Poets have been fond of likening Her fairness is

the flower fragrance. Her very fragility finds its type again in the frail flower, which languishes when

All women love flowers, and every woman who grows them knows that their health depends on daily care. Not alone are water and sunshine necessary to the health of the plant. Their leaves and roots must be guarded from the parasites which soon destroy the flower's beauty and undermine

If a woman would care for herself as she does for her plants she would preserve her beauty and retain her strength far beyond the period when the average woman looks old and feels older than she looks,

THE GREAT SEORET Of woman's preservation of her beauty lies in the intelligent care of the womanly health. So close is the relation between the health of the delicate womanly organs and the health of the whole body, that whenever the feminine functions are deranged or disturbed the consequences are felt by every nerve in the body. Severe headache, backache, pain in the side, and bearing-down pains are borne with by so many thousands of women that one who is in sound health is a rare exception. Most women would give anything to know how to be cured. The way is very plain. Fol-low the path made by more than a half a million women who have been perfectly cured of womanly ills and weakness. "I believe I owe my life to Dr. Pierce's Pavorite Prescription and 'Pleasant Pellets,' " says Mrs. Maria G. Hayzel, writing from Brookland, D. C. "Six years ago, after the birth of one of my children, I was left in a weak, run-down condition. My health seemed utterly gone. I suffered from nervousness, female weakness and rheumatism, and I suffered everything one could suffer from these complaints. Life was a burden. I doctored with three different physicians and got no relief. I tried several patent medicines, all with the same result. I began to get worse, and to add to the complications I suffered terribly from constipation. I chanced to see one of your advertisements and concluded to try the above remedies. I commenced to take Dr. Pierce's Favorite Prescription and 'Pleasant Pellets' and began to improve right away, and continued improving and gaining in strength. I

Peliets' and began to improve right away, and continued improving and gaining in strength. I cannot express the relief, it was so great. Beven months later my little daughter was born without much trouble. I feel that I would never have been able to endure my confinement had it not been for the help I received from Dr. Pierce's medicines. My baby was a fine, healthy child, and the only one I have ever been able to nurse. She is now two years old and I have never had to take any medicine since, so I feel that your medicine has made a lasting cure with me. I owe so much in thanks, it would be impossible for me to express by word or pen impossible for me to express by word or pen how thankful I am to God and Dr. Pierce." NOTHING IS SURER Than the effect of Dr. Pierce's Favorite Prescription. It makes weak women strong, sick women well. It regulates the periods, | gists. stops disagreeable drains, heals inflammagives her vigor and physical strength, so that the birth hour is practically painless.

Address Dr. R. V. Pierce, Buffalo, N. Y. | the inhabitants of the country. | Counter, |
