

Our Sixty-First Year—No. 36

LINDSAY, ONTARIO, FRIDAY, SEPTEMBER 7, 1906.

Terms—\$1.00 per year in Advance.

In the County Court of the County of Victoria.

In the matter of:—

JAMES LOVELL, Landlord, and AMOS J. FORD, Tenant.

Take notice that Hugh McMillan, Junior Judge of the County Court of Victoria, has appointed Friday, the Seventh Day of September, A.D. 1906, at the hour of ten o'clock in the forenoon, at his chambers in the County Court House in the town of Lindsay, to enquire and determine whether the above named Amos J. Ford was tenant to the above named James Lovell for a term or period which has expired or has been determined, and whether the tenant holds possession against the right of the landlord; and whether the tenant does wrongfully refuse to go out of possession having no right to continue in possession or how otherwise of the store lately occupied by R. B. Allan & Co.

McLAUGHLIN & PEEL,

Solicitors for James Lovell, the Landlord.

Dated this first day of September, 1906.

The notice above was served on us Saturday, September 1st, and it explains our position at this time of writing (Monday, September 3rd).

We have found it utterly impossible to secure suitable premises in Lindsay for the few months between our leases. If the judge issues the order to move we will possibly be obliged to move our big stock to another town until March next—the beginning of our five year's lease with Mr. Guiry.

In the meantime this calls for something unusual in the way of selling goods, and we've caused a Great Price Commotion during our remaining time here.

Just a few sample prices to show how big the saving are.

COME WITH THE CROWDS

Ready at 9 a.m., Wednesday the 5th.

T. E. BELL - Agent

Notice to Farmers.

Smutty Wheat Unsaleable.

Wheat with broken smut balls in it, or tagged on the kernels, all millers claim to be unfit to make flour of, and refuse to buy it except for feed, consequently we, the undersigned grain dealers on the Midland division of the G.T.R., have instructed our buyers at the different stations not to purchase smutty wheat.

There is a solution in which Seed Wheat can be dipped, which the Experimental Farms claim will prevent smut, and the formula for this mixture may be obtained free on application to Prof. C. A. Zavitz, Guelph, or Mr. L. Newman, Dept. of Agriculture, Ottawa.

ELAVELLE MILLING Co. Ltd., Lindsay; SPRATT & KILLEN, Lindsay; J. MAUNDER & SON, Lindsay; J. H. BRADON, Fenelon Falls; WILLIAM ROSS, Port Perry; L. COFFEE & Co., Toronto; HOGG & LITTLE, Ltd., Mariposa.

CITY FATHERS IN SESSION.

SOME ROUTINE BUSINESS DEALT WITH TUESDAY NIGHT.

Tax Collector McWatters Asks for Instructions—Several By-Laws Passed.

A regular session of our City Fathers was held last Tuesday at which were present his Worship, the Mayor and Aldermen O'Reilly, Fisher, Rea, Bezz and Maund.

The minutes of former meetings held during the month of August were read and approved.

The following communications were read by the Clerk:

From Mr. Thos. Connell, asking to be relieved of his 1905 personal taxes.

From Mr. Wilson Graham, claiming that he was not liable for personal taxes for the year 1905.

From Mr. Wm. Burden, asking that his personal taxes of 1905 be struck off.—Referred to the Court of Revision.

A half dozen accounts were presented for payment and were referred to their various committees.

Petitions from Mr. John Short and others, asking the Council to continue the construction of a granite sidewalk on the east side of St. Paul-st, from Queen to Dennistown-st.—Laid on table.

On motion Mr. B. Dingle was heard asking that the construction of the sewer on Sussex-st. between Bond and Wellington-sts. be proceeded with.

Moved by Ald. Bezz, seconded by Ald. Rea, that the petition of Mr. John Short and others be filed and that the request of the petitioners be granted and that the walk be constructed as far north as Colborne-st.—Carried.

Moved by Messrs. Maund and Rea that By-law No., regulating the closing of certain shops in the town of Lindsay be now received and filed.—Carried.

Moved by Alderman O'Reilly and Fisher, that By-law No., appointing five viewfinders in and for the town of Lindsay be read a first time.—Carried.

The Council then went into Committee of the Whole on said by-law and the by-law to appoint a poll-tax collector, Mr. Bezz, in the chair. The by-laws were read a second and third time, passed, signed and sealed.

Moved by Ald. Bezz and seconded by Ald. Maund, that the chairman of the Board of Works be authorized to have plans prepared for the sewers already constructed on Sussex-st. between Bond and Francis-st. and on Russell-st. between Cambridge and William-st. and a plan for the sewer to be laid between Sussex-st. and Wellington and Bond-sts, there being no plan on file.—Carried.

Mr. G. H. Lindsay was instructed to proceed with the construction of the sanitary sewer and collar drain on Sussex-st.

