Ontario's Suggestion For Extension of Boundaries.

OPPOSES MANITOBA'S CLAIM

But Not Opposed to the Extension of the Boundary of That Province So Long as Ontario Gets Access to the Deep Sea at the Mouth of the Churchill River, the Middle of Which Should Be Boundary.

Toronto, Nov. 12 .- Premier Whitmey, Hon. Mr. Foy, the Attorney-General, and Hon. Mr. Matheson, the Prowincial Treasurer, will represent Ontario at the most important conference, so far as its relation to the future of this Province is concerned, which has been held in many years; and which commences at Ottawa this morning. The other parties to the conference are the Governments of the Provinces of Manitoba, Quebec and Saskatchewan, and the Dominion Government, and the point at issue is the extension of the boundaries of all the Provinces named by a personal division of the territory of Keewatin. The question was raised by the demand of Manttoba for an extension of its boundaries to Hudson's Bay, and, to say the least, the Government of that Province have not displayed any un-Manitoba is entitled to. Mrs. Henry Ontarlo has none. It defined its own boundaries years ago. We cannot see Yow Saskatchewan can have say." Opposed to Manitoba's Claims.

It is with the claims of Manitoba that Ontario, whose present norther-By boundary is the Albany River, is more concerned than with those of any other Province. If Quebec is given all of Ungava there is no other Prowince to dispute her claim to it, and she will also thus obtain as much of the shore line of Hudson's Bay as should satisfy her for all time to come. Easkatchewan's ambitions in respect expansion have no more than a mentimental interest for Ontario. With Manitoba it is different. Ontario recogmises and admits that the Manitoba boundaries should be extended, but her claims, if allowed as they stand, would not only deprive Ontario of a large slice of territory which for zeographical reasons alone this Prowince has a right to expect should be made over to her, but would also bar this Province from any right in the bearest navigable harbor on Hudson's Bay, wiz., that at the mouth of the Churchill River. Any part of the shore fine of Hudson's Bay below that harbor would not give Ontario access to the deep sea. To be shut off from that would be a sorry ending to the dream of an Ontario railway, the Temiskaming & Northern, the Government-owned line, for instance, carrying its freight direct to vessels plying the shortest route between Canada and Liverpool, and to all the other material advantages which the Province tnight naturally expect to flow from part ownership of such a harbor, and full control of the territory between it and the northwest boundary of On-

The Official Memoranda. - The official memorandum submitted by the Province of Ontario was given to the press by Premier Whitney before he left for Ottawa on Saturday. In part, it is as follows:

-1. That in their opinion the boundaries of Manitoba should be extended northward so as to take in Fort Churchill.

. 2 That they do not care to discuss many question of the alteration of the boundaries of Saskatchewan.

3. That is order to carry out the suggestion in paragraph 1 the eastern boundary of Manitoba should be pro- Canadian shippers taking greater care duced northward until it strikes the in the shipping marks of their cheese Churchill River; that the middle of the channel of the said river should then become the boundary until the river desouches into Hudson Bay.

4. That the remainder of the territory of Keewatin lying to the eastward of such boundary line be allotted to the Province of Ontario.

Caused by Female Disorders and Cured by Lydia E. Pinkham's Vegetable Compound.

A great many women suffer with a form of indigestion or dyspensia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. Pinkham claims that there is kind of dyspepsia that is caused by derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has

FRENCH IN MANITOBA,

Judge Traverses Trial of Charles Bernier to a Later Court.

Winnipeg. Nov. 10 .- At the Assize Court yesterday Charles Bernier, a Frenchman residing in St. Boniface, was arraigned for trial for unlawfully wounding.

Counsel for the defence demanded that as accused conversed only in French he had the right to have at least one-half the number of jurors familiar with his mother tongue. The court allowed the demand.

There are no Frenchmen on the present panel. His lordship, therefore, issued an order that when the new panel of petit jurors was called on Nov. 22, sheriff should call enough men able to converse in the French language to get the necessary jury for the Bernier trial. Attacked Minister's Morals.

J. J. Hill Demands Reciprocity Between Canada and U. S.

CANADIAN DESIRE

But Railway Magnate Believes Present Time More Favorable Than Can Ever Be Expected Again - Dominion's Tariff Walls Only Half as High as Neighbors, Causes Com-

ment and Suggests Reprisals. Chicago, Nov. 12.-James J. Hill was the guest of honor at the banquet of the Merchants' Club Saturday night, and delivered an extended address upon "Chicago's Interest in Reciprocity with Canada." In the course of his remarks, Mr.

Hill said: "Canada no longer comes as a suppliant. There has been increasing irritation toward our attitude, and already the fact that our average tariff on dutiable articles coming from the Dominion to us is 49.83 per cent., while that levied by Canada on dutiable goods coming from the United States is 24.83 per cent., causes comment and suggests reprisals.

"Each year has seen lately a diminution in the Canadian desire for reciprocity. It is still possible, largely because of the downfall of the Chamberlain policy in Great Britain. Had that been ratified, had England really granted to the Colonies a preference in its markets for their products, based on reciprocal advantages, this country would have felt the double Beaubien, 58 Sparks St., Ottawa, Ont., thrust in a decline of business with tomers on two sides of the Atlantic.

"The defeat of the plan has not greatly disappointed the dependencies, but it has assured them that for the present they must seek commercial alliances elsewhere. It is, perhaps, the time when reciprocity with Canada may be considered with more favor than it ever can be again. For no man who understands industrial conditions in Great Britain will believe that the issue raised by Chamberlain is permanently settled or that unrest and distress there will not at some future time bring it again to the front with better prospect of success.

"The consummation most to wished is the wiping out of custom houses along our northern frontier altogether, and the establishment there of absolute free trade. If the time be not ripe for that, the least that it demands is a policy and a measure of ample reciprocity."

"England has already withdrawn her military from the Dominion. And not long ago the Canadian Minister of Justice said in effect that Canada would be safe under the Monroe Doctrine. Suppose England were to go to war with some other nation, and that nation decided to attack Canada; could England defend it against the enemy? Would the United States defend it simply as a neighborly act, and, having done so, withdraw and hand it over to England again?"

"And do you consider the form of government of the United States the best for Canada?"

"I cannot say I consider your present form of government the best for yourselves. You are trying to run a Government without statesmen. Your President's Cabinet is made up of men selected at large, not men who are trained in the affairs they undertake to supervise. You have no trained statesmen."

Bonfire of 50,000 Tons of Coal.

Chicago, Nov. 12 .- The docks of the Lehigh Valley Coal Co., situated at 100th street and Commercial avenue, were destroyed by fire Saturday, causing a damage estimated by the officers of the company at \$757,000. The fire originated in the basement of a coal house in which 50,000 tons of hard coal were stored. The coal is still burning. and it is expected that it will be several days before the fire is entirely extinguished.

CUTICURA SOAP AND CUTICURA OINTMENT

"For a long time I suffered with sores on the hands which were itching, painful, and disagreeable. I had three doctors and derived no benefit from any of them. One doctor said he was afraid to touch my hands, so you must know how bad they were; another said I never could be cured; and the third said the sores were caused by the dipping of my hands in water in the dye-house where I work. I saw in the papers about the wonderful cures of the Cuticura Remedies and procured some of the Cuticura Soap and Cuticura Ointment. In three days after the application of the Cuticura Ointment my hands began to peel and were better. The soreness disappeared, and they are now smooth and clean, and I am still working in the dye-house.
