding that the fullest latitude would be allowed in the discussion. This leaves only the committee stage and the third reading of the bill to be passed.

The Bill in Committee.

In committee Mr. Monk asked for particulars of the location of the G. T. P., especially through the West. That was a matter which they were entitled to know. It had been rumored that the new line would run between the Canadian Northern and the Canadian Pacific. Sir Wilfrid Laurier believed his hon. friend on reduction would be forced to admit that that information could not be given. The route had been settled on by Parliament as approximately as it was possible. Before the actual location was laid down on the ground. As to the rumor quoted by Mr. Monk, that the line would run between the C.N.R. and the C.P.R., Sir Wilfrid expressed surprise at the credulity of his hon. friends opposite respecting rumors. There was no more foundation for the one than for the other. There was no foundation for that rumor. It would be impossible to come to any conclusion until the surveys were made. The business of locating the line was the work of special engineers. A provision had been made in the charter that it should not be within 80 miles of any existing line.

In Committee the debate became general and speeches were made by Messrs. McCreary, Northrup, Tarte, Hughes, Fitzpatrick, Maclean, Fielding, Charlton, Kemp, Wright, and Sir Wilfrid Laurier. The House adjourned at 6 o'clock.

Asked For a Subsidy.

Ottawa, Sept. 3.—A sturdy deputation waited upon the Government yesterday and asked Federal assistance for the James Bay Railway. The delegates were received by Hon. W. S. Fielding, Acting Minister of Railways and Canals. Sir William Mulock, Sir Richard Cartwright and Hon. James Sutherland. Sir William Mulock, in the course of his reply, said he was glad to hear the report of the commissioners sent to examine the country was a favorable one. He promised the representations of the delegates would receive "sympathetic consideration."

Favors Colonial Aid.

Montreal, Sept. 3.—The Montreal Chamber of Commerce yesterday passed a resolution favoring colonial aid to the defence of the Empire.

TALKED IMPERIALISM.

Pioneers' Day at the Dominion Exposition—Ahead \$12,000 Already.

It was Pioneers' Day, and the estimated attendance was placed at 26,000. At the Directors' luncheon prominent Pioneers talked imperialism. For Thursday the official figures show an admission with coupon tickets of 88,000.

Strike of 8,000 Coal Miners in Missouri May Be the Result.

Kansas City, Mo., Sept. 5.—All the 8,000 coal miners in Missouri may become involved in a strike unless the 600 men in the Novinger district return to work promptly. They went out against the orders of President John Mitchell and in violation of the Chicago conference, and the operators may refuse to enter the conference scheduled to be held here on Sept. 10.

James Mooney, the local leader, who is responsible for the present strike, incited the members to quit work, in order, it is said, to show his defiance of President Mitchell, whom he has opposed previously.
