### G.T.R. WRECK AT MARIPOSA

SEVEN COAL CARS ON WHITBY MIXED DERAILED.

Traffic Temporarily Suspended—Trains Coming in Via Lorneville Junction. Evening Post of Nov. 1.

This is the age of railroad accidents and A.D. 1906 will go down in history as a record-breaker. Last evening the regular No. 56 G. T. R. Whitby mixed, due in Lindsay at 8.45, was wrecked a few miles west of Mariposa Station, and as a result all traffic on this line has been temporarily suspended.

The Whitby mixed is due to arrive in Mariposa at 8.35 and was making good time. Besides having on the passenger coaches there were seven cars of coal, three or four of which belonged to the company, to be intended to be distributed at different points along the line.

An axle on a foreign car broke just before coming into Mariposa and as a result these seven cars of coal were derailed and "bleek nuggets" were stacked in large heaps on the track and also on each side of the track.

Fortunately the passenger coach, containing several persons, remained on the track, and the passengers received hardly any jolt whatever, not knowing what happened until the train had stopped. But on stepping from the coach they could see a few up-turned cars on the roadway, while others were buried under the coal.

Owing to the weight of the cars the coal will all have to be transhipped into other cars. Several ties were broken, but not a train hand or passenger was hurt.

The train was in charge of Conductor White and Engineer Wallace, both of Lindsay.

The wreck has been the cause of much inconvenience, as all trains from the West have to come into Lindsay via Lorneville Junction, the regular eleven o'clock arriving here to-day over one hour and a quarter over due. This morning the regular 9.15 train from Peterboro arrived on time and then went through to Mariposa, she backed up into Lindsay and then took the new route out to Lorneville Junction, thence via Blackwater to Toronto. The Whitby train this morning, under Conductor Thompson, also made a run to Mariposa and back to Lindsay again. The Hamilton train was also delayed until the arrival of the Toronto regular at 12.15 o'clock.

### EDITORIAL NOTES.

A majority of over 1,000 in a vote of about 4,000 speaks well for Fielding.

Hamilton Times—Good Fielding was the principal attraction in the game by the sea Wednesday.

The Buckingham jury found a verdict in the riot case censuring all parties concerned. It did not wish to miss anybody deserving blame.

Mr. Cockburn, President of the Ontario Bank, on January 1st held 117 2-3 shares of the bank's stock. On Oct. 1st he held 452 2-3 shares. That does not indicate any effort to unload.

Kingston Whim: The marvel is that if the Whitney party was so very pure if made so many compromises in election trials. There is something awry or out of order with its present posing.

Two Cobalt mines have been sold, one for \$250,000 and the other for \$600,000. Millions will be taken out of them, and all the country will get for its share will be a few paltry dollars a year. Why should it not share in that wealth by a graded royalty?

New York's city budget for next year amounts to \$130,421,505.66. That is a large sum of money—about twice as much as the ordinary expenditure of the Dominion of Canada. And it is an increase of \$13,610,152.29 over last year's budget. Of the amount \$4,142,338 is for interest and redemption of civil debt.

Yet it is safe to say that one in five of Kingston's electors have taken money for their votes.—Kingston News.

What a corrupt, bribe-hungry place Kingston must be! London cannot be half so bad as that. The record is a long one, too. Away back in Sir John A. Macdonald's time the place grew worse and worse until I had abandoned all hopes of ever getting relief. These words of Mrs. Chas. McKay, of Norwood, N.S., should serve as a warning to all who suffer distress after meals, with palpitation, drowsiness and loss of appetite—early warning of more serious trouble to follow.

"I used to rise in the morning," said Mrs. McKay, "feeling no better for a night's rest. I rapidly lost flesh and after even the most fragrant meal I always suffered severe pains in my stomach. I came myself down to a few mouthfuls, but even then every morsel of food caused agony. My digestion was so weak some days I could scarcely drag myself about the house, and I was never free from sharp, piercing pains in the back and chest. I tried to limit my diet to milk and soda water, and even this failed to relieve all my sufferings. I sought relief at all medicines I took seemed useless. But in the darkest hour of my suffering help came. While reading a newspaper I came across a notice that I had quite similar to my own case, wrought by the use of Dr. Williams' Pink Pills. I thought if another person had been cured by these pills of such suffering as I was experiencing, surely there was hope for me, and I at once sent to the drugist for a supply of these pills.