It was moved and seconded by Alderman O'Reilly and Fisher, that the street Commissioner be instructed to report on the advisability of building a four foot granite walk on Queen-st. north from David to St. George-st.—Carried.

Ald. Fisher informed the Council that he had recently called on an old lady who had fallen on the sidewalk in front of the Court House on Cambridge-st. and inquired as to the state of repair of the same.

Mayor McManis informed the Council that he had authorized the collector to accept from a Mr. Brown, who was an ill health, not for about \$12, balance of his taxes for 1905.

It was carried that the walk, which is to be laid down from Lindsay-st. to Mill-st., be continued on down to St. Lawrence-st.

Mr. McWatters brought to the notice of the Council the fact that he was having difficulty in collecting taxes from Mr. Lovell on the rooms over Mr. Morgan's tailor shop. The collector was authorized to obtain the advice of the town solicitor in the matter.

Mr. Rea informed the Council that he had been requested to recommend the construction of a granite crosswalk at the post office and inquired whether the Council intended constructing granite crossings on Ken-st. this year. The Council decided in the negative.

The members then adjourned.

LINDSAY CENTRAL EXHIBITION

EVERYTHING LOOKS FAVORABLE FOR A BIG EVENT.

A New York Company Will Furnish Special Attractions.

The officers and directors of the Lindsay Central Fair are busy men these days, and are devoting a lot of their valuable time to the work of perfecting all arrangements for the big fair to be held on Sept. 20, 21 and 22.

The fact that the premium list has this year been increased by about \$1000 is convincing proof that the management are fully alive to their duties. The increases are spread over the horses, cattle and poultry departments, and the industrious and money-making hen is honored to the tune of about \$400. The showing of poultry is expected to eclipse all records, and the substantial premiums offered in the horse and cattle line will bring out the best in the district.

The special attractions promise to be the best ever seen at the County Fair. Messrs. Hazell & Cox, of the Transatlantic Amusement Co., New York, have been awarded the contracts, and will furnish artists and attractions of high merit. The Bijou Circus comprises three people, two ponies and four dogs, and Beaumont's Poppies include six highly trained ponies, four dogs and three artists. Some seven or eight distinct acts will be given daily in front of the grand stand.

The Marathon road race will be a unique event, and should arouse much interest among athletes and others. The distance is ten miles, and the race will be run on Saturday, the closing day of the Fair. The prizes offered are substantial—\$50 to the winner, \$25 to second man, \$15 to third man and \$10 to fourth. A start will be made in front of the grand stand; the contestants will circle the track two or three times and will then leave the grounds, run down Adelaide to Kent-st., up William to Colborne-st. and west to Costello's corner, 1st con. of Ops, south to 1st quarter line thence east to Kent-st., Adelaide-st. to the Fair grounds, a complete ten miles on speeding track. The race is open to all residents of the Counties of Victoria and Haliburton and the Townships of Cartwright, Manuwa and Cavan.

Secretary-Treasurer Keith reports that exhibit entries are pouring in at great rate. He has received some big orders from individual exhibitors in his time, and is not easily stampeded to use a cricketer's term, but yesterday he was clean bowled when he received from Mrs. H. G. Kemp, of Owen Sound, a list of 85 entries in various classes.

Make your arrangements to attend the Lindsay Central and spend a happy time.

ALL HANDS GETTIN' READY.

They are making preparations for the great fall fair, and the farmer and his family are loaded up with care.

They are rubbin' down the gelding on the big brood mare.

And the three-year-old is frisky—you ought to see him rear.

As they run him round the pasture when they've got an hour to spare.

They make him go full sail, Red ribbons in his tail—

Yes, they're makin' preparations for the big fall fair.

They are combing out the fleeces of the thoroughbred rams,

They are picking out the best of the pretty spring lambs;

The hired man is workin' on a wick-erware rig

For the easy transportation of the pedigree pig,

And the boys are all constructin' the latest little pens

For the easy transportation of the Vere-de-Vere hens.

The "cisticraic" bull

With turpin tops is full—

Yes, they're makin' preparations for the big fall fair.

They are making preparations for the big fall fair,

There is very much excitement in the circumambient air.

Each farmer has a punkin that can't be beat, b'gosh!

And everybody stands to win upon a certain squash;

Not to mention barley, wheat, and oats, and buckwheat, corn and peas,

And the products of the vine and the harvest of the trees.

And I hear the housewife mutter, "They'll never beat that butter!"

Yes, they're makin' preparations for the big fall fair.

They are making preparations for the big fall fair.

In the barnyard, in the kitchen, down cellar, everywhere;

The curry comb is going and the brush is never still.

And the girls are making butter with a flourish and a will;

They are glancing at the wall, where diplomas in a frame,

The trappings of the past, are a glory and a name.

Before their eyes arises The vision of big prizes,

Yes, they're makin' preparations for the big fall fair.

—The Khan, in Toronto Star.

To Hunt for the Pole.

