

We offer \$1,000

For a Disease Germ That Ligozone Can't Kill.

On every bottle of Ligozone we offer \$1,000 for a disease germ that cannot kill. We do this to assure you that Ligozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Ligozone its worth to humanity—a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Ligozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Ligozone—like an excess of oxygen—is deadly to vegetal matter. Ligozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Ligozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Ligozone, and it cures diseases which medicine never cures. Half the people who meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are, and when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

50c. Bottle Free.

If you will Ligozone, and have never tried it, please send us this coupon. We need them all for our order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please, accept it today, for it places you under no obligation whatever.

Ligozone costs 50c. and \$1.

—Mr. Jas. Barr, of Buffalo, N. Y., who has been spending a few days with his father, Mr. C. D. Barr, returned home on Friday by the flyer.

B. C. MINE DISASTER

Fourteen Miners Killed by Gas Explosion.

IN THE CARBONADO MINES

Only One Man Escaped With His Life—D. D'Arcy Has a Thrilling Experience, and is Suffering From Shock—The Mines Are Near Morrissey, and a Similar Disaster Occurred Last Year.

Winnipeg, Nov. 19.—A Fernie, B. C., despatch says fourteen miners were killed at the Carbonado mines, near Morrissey, yesterday afternoon, as the result of a terrific explosion of coal gas. The disaster occurred in No. 1 mine, ten miles west of Fernie. The work of rescue was kept up all the afternoon, and all the bodies have been recovered. The dead are: Mr. Jenkins, Lewis Carlin, Peter Kenny, Albert Johnson, Patrick Boyle, Wm. Platt, Mike Gustick, Arnton Frerhnyck, Venesta Venerka, Martin Tomzacky, Anton and John Bronsao (two brothers), Joseph Sucky and Jas. Greenman. The wife of Jenkins, one of the victims, only arrived from the old country Thursday.

D. D'Arcy was the only man who escaped from the mine, and he had an experience he will never forget. He was a driver, and was on the way out when the terrible shock came. He heard a noise in the interior of the mine, followed by a mighty rush of dust and gas. He made his way out to the tunnel mouth, where he was rescued by friends. He is suffering severely from the shock. Mine Manager Simister and General Superintendent Drinnan are at the scene of the accident, and everything is done to expedite the work of rescue, though it was known that none of the entombed men could possibly escape. A similar disaster occurred at this colliery last year, when four men were killed.

STEAMER OCEAN BURNED.

Had Many Misadventures and Was Burned to Gunwale at Port Dalhousie While in Dry Dock.

St. Catharines, Nov. 19.—About 2:15 yesterday afternoon one of the sailors of the steamer Ocean, which was undergoing repairs in Muir's drydock at Port Dalhousie, saw flames shooting from the hold. He raised the alarm, and almost as he shouted, fire seemed to burst out in every direction. The men who were working on the vessel had to drop their tools and run for their lives. There was no time to save anything, not even the men's clothes.

A fireman ran to his quarters to endeavor to get some belongings, but fire burst out all around him, and he was with difficulty saved from death by a brother fireman, James Oulette of Montreal, who rushed to his comrades' assistance. Oulette and the other man were badly burned on their faces. There was no steam up and no fire in the ship's furnaces, so that there was no means of fighting the flames with the hose. The men had to just stand and watch the Ocean become reduced to ashes.

The Ocean burned to the gunwale line, and while there will be some salvage, she is almost a total loss. The vessel was one of the oldest on the lakes, and cost \$30,000 to build. She is covered by insurance.

The fence around Muir's drydock caught fire several times, but the turning of the water into the dock stopped the flames from spreading any further.

The burned steamer Ocean was owned by the Westworth Navigation Co. She was one of the fleet plying between this city and Montreal. In her time she had several misadventures, especially in going through the canal, where she did much damage in carrying away the gates.

KAOLIN MINE IN NORTHWEST.

A Newly Discovered Mine in Which Lindsay Citizens are Interested.

