ALBERT TOILET SOAP CO., Mfrs. Montreal.

**EDITORIAL NOTES**

Tarte refuses to resign at the bidding of his constituents, whom he betrayed.

An Ottawa Catholic priest has denounced the custom of throwing rice at newly wedded couples as rude and vulgar. He might also have added "and dangerous."

Chicago tenants are suing a landlord for \$25,000 damages for the loss of two children whose deaths are traceable to sewer gas escaping into the house owing to defective plumbing. The case is attracting much attention, and if the verdict is rendered it will lead to a general rehauling of scamped jobs.

Employees of the Health Food Company, of London, were before the magistrate the other day, charged with working on the Lord's Day. The members of the company are said to be Seventh Day Adventists, and one of their pleadings is that Sunday is not the Lord's Day. Deponents of the Day of Rest will watch with interest the result of the case.

Toronto Weekly Sun: An Australian woman over 90 years of age who had been receiving an old age pension for some years intimated the other day to the Government official through whom the pension had been paid to her that she had just received a legacy of \$15,000, and desired at once to be taken of the pension roll and to repay to the state the total of her pension money to date. Here is an example for some of our big corporations which have received large sums of money from us in the past, at which are now paying big dividends and heaping up reserve. Which one will be the first to follow the example set by the old lady in Australia? Some of our "infant industries" too, might fall into line.

October "Outing" has an appreciative sketch of Mr. J. W. Tyrrell, of Ottawa, the sub-Arctic explorer. It says: "A man who has, almost unaided, crossed the sub-Arctic wastes of Upper (?) Canada not once, but twice, and lived, not only to tell the tale, but to return with accurate geographical knowledge, deserves well of his Government. . . . He is a great ground coverer. Once as he was nearing Lac La Biche, Alta., at the end of his journey of 4,600 miles, the dog team of a fresh party passed his camp in the night. Tyrrell looked off his blankets, hitched up his team, and before dawn passed the trail party, travelling through the following day, reaching La Biche in the evening, with a record dog run of twenty miles to his credit, forty-five of which he covered himself on foot."

When Mr. J. J. Kelso, Superintendent of Neglected Children of Ontario, speaks on the subject of child rescue, he is always worth the listening to. At the meeting of the Charities and Corrections organization in Ottawa, he said: "In large cities police forces have become so well organized that they are a menace to the spirited youth of the country. Police often make an arrest merely to give a good account of themselves to the gargent, and prove their right to draw salary." Is there any truth in that? Are young lads made criminals against their own will? When a boy is summoned or arrested and then fined for playing ball, has that a tendency to make him a real criminal? Instead

of the law being a terror to evildoers, and a praise to them who do well, Mr. Kelso seems to think that in his dealing with boys the effect is the reverse. Certainly the boy who has once faced the Police Magistrate, loses a certain amount of self-respect. The boy question deserves much serious consideration.

There are no finer roads in the world than the old-sprinkled roads of Southern California, says the Chicago Chronicle. They are neither dusty nor muddy. They have a peculiar elasticity which is unknown to the water-sprinkled highway. The roadbed has less tendency to break up, and there is little odor from the scale. The sprinkling requires to be done once a year. It will be remembered that Judge Dean called the attention of Council to the above fact a month or so ago.

In a recent editorial referring to Central Fair matters we commended the management for the conservative policy, pursued in the past. That policy was wise during the "building up" days, when a heavy debt weighed upon the Society, when a set-back from any cause might have encouraged the fatal expedient of paring down the premium list, and when the competition of other shows was a fact not to be forgotten or disregarded. To-day the Society is on firmer footing than ever before, and in a position to consider any reasonable plans for the further improvement of the Fair.

In New Jersey men went on strike because the employers refused to reduce their wages. A certain firm there gave some workmen \$3 per day, while others, more efficient, received \$3.75. When the walking delegate heard this he came along and ordered that all men be paid the same wages, as discrimination between employees was contrary to union principles, and as the lowest amount was the union scale, compliance with the order involved the cutting down of the wages of the highest. To this, however, the employers demurred, and the men struck, the more highly paid going out with the rest.

It seems not improbable that in the evolution of the ocean steamship another important advance may presently be made. The authorities of the Cunard Company in London have appointed a commission of engineers to examine the turbine system of propulsion, with a view to its adoption for the new steamships which that company now has under construction. These great vessels, to which the Imperial Government has granted a subsidy, are to be the largest and finest in the world. If the turbine is adopted to replace the propeller as the means of propulsion for these great ships, it will be proof positive that the new system is the best that can be adapted to the driving of the largest sized steamships across the ocean.