The first indication that the pills were helping me was the disappearance of the feeling of oppression. Then I began to take solid food with but little feeling of distress. I still continued taking the pills with an improvement every day, until I could digest all kinds of food without the least trouble or distress. I am in splendid health to-day and all the credit is due to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills go right to the root of indigestion and other troubles by making rich, red blood, which tones and strengthens every organ of the body. That is why they cure anaemia, with all its headaches and backaches and side-aches, rheumatism, and neuralgia, and the special ailments of growing girls and women of all ages. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50, by writing to the Dr. Williams' Medicine Co., Brockville, Ont.

### EACH MEAL AN AGONY.

Dr. Williams' Pink Pills Cure Indigestion When Other Remedies Fail.

"When I was first troubled with indigestion I did not bother with it, I thought it would pass away naturally. Leonard, Manager of Transportation; H. P. Timmerman, General Superintendent; D. Carmichael, Train Master, and G. Spencer, Superintendent.

### A LITERARY GEM.

(From the Oshawa Vindicator.)

In Memoriam.  
That noble one from us has gone,  
The place he used to fill  
Is now vacant in our team  
That no one here can fill.

And as we meet each one by one,  
And look into each face,  
We see that we still miss one  
Dear face that will never more be seen.

And when our time shall come boys,  
And we are called to go,  
We hope they fell as we feel now  
(sory).

Dear John, he had to go.

Yet we do miss his happy smile,  
His ready cheerful word,  
But he who gave him took him  
Away.

Gods will it must be done.  
The above is clipped from the Port Perry Star, which as a literary production, luminates the northern sky day and night. Such a specimen of poetry might not suffice to make the dead person, whoever he was, rise out of his grave, but he will need to be pretty dead if he does not turn over and kick holes through the sides of his coffin. People who cannot make two lines rhyme, even though they are not asked to make stanzas be taken to make it a Latin heading (wrongly spelled) and set off to write doggerel lines about some poor soul who died and is trying to sleep calmly till the final day, and there will be joy. The silly stuff is taken to a newspaper office, and if publication is declined friendship ceases on the spot. No more will the poet take that paper. Recently in two different cases the Vindicator lost subscribers by refusing to print such rot, and in two others by declining to publish long notices of children's accomplishments, the parents wanting to make a fool of us and our space "to encourage the little girl to study hard." A newspaper man either has to print absurd attempts at memorial rhymes, to please an idiot, or else decline for the sake of his journal's reputation. Recently a poem of this sort was conveniently slipped into the waste paper and lost in this office, and the writer of the alleged rhyme, hinted that she believed we had sold it to some magazine as a star literary production. We can fully respect people who mourn for their dead who have left them forever, but the sorrow which suggests such wretched attempts at rhyme might better be turned into some other channel.

