LINDSAY, FRIDAY, QUICER 14

A GAPABLE REPRESENTATIVE.

If Lindsay is going to be a live, active and capable representative. The town and county will have such in Mr. McLaughlin. He is hardworked Cambridge-st. Methodist church, on ing, energetic and able. He is closely associated with the business enterprises of the town and county. He has been actively associated, with the organization of enterprises in this country that have mearly a million dollars of productive capital invested in the town and county. He has been the confidential legal advisor of many of the largest industrial enterprises in the county. His sound judgment and financial ability is recognized elsewhere. He is counsel for and director of some of the largest financial institutions in Canada, representing many millions of invested capital. The public have great confidence in his judgment, and absolute faith in his intogrity. He has been looking to the ated with both the water power enterprises that propose to bring cheap power to Lindsay.

There will be a revision of the tariff next session, in all probability. Why should this town not be represented by an accurate coonomic student, such as Mr. McLaughlin is known to be ? The interests of our industries would be , faithfully and well represented. The electing him to represent this constituency would add to his influence and greatly increase his power to promoto the welfare of the town and community.

is there a single enterprise or inindustry in the town or county that Col Hughes has ever organized or brought here? Is there one brick apon another as the result of anythirg he has ever done for Lindsay? Would anyone invest a dollar on his judgment? His one specialty, and he has faithfully devoted himself to that, is tooting his own horn-glorilying Sam Hughes -and the whole community would be glad of a good long rest

Business men, give this your consideration. Give Mr. McLaughlin your votes. He will be an able represertative, will give the town and county the full benefit of his energy. experience and ability.

## WILL DO THE PARTY NO HARM.

The Fenelon Falls Gazette in its last issue had the following to say concorning the contest in Victoria and Haliburton :

ency will 'eventuate" neither we nor anybody else can predict with any degree of certainty. The fight will If four years of office meant the be between Col. Sam Hughes and Mr. R. J. McLaughlin, of Lindsay, the latter of whom will be chosen to be held in Lindsay on Tuesday next. In North Victoria, in 1896, Sam Hughes beat Mr. McLaughtin by a majority of 251; in 1990 he beat Dr. McKay by a majority of 106; and a similar falling off at the coming election would result in his defeat. The decline in the Conservative vote was partly owing to the growing popularity of the Laurier Gov. ernment, which, in 1896 had been in power only four years, and partly growing unpopularity of Col. would undoubtedly have he had acquired or said he had acquired-in South Africa. Since then the history of the South fice, was better than the Sandfield tempted along these lines, but to no African war has been written and Mardonald election after four years avail, as the weather man ordained printed, and Sam Hughes' alleged los of office, and better than the electronic feats are not recorded there.