In the past hundred years 4,000 lives, 200 ships, and \$100,000,000 have been sacrificed in a futile effort to reach the North Pole.

There are possible gains in sight from the hoped-for discovery that is at all commensurate with the certain cost and suffering caused by the effort to discover! Ask the Weekly Sun.

HAS A BIG MODEL CLASS

PRINCIPAL BRODERICK WILL BE BUSY THIS TERM.

Names of Teachers on the Public School Staff, and Where Located.

"The largest attendance in years," was the comment of Principal G. E. Broderick regarding his fine class of Model students for 1906. This year forty students are in attendance, and the large number may be attributed to the fact that the age limit has been reduced to seventeen years and candidates are admitted who failed in recent examinations, but who have a reasonable chance of success at mid-summer. "The change was brought about in order to give a supply of teachers for next year," said Principal Broderick. The new Normal School will not graduate students till June 1908.

Following is a list of Model students attending the Lindsay Model School; Blanche Gibson, Campbellford; Chas. E. Keimode, Gordon A. Dunn, Lucinda Purdy, Irwin B. Martin, Cayson; T. Campbell, N. MacCallum, Woodville; Thos. W. Lowery, C. Helleg, May Smith, Ethel A. Cornell, Emily Haugh, May Heenan, Lillian Gertrude Jordan, E. Gertrude Thornbury, Ethel M. Graham, Nina Allen, Nelson E. W. Graham, John Joseph Flury, Harold H. Wallace, Richard C. Gray, Cora Taylor, Lindsay; J. Stanley Heeds, F. A. Reeda, Reabore; Jennie McConnell, Ethel Bannan, Omence; Zillah Suggitt, Haddow; Bella Torrey, Arzyle; Gertrude Lucas, Mary Bezzie, Isabel Bezzie, Downeyville; Mamie Staples, Red Rock; Lora McKenzie, Glenora; Robert Meldrin G. Corbett, Smith's Falls; Earl O. Hart, Mount Hope; Gertrude Junkin, Arch. G. Parrish, Fenelon Falls; J. May Fowler, Oakwood.

Public School Teachers.

Principal Broderick kindly furnished us with the following list of teachers in the Public Schools:

Union—Messrs. McDonzelli, McFadyen, and Misses Thomas, Lambert, McLaughlin, Power, Smith. Miss Lambert was transferred from the east ward school.

East Ward—Misses Fanning, Graham, Jackson, Twamley. Miss Jackson comes from Colbourn and takes charge of the Primary class.

South Ward—Misses Laidlaw, Weldon, Fee and Lewis. Miss Lewis has consented to remain until fall as it is impossible to get a competent teacher and she has been transferred from the Union to the south ward. Miss Weldon is in charge of the Primary class, taking the place of Miss McKay, who resigned.

Francis-st.—Misses Wray, Scott, Andrews.

North Ward—Miss Walker and Miss Jewell.

NEW YORK AND LONDON.

Items of Greatness in Both Cities—Where New York Excels.

It is said of London in praise of its greatness that:

In London a child is born every three minutes and a death recorded every five minutes. The city contains 700 railway stations, 5,000 omnibuses, 7,000 hansoms, 14,000 cabs and 7,000 taxicabs. Daily 1,000,000 persons travel on underground railways.

Eleven railway bridges span the Thames. Four thousand postmen deliver 10,000,000 letters weekly, walking a distance equal to twice the circumference of the globe. There are 10,000 miles of overhead telegraph wires, and the number of telegraph messages received in London in a year is 6,000,000.

Ninety million gallons of water are consumed daily. The railways, omnibuses, cabs and steamboats convey 1,213,000 passengers daily and the underground railways 263,000,000 passengers yearly.

The 118 square miles of London are lighted by 4,974 electric lights, 1,185 electric incandescent lights, 56,000 incandescent gas lamps and 18,248 flat flame gas burners.

Well, New York can do something in the same line of municipal greatness.

With a similar number of inhabitants than London it exceeds it in the volume of travel, in the amount paid for work, in the volume of work done and in the increase in the number of buildings, occupants of a building and population.

Where London consumes 90,000,000 gallons of water a day, New York consumes 500,000,000. Where London has an area of 118 square miles, New York has 236.

In New York every minute two immigrants arrive—more than 1,000,000 in a year. Every six minutes a child is born. Every seven minutes there is a funeral. Every hour a new building is erected.

New York has more children at its public schools than London; fewer paupers; a lower death rate; fewer uninhabited houses; more parks, more bridges, fewer jails, a better distributed street traffic and a higher standard of health.

New York's subway carries more passengers in a day than London's underground. The number of crimes of violence is twice as large in London as in New York, and the number of arrests for drunkenness in London is four times as great as the number of arrests for the same cause in New York.

New York has more fires in a year than London and they entail greater loss. It has less shipping as a port than London, fewer clerks to the whole population employed, but more bosses or employers.