That the Ontario Government has been able to find a way to secure the immediate payment of the wages of the Clergue employees at Sault Ste. Marie, while protecting the Province, by making the amounts disbursed a first claim on all concessions to the company, is most gratifying. The amount thus to be advanced will approximate \$200,000, and that arrangements should be so speedily made is complimentary to the activity and energy of the Government, and its interest in the workers who were placed in such an awkward situation. As soon as word came about the trouble Mr. Ross and his Cabinet took action to secure immediate payment of the wage bills, and although the opposition of the mortgage holders made the arrangement one of much difficulty, it was speedily effected. Mr. Ross' statement of the Government's course is given elsewhere, and in the light of it the Mail's frequent reiterations that "the Premier adopted Mr. Whitney's plan," and "took Mr. Whitney's advice," are extremely silly. On whatever has been done in the matter Mr. Whitney has had no more influence than his smile would have on the snows of Mount Donald.

**Ran a Nail Through His Hand.**  
While opening a box, J. C. Mount, of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he says, "and immediately applied Chamberlain's Pain-Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by all druggists.

—When you want a physic that is mild and gentle, easy to take and certain to act, always use Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

**ENORMOUS COAL DEPOSIT LOCATED**

Seam is Twenty-seven Feet Deep and 100 Miles Long.  
The existence of coal in the Gatineau is established beyond a doubt by the report of a mineralogist who came to the city the other day fresh from examination of a valley 100 miles in length at the head of the Gatineau River.

J. J. Collins, civil engineer, 370 Lisgar-st., Ottawa, is authority for the above statement. Speaking of the find, Mr. Collins, said: "My friend, the mineralogist, who has been prospecting in that region for minerals, discovered a seam of coal twenty-seven feet thick, running for upwards of 100 miles north and of a quality equally as good as the Welsh anthracite which we had in Ottawa last winter. The proposed line of the Grand Trunk Pacific will tap this vast region at its southern extremity."

Mr. Collins says the gentleman who discovered the coal intends to locate it and wishes to keep his name secret until he has secured it.

**He Learned a Great Truth.**  
It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?"

"John Wesley, because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by all druggists.

**Rev. Mark Guy Pearse.**  
An announcement that will cause considerable satisfaction in Lindsay, is that Rev. Mark Guy Pearse, the noted English preacher and lecturer, will be in town on October 27th and will lecture in the Cambridge-st., Methodist church. Last Sunday when Mr. Pearse was in Toronto churches in which he preached were crowded to overflowing. He is one of the most interesting speakers on the public platform, and will no doubt be heard by a great many on his visit here.

**Owes His Life to a Neighbor's Kindness.**  
Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost helplessly afflicted with diarrhoea; was attended by two physicians who gave him little, if any, relief, when a neighbor learning of his serious condition brought him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours. For sale by all druggists.

**Make "Made in Canada" Creditable.**  
(Monetary Times)  
There should be a limit to the habit of clapping oneself on the back, even though this be pleasant. Mr. Preston recently called down a good deal of animadversion upon his head because seeing that Canadian butter shipped to Britain was not so good as that of some other countries, he had the temerity to say that it was not such an action more likely to lead to future perfection than if he had taken the easier course of leaving his fellow countrymen in a fool's paradise of self-complacency, which leads nowhere except commercial destruction. Made-in-Canada should mean not a mere passably good article, but equal to the very best that can be made.

**A Remarkable Record.**  
Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by all druggists.

**Broke Her Shaft.**  
The Trent Valley Navigation Co's steamer, Ogemah, on her trip on Saturday when passing out of Bobaygeon broke her shaft and was completely disabled and had to be towed back to her dock. The passengers were transferred to Mr. Boyd's yacht, the Calumet, and taken to Lindsay but arrived too late to make the morning train connection. The Manita will take the disabled steamers out.

**BIRTHS**  
BIRGENAW.—In Lindsay, on Oct. 1st, to Mr. and Mrs. Joseph Birgenaw, a son.

**MARRIAGES**  
FARROW—TROTTER.—At Kilmount, on Sept. 30th, 1903, by Rev. Jos. Monk, Mr. David Farrow to Miss Alma Trotter, both of the township of Lutterworth, Ont.

VEITCH—JOHNSON.—At Dearborn-ava, Chicago, Ill., on Tuesday, Sept. 29th, 1903, Miss Lila Veitch, of Santa Barbara Col., (formerly of Lindsay) and William Johnson, of London, England.

