The Kind of Furs

You'll need this Winter

We would not be saying too much if we said no store had better values or more satisfactory furs. Buyers who think of wearing qualities as a consideration will find our showing one that will win their admiration. After a season of value and style hunting our shipments are now complete and open for your inspection. We are decidedly well pleased with the various lines. Many shapes are confined to us by their makers and their exclusive style is a strong selling point, however, we ask you to come and see this showing—it will give you correct fur values as our prices are extremely reasonable.

New Styles in Mantles

Don't Miss Seeing Them.

There are advantages in these Sutcliffe Mantles which you should not overlook—exclusiveness, excellence, variety and price. There are no newer styles to be had. These Coats are fresh from the foremost German and English makers. The prices we ask you for them is lower than you would honestly expect for the class of garments we offer, of course quality is in no way sacrificed to make prices lower—no, not under any circumstances for our customers we must have the best values that are to be procured. Inspect these before purchasing.

and following days.

A grand display of Pattern Hats, copies of New York, Paris models and fall millinery Novelties.

Miss Scrymgeour of Perth, will have charge of our millinery section for the coming season. With her experience and the assistance of a large staff we can promise you stylish millinery at pleasing prices as well as prompt execution of your valued order.

You Should See These Stylish Dress Materials

Each season brings its new Dress Goods to the front in greater variety and more pleasing shades. The latest fashions confirm our selections which we made early in order to secure the most complete range possible. While all staple lines will retain favor, yet the trade is strong in plain cloths and tweeds as leaders. Now we have a very large showing of these and the colorings are very pleasing and show richness when made up. Of course we imported these direct from the fashion centres and that accounts for their absolute correctness. Coupled with this showing is our dress trimmings in a far larger and more comprehensive range than ever before.

White Wool Blankets Good Qualities Low Priced. Carpets and Curtains Exceptionally Big Showing

We anticipated a big advance in the prices of White Wool Blankets and in order to protect our customers we bought heavily at old low prices. Now we are able to see the wisdom of our judgement. Prices are considerably higher than formerly—yet we have Blankets and good Blankets, at prices that would buy only the ordinary kinds had we to buy them now. Our Blankets are the high lofty knap make, well finished and thoroughly scored ready for use. We cannot emphasize these values to strongly.

We are direct importers of Carpets, Curtains, Rugs and Linoleums. For many reasons we find it to our advantage to do so—for instance—the saving of wholesalers or middlemen profits, the procuring of advance designs and the very latest shades—then there's the quality, a most important part. With our experience we are in a position to judge the quality that is sure to give you the best satisfaction. Bring your measurements and we will tell you exactly the cost of fitting up your home or any room. We cut and match carpets free of charge.

When It Comes To Buying Clothing.

Ours is the kind of Ready-to-Wear Clothing you ought to buy. It is far superior to-day than it was a few years ago. To-day you can buy as good fitting, as good wearing and as correct style as any merchant tailor can make you. The makes we carry are made of the best materials put together by tailors who are proud of their skill and by perfect workmanship have made their brands noted throughout the trade. We are the sole agents for "Northway Brand" and we know from experience that it's the most satisfactory clothing in the trade. Every garment thoroughly inspected before leaving the workrooms. We have seen it made and know that no detail in its make up is slighted in any way. The prices no higher than you would pay for the ordinary makes.