It is said, that the Canadian Northwest is bound to grow and go ahead, and do this there has to be enterprising citizens behind it. There has been a company formed in Moose Jaw, N. W. T., with ample capital for the manufacturing of fire brick sewer pipe and China dishes of all kinds. A kaolin or china clay has been discovered on the farm of Mr. T. E. McWilliams, N. W. T., brother of Mr. J. McWilliams, town. The company intend to start operations on the discovery next spring and hope to have their goods on the market before the end of the year. Mr. McWilliams has taken \$25,000 paid up stock in the new company and it is to be hoped the mine will prove a success.

SATURDAY'S MARKET.

Market was well attended Saturday morning by both sellers and buyers, pork and lamb selling at 9c. for hind quarters and 8c. for front quarters; potatoes at 60c. for bag; eggs, 23c. to 25c. per dozen; butter 19c. and 20c. per lb.; young pigs six months old \$5 per pair. The pork was very plentiful. Geese sold at 10c. per lb.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture is the form of a label on the wrapper of every bottle of Emulsion you buy.

How To Keep Horses Well.

That's a problem every farmer and stockman has to solve in winter. Lack of exercise—dry feed—weather changes—all upset the digestion. Horses often eat hearty, yet get thin—hair stands on end—feet tired and cold. Season the feed with Myers' Royal Spice. It changes winter into summer for horses. Makes dry hay as sweet as green grass—gives an extra relish to corn and oats—and keeps the horses strong and fat on less feed. Feed Myers' Royal Spice for the rest of the winter—how much better the horses are—how easily they do their work—and how much less your feed bills come!

Let us send our illustrated booklet on horses and cattle—but very interesting and handy for reference.

Myers' Royal Spice Co.

MISS MARY McLEAN SHOT.
Two Unknown London Boys Fire in Reckless Manner.

London, Nov. 19.—Thursday afternoon Miss Mary McLean, daughter of Mr. Allan McLean, second engineer of the Springbank pumping station, was accidentally shot in the leg by one of two boys who are at present unknown. Miss McLean, accompanied by her sister, Miss Rose McLean, had been up at the reservoir, and was on her way to their home, the Colville House. They were at the loop, on the Springbank car track, when two boys approached from the Pipe Line road. Both carried guns. One boy was a mulatto, the other white. All at once they fired off their guns in a seemingly reckless manner, a bullet striking Miss McLean's right leg, just above the ankle. She dropped to the ground, but with the assistance of her sister was able to limp to her home about half a block away.

Shot in the Leg.
Port Hope, Nov. 19.—Reeve Howard, in company with Charles McGibbon, went shooting Thursday morning, and when returning home an accident occurred. Reeve was about a rod ahead, when McGibbon noticed something nearby, and in putting the gun up to fire it accidentally discharged, the bullet taking effect in the back part of Reeve's leg just below the hip. The case is not considered serious.

Shot in the Thigh.
London, Nov. 19.—A shooting accident occurred in the Springbank woods Thursday afternoon about 8

THE STREET CAR DISASTER.
Railway Commission Sends Mr. Duffin to Make Investigation at Toronto.

Ottawa, Nov. 19.—Mr. Duffin, an officer of the Railway Commission, was appointed to investigate an accident that here by yesterday afternoon left for Toronto to inquire into the Queen street level crossing accident.

THE DUFFIN DOING WELL.
Toronto, Nov. 19.—Present indications are that the tale of fatalities in the Thanksgiving Day collision will not amount about the same as the ready case.

Miss Agnes Macdonald are the only leg, and the other with an amputation of the skull. They, however, are expected to be doing as well as every one else in their recovery. The funerals of three victims will take place today.

POLITICS IN A NUTSHELL.
Winnipeg, Nov. 19.—The recent election in the Province of Manitoba yesterday morning, before the county court house, before Judge Walker. Although some of the returns were made on the same day, the final result is not yet known. The Liberals of Centre and West were defeated in Glamis and other districts. The Conservatives were victorious in the Liberal of Centre and West. The Liberals of Centre and West were defeated in Glamis and other districts. The Conservatives were victorious in the Liberal of Centre and West.
