St. Catharines, Oct. 12.-It is estimated that over a million dollars' loss has been sustained in the Niagara district by the heavy rain, snow and sleet storm of the past few days.

There will be no loss to fruit-growers so far as crops are concerned, as the fruit season is practically finished. except for apples, and that fruit when blown from trees can be utilized. The fruit trees caught the snow and were soon loaded beyond their strength. When morning broke great peach orchards had been converted into acres of stumps and brush. The brittle limbs of the trees snapped under the load of snow and trunks were split to the ground. Apples, pears, cherry, plum and other fruit trees suffered severely, but the peach trees are damaged most. A lot of late fruit was lost. It will take years to repair the damage, for new trees will have to be grown.

In the city the damage is great, the Bell Telephone Co. being the heaviest loser. On Victoria avenue every pole for 2,000 feet of the main trunk line is broken, and the wreckage blocks the street from West avenue to Morrison atreet. The street railway is tied up and the fire alarm and electric light system paralyzed. Several factories are tied up for lack of power. Residential streets which boasted fine-shaped trees are filled with brush and the trees are ruined.
