ELDON TOWNSHIP FALL FAIR

LARGE ATTENDANCE AND COOD SHOWING IN ALL CLASSES.

what With the Fair's Success.

The weather man wasn't very good this year to the Eldon Agricultural Society. Its 42nd annual fall show. was held on Thursday and Friday of last week in Woodville and on both days the weather was anything but favorable. It rained the greater part of Thursday, and on Friday, the big day, the spectators were treated to considerable. Besides this the weather was very cool and put one in mind of a day late in the fall. Des-Thorah, Breck, Mariposa, Eldon and Carden attended, there being also a large rumber from Lindsay, Kirkfield Beaverton, Cannington, Oakwood and other points. The attendance, indeed, was, up to last year, if not a little larger. There were and in the main building and if the weather had been more pleasant | W. H. McCrimmon and T. Hancock. this year's exhibition would have society.

been the best in the history of the The root and vegetable exhibit was ahead of last year. There were large and beautiful samples of mangolds, carrots, turnips and potatoes to be seen. The samples of wheat, barley, oats, peas were of a high quality. In one corner Mr. Fred Coad, of Lindsay, competed in the manufactures class. He showed heavy and single sets of harpess, the work of which has no equal. The goods were closely examined by the farmers. Mr. Coad was awarded the first prize. On the opposite was an exhibit that interman, proppiretor of the Lorneville creamery, had three samples of the celebrated Delaval Cream Separators on exhibition and was personally in charge.

Woodville horsemen have on of the best race tracks in the country. It is a 1-2 mile track and very fast. The horse races are always good at this fair but the rain made the track heavy making matters disagregable for the drivers. Mud was thrown by the horse's heels against the drivers, consequently slow time was made in the various heats. The directors this year had gone to a great expense by making several improvements on the | King, of Oakwood, and John Bagshaw, ground. Promptly at 2 o'clock the Woods wille brass band, under the leadership of Mr Ryan Switzer, entered the grounds playing a lively air. Then the rush came at the gates. Mr. Archie Carmichael was one of the officers in charge and he was kept hustling collecting the tickets as each one passed through. THE MAIN BUILDING.

will: and vicinity is to see who can excell each other in ladies' fancy work, fine arts, butter-making. bread-making and preserved fruits, while on the other hand the farmers' pride is in growing the best grain, roots and vegetables. This building was devoted entirely to the display of these classes. The exhibits being large, competition was keen. We don't remember of seeing such a grand array of children's dresses, crazy patch work, quilt patchwork, | bly's Black Bird, second; Johnston's tea cosy, doilies, etc., at a township fair before. Some fine samples in these lines were shown and the judgas must have met with much difficulty in awarding the prizes.

The display of fine arts wasn't large but the exhibit was first-class, there being some pictures in pencil drawing, water colors and oil paintings, on exhibition that were cleverly cone. The display of cut and potted flowers was good. The collection of stuffed birds, carving in wood and wax work, (flowers, fru t) were greatly admired. There was a good showing made in home-made bread and dairy products and the good were highly commented on by erities in that line.

There was a grand showing of horses, but the road and carriage class was much more in evidence then the others. There was a fair showing in general purpose horses but the draught and agricultural classes were not so numerous. Some fine horse-flesh was exhibited, especially in the single driving class. Horses of great action and speed, and the entries being large in this class the judges had to go into all the finer points of an animal before awarding [McIntyre, 2 A. Brown; filly or 1 J.