ARMSTRONG—NURCEY.—In Lindsay, on Wednesday, Sept. 30th, by Rev. Rural Dean Marsh, Mr. Edward C. Armstrong, of Dundas & Flavelle Bros' staff, to Miss Mabel, daughter of Mr. Geo. Nurcey, Melbourne-st.

INGRAM—BOOTH.—At the Manse Napace, on Wednesday, Sept. 9th, 1903, by Rev. J. Conn. Lulu Booth, daughter of J. R. Booth, of Deseronto, to George M. Ingram, of Fenelon Falls.

**DEATHS**  
CAMPBELL.—In Lindsay on Monday, October 5th, Archibald Campbell, merchant.

MENZIES.—At Fenelon Falls on Wednesday, Sept. 30th, 1903, Robt. Menzies, sr., father of Mr. Robt. Menzies, foreman with the Rathbun Co., aged 70 years.

**What You Want.**  
In the "Post" Stationery and Visiting cards are laid. Newest designs in stock and up-to-date script type.

**AN ACCIDENT IN OPS TOWNSHIP**

Mr. Herb Graham Had the Tips of Four Fingers Taken off in Cutting Machine.  
Mr. Herbert Graham, son of Mr. J. B. Graham, a leading farmer of Ops, met with a painful accident on Friday last. He was assisting his neighbor, Mr. Isaac Moyne, on the Barclay farm, in cutting corn to store in the silo, and while operating the cutting machine his left hand became fastened, with the result that the tips of four fingers were amputated. Had Mr. Graham not had presence of mind to reserve the lever its very likely his arm would have been seriously injured.

**Mechanics, Farmers, Sportsmen!**  
To heal and soften the skin and remove grease, oil and rust stains, paint and earth, etc. use The "Master Mechanic's" Tar Soap. Albert Toilet Soap Co., Mfrs.

**Local Stock Exchange Closed.**  
On account of the erratic condition of the stock market, which has discouraged speculators from buying stocks, Messrs. Dever & Co., stock brokers, have closed their agencies both in Peterboro and Lindsay. Thursday Mr. Bennett, G. N. W. Inman on instructions from Dever & Co., visited the local agency and removed the private wire.

**Obituary**  
It is with the most sincere regret that we announce to-day the death of one of Lindsay's most esteemed merchants, Mr. Archibald Campbell, which occurred at the family residence, Glemel-st., at 9 o'clock last evening. The sad event was not altogether unexpected by his friends as he has been seriously ill for several weeks and the last few days it has been thought that his illness would probably result fatally. The funeral will take place on Thursday at 2.30 to Riverside cemetery.

**Railway Notes.**  
—On high authority it is stated that the Grand Trunk Railway Co. is making to instal a faster service between Toronto and Montreal. The day train, it is understood, will leave Montreal at 8 o'clock a.m., and arrive in Toronto at 2 p.m., making 330 miles in six hours. The only portion of the road over which fifty mile an hour speed cannot be maintained is the small section in the vicinity of Whitby, which is undergoing improvements and which cannot be completed this year. When this section is in order a six hour journey between Toronto and Montreal may be easily maintained. We trust that Lindsay's claim for a faster train service between Lindsay and Toronto will also have consideration by the G.T.R. management.

**The Royal Month and the Royal Disease**  
Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and consumptive. The progress of scrofula during a normal October is commonly great. We never think of scrofula—its bunches, cutaneous eruptions, and wasting of the bodily substance—without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world. There is probably not a city or town where Hood's Sarsaparilla has not proved its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost as serious and as much to be feared as its near relative, consumption.

**The Liberals and Ruin.**  
(Montreal Herald)  
The case of that Woollen Mills man yelling that the tariff is ruining business, while an advertisement for workers hung outside of his door, is about the limit.  
This kind of talk was common in 1896.  
At that time people swore in two languages, that if Laurier was elected he would shut up his mills and go 'o Europe.  
Since then the capital of his company has been doubled, the common and preferred stock pay 14 per cent. between them, and the bonds 6 per cent.  
Laurier will be elected again. The woollen people will continue to advertise for workers, and in the case of the other mills they will be doing a bigger business than ever.  
Cheer up everybody.

**Chamberlain's Cough Remedy**

This preparation is intended especially for coughs, colds, croup, whooping cough and influenza and has become famous for its cures of these diseases over a large part of the civilized world.  
It can always be depended upon and is pleasant to take.  
It not only cures colds and influenza, (grip) but counteracts any tendency toward pneumonia.  
It contains no opium or other harmful substance and may be given to a baby as confidently as to an adult.