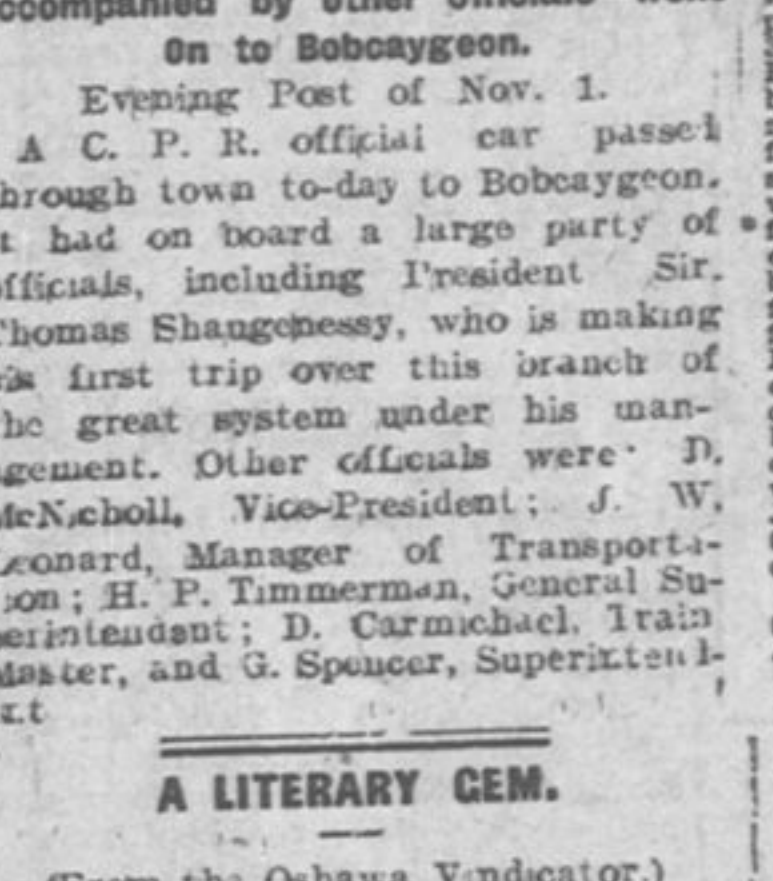

### THE DEADLY HOUSE WELL

Said to be Responsible for Fever Outbreak in Oshawa.

The following from the Oshawa Vindicator of last week goes to corroborate the views pressed by Mr. J. D. Flavell, at the meeting of the Ross Hospital Board of Governors the other evening. A similar statement with reference to a fever outbreak was made some years ago by Dr. McAlpine, Medical Health Officer of Lindsay, at a meeting of the local Board of Health. The law respecting the yearly cleaning out of all wells in the municipality is a dead letter, and the Board of Health being fully aware of the fact, they have an unpleasant responsibility to shoulder. The Vindicator says: The annual scourge has again arrived. Not so severe a type nor so vast in quantity as in some previous years, but nevertheless the typhoid season is upon us with far too many people ill, and far too many deaths. No one has a right to die of typhoid fever in Oshawa, and it is absolutely a preventable disease. Some one is to blame for the yearly funeral procession upon the streets of the town, when the cause of the death is typhoid fever. Of the deaths in typhoid fever, to-day there is not a single case where the people are using water from the town supply. The Board of Health should wherever typhoid exists, attack the dead old family wells, and have it immediately annihilated. It only seems harsh to put such a sudden check upon the old pump that has so long and faithfully labored to spread the neighborhood throughout in this age we are passing to be over sentimental, and we feel that life is too precious to be idly thrown away when it could be so easily prolonged.

### IMPORTANT REAL ESTATE DEAL.

Glenside-st. to be Extended to Adelaide-st.—New Houses to be Erected.

A large and important real estate deal was negotiated and concluded last week in the south ward, when Messrs. T. D. Staples and Geo. H. Lindsay purchased a fine 10-acre lot on Albert-st., from Mr. John Douglas, ex-Chief of Police of Lindsay and Port Hope, now a retired citizen of Toronto. The property is situated just south of Mr. W. M. Robson's grounds. The block extends from Albert to Adelaide-st., and we understand it is the intention of the buyers to have Glenside-st. extended to Adelaide-st. on this lot, and then to erect a number of substantial and modern houses on their property (traversed by the new thoroughfare). Both Mr. Staples and Mr. Lindsay have done much to improve the town of Lindsay by building new houses, and all should be proud to have such a progressive citizen in our midst. A good way to invest money is to put it into something that will help the town along. The mortgage hunter or seeker after outside investments is not worth much over his board, and clothing to the town.

### DEFECTIVE BRAKES NO EXCUSE

For Train Wrecks in Future Says an Order.

Circulars have been sent out by the C. P. R. to each of its engineers and conductors, drawing attention to the new regulation made by the company, enforcing careful testing of air brakes. The circulars have been issued from the office of the Assistant General Manager, Montreal, and state that at every point where the make up of a passenger or high class freight train is in any way altered, the brakes on such train must be tested before the meeting of trains of different class, where one side tracks for the other. The failure of air brakes to operate will not be accepted as an excuse for accidents.
