BEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustrachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever; nine cases out of every ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars

DAY ON THE OPS RANCES.

Weather Unfavorable but Good Soores Were Made-Names of Winners.

Cold, raw weather greeted those who Thursday attended the annual shooting match of the Victoria County Rifle Association, yet despite the unfavorable conditions there was a fair attendance of marksmen and a good day's sport was enjoyed by all. Keen competition and rivalry was the rule, and many crack shots were made, the bullseye being frequently touched. Secretary Ed. Smith was kept busy entering up the scores, which were as follows:

No. 1 Match-200 yards and 500 -500 yards, seven shots each. yards, seven shots each. .

risible Means of Support. (London Advertiser.)

Messrs, Fowler, Pope, Lefurgery

In commercial orcharding, the outiness end of the enterprise, that of marketing the crop to the best advantage, is second only in imporcance to that of producing fruit of the best quality.

It is in this particular that there is the greatest need for improvement at the present time. There are hundreds of apple growers who can grow first-class fruit to every one who can place it on the market when and where it will bring the best price. The growers who make the most out of their apples are those who keep in touch with the best markets at home and abroad. During the shipping season these men watch the market reports daily and unless prices are satisfactory they hold their fruit until good prices prevail. The great majority, however, of those who have apples to sell wait for some buyer to come along and sell for whatever he chooses to offer, usually from fifty cents to a dollar a barrel, or a lump sum for the crop on the trees. The latter plan is nothing less than gambling in apples, and in either case the grower seldom gets onchalf what his fruit is really worth,

if it were properly handied. The remedy for this state of affairs, and what is going to put the apple trade on a better business basis, is for the growers in each apple growing section to unite and form a co-operative association through which the grading, packing and marketing of the fruit may be

accomplished. During the past year a number of these associations have been formed in various parts of the Province and the prices obtained by some of them for last year's apples have made the growers enthusiastic over this method of handling the crop.

An effective co-operative association for this purpose involves the selection of an honest, wide-awake business manager, and the erection of a contral packing and storage house at the most convenient point for shipment. Through such an organication, boxes and barrels can be purchased wholesale to better advantage than they can be obtained by single individuals; the grower can devote his whole attention to gathpainter, while intoxicated, staggered | ering the crop at the proper season and delivering it in good condition at the central packing house; the association relieves him of all care and responsibility in grading, packto act with any quickness his foot ing and marketing, and with this work in the hands of expert packers, the grade of fruit can be made uniform, and the packing can be done properly, which, in time inspires confidence in the purchasing public. In short, the co-operative system of handling the apple crop, under proper management, assures the consumer of a better product, and realizes to the grower a greater profit. -Prof. H. L. Hatt.

Prepare for the Crash.

(The Weekly Sun). The New York Post says land specualtion is more general in the United States now than at any previous time. Not only is there wild gambling in values in cities like St. Louis and Pittsburg, but the craze has extended to farm lands in Kansas, Oklahoma, and the Dakotas as well. Deposits in savings banks have been largely withdrawn in order that people on whose behalf these deposits were held might engage in

real estate ventures. The evil complained of is not confined to the United States. In Toronto and Winnipez city properties are being held on a narrow margin at prices far beyond actual values. Northwest farm properties are held in the same way, and at prices equal-

ly extravagant. One bad crop, one pinch from any cause, and we shall have a crash is thought by some that the very worse, and he passed away early this equal to that of the early mineties. The Sun again repeats its warning to prepare for the inevitable.

> Berlin Y.M.C.A.-An Explanation, Secretary J. P. Reed, of the local Y. M. C. A. has received a letter from Provincial Secretary C. M. has been much comment among friends of the Association which unfounded. Many thought that Berdebts and to take up work in smaller quarters. The facts of the case are that the building, which is owned and occupied by the Association, is an old factory, which has never been satisfactory, and could not be made so. On this building there has been since the purchase thereof a mortgage of \$5,000. As the building was very unsuitable and could

in less time than any other known balm. ECZEMA, SCALP SORES AND ERUPTIONS CURED. Mr. Henry Harvey, of Cataraqui, Ont., says:—"I am glad to state that Zam-Buk my case has done all it was recommended to do. I had some sores on the scalp, which at times caused me such acute pain that I could not bear to touch the part. This which at times caused me such acute pain that I could not bear to touch the part. This continued for nearly two years, and defied all remedies I tried. Zam-Buk was recommended to me and, after a fair trial, I am glad to report the sores are quite cured. I can strongly recommend Zam-Buk for scalp diseases.

Mr. T. Bull, of Cooksville, Ont., says:—"I consider Zam-Buk splendid value. I have used it on Burns, Pimples, Cuts and Sores, and have found it to contain more has line and the next property to produce the next property in part before, and can recommend it."

healing qualities than any preparation used before, and can recommend it."

Mrs. Nellie Campbell, of Inversry, Ont., writes:—"I think Zam-Buk a splendid healer. I had a bad spot of Eczema on one of my fingers that bothered me terribly. I obtained a supply of Zam-Buk and, to my delight, it healed the Eczema very speedily. I shall keep a supply of Zam-Buk handy, as I think it such an excellent remedy. I would not be without it in the house."

WHAT ZAM-BUK CURES: Outs, bruises, burns, scalds, ecsema, pimples, running sores, sore feet, poisoned wounds, fester-ing sores, piles, bad legs, diseased ankles, boils, ringworm, sore backs, scrofula, itch, sore breasts, barber's rash, and all injured or diseased conditions of the skin. > Well, for almost thirty years we have been selling TEAS and COFFEES to the people of Lindsay and the County, and from the very outset we made a specialty of the business.

We gave good value always for the prices charged, because we knew how to get the best and nothing else would suit us. To-day, however, we can say with confidence that we are giving more for the money than ever before.

Increased experience has taught us how. Why go elsewhere and buy inferior Teas and Coffees when we offer you as good as can be bought in Canada for the money. Try us and you'll say so, too.
