Interesting Work in Skeena Riva District, Pacific Province.

An interesting distant at the C.P.R. general offices Fr lar, mare the Montreal Herald, was Par Potter Coocola, who has for more, than a quarter of a century an angage in Terry, G. A. Little-skip. missionary work : mong the Indian Aribes of British Columbia. This is the venerable missi mary first visit to the East since he took up his work in the Pacific province before the Canadian Pacific had penetrated The Rockies. With the president and other officials of the company he discussed some of the features of the

One needs but a few minutes' conwereation with Father Coccola to realize that his whole heart is where he is giving his services. At first he worked for the social moral and spiritual welfare of Indian and white man in the southern part of the province, but in recent years he has devoted himself to the conversion of the natives of the plateaus and valleys of the Skeens River, a district son, I. E. Weldon, T. R. Welford, Dr. which is likely to be traversed by the Grand Trunk Pacific.

Just what effect the advent of the railway will have upon the red races Woods, H. Williams, T. J. Tilley, W. that now constitute almost exclusively the population of that part of Northern British Columbia it is impossible to say. The influence of | civilization upon the tribes, while not | in the reverend father's opinion wholly without evil results, has tended in British Columbia to arrest decay, and some of the tribes have increased in number. The conditions in British Columbia have been more favorable to them than those of almost any other part of the continent. The abundance and accessibility of | + food, the mildness of the climate. | . and such protection as has been afforded them under the Indian Department have operated in their favor. They maintain themselves by hunting, fishing, trade and labor. Game is abundant, and the rivers teem with fish. More docile, less nomadic than the Indians of the plains, the mssionary finds them more responsive to the influences of Christianity.

As to climate and soil, long benches of the Skeena are fertile and suitable for settlement, They are absolutely free from summer pest, and are capable of growing heavy crops, particularly of potatoes and other vegegables. Bears and caribou are found in the valley in the winter, and large crops of cranberries grow in the

swamps. near the coast, mining camps of some importance have been established. WILSON & WILSON.

TOO MUCH HOMEWORK.

School Board.

Evening Post of Nov. 16. Peterboro Examiner; Dr. Morrison brought up the subject of the school curriculum at the meeting of the Board. He thought that there should be a radical change in the teaching of several subjects, namely, physiology, history, spelling, and and writing. He said that in public schools too much attention was given On the lower reaches of the river, to physiology, that the present history was too comprehensive, that it welopment work has been done, and be given to writing and that the spelling book now in use be reformper cent. of copper. At another part | time for culture along other lines. Discussion was very general, nearly all expressing their views. Mr. Prinacid found in the province or on the | gle read a resolution made some time ago with the assistance of the inspector, a copy of which has been sent to all teachers. It dealt with the time limits for homework and seemed to cover the ground fairly well. It was moved by Dr. Morrison, seconded by Mr. Dumble, that Messrs. Pringle, Hill, Dumble and Morrison form a committee to further look into the matter and to press its importance upon the Government.

> Many Lindsay parents, (and possibly a number of teachers, will agree with the views of Dr. Morrison. Excessive homework is making slaves and unhappy drudges instead of bright, happy-hearted children. There is no time for the mother to teach her daughter household duties or fancy work - no time for the father after his day's work to win the confidence of his boy and enter sympathetically into the happenings of the school day. It is fact that the shoulders of many of the children are seriously deformed by the persistent carrying of heavy school bags containing books needed for the getting up of homework.

Appointed onAdvisory Council.

HIGH TEA AND SALE.

Parish Workers of £t Paul's Soored At other Success Last Night. Evening Post' of Nov! 16.

In many of the homes of Lindsay last night members of the family circle were missing from the supper table, but might be found in the mar-* ket room of our municipal buildings, * where they were the guests of the ladies of St. Paul's church. And If you are owing any amount + such a tea! All present record were exceeded, both as regards the number of citizen who patronized the tables, and the variety and quality of the dainties with which the appetites of the hungry ones were tempted. The staff of young ladies and matrons serving the large crowd achieved wonders in dodging and avoiding disastrous collisions, in the crush and maintaining their tempers it not be a success? Have faith in as unruffled as their gowns. The serving of tea began at 5.30 sharp, and it was nearly 9 o'clock before the tables were cleared.

The sale of fancy articles commenced early in the afternoon, and the brisk demand for the various pretty and useful household articles continued until the closing hour, of 10 o'-

Save the Implements.

Camrose, Alta., Mail: You farmer Say, for goodness sake get your tools implements under shelter this winter. All over the country waggons, buggies, ploughs, reapers and when another such is available, the so on, are standing out in the weather. Any man who has no more sense than to let such things go to ruin ought to be put on feeble-minded list and have the benefit of a guardian. He needs a guardian badiy.

BROTHER

Died of Consumption, but this Linden lady used Psychine and is strong and well

My mother, brother and sister died of consumption," says Ella M. Cove, of Linden, N.S., "and I myself suffered for two years from a distressing cough and weak lungs. I suppose I inherited a tendency

in this direction? " But thank God I used Psychine and it groom! built me right up. My lungs are now strong. I enjoy splendid health, and I owe | bridal couple left on the C. P. R. it all to Psychine,"

Consumption, whether heredits yor contracted, cannot stand before Psychine. Psychine kills the germ, no matter how it attacks the lungs. Psychine builds up the body and makes it strong and able to resist disease. Psychine is an aid to digestion and a maker of pure, rich blood. The greatest giver of general health is

LARGE REAL ESTATE DEAL

INCLE FACTORY PURCHASED BY CONTRACTOR CHALMERS.

A Thriving Business Employing Twenty Men Changes Hands.

Lately Lindsay has been the 'hub' of a number of real estate deals. The latest to be announced is the purchaser of the old and well established planing factory of Mr. Geo. Ingle, Cambridge-st. by Mr. Jas. Chalmers, the local contractor.

For a number of years past Mr. Ingle has built up a strong and thriving business, and the Ingle factory has become well known to contractors, citizens and farmers, who have erected houses or other residences. The purchase of the factory by Mr. Chalmers will mean a good thing for Lindsay, as Mr. Chalmers is a man who does at lott of building and says: "I suffered terribly with acute can manufacture his own building material, no doubt he will be inclined to build even more extensively than

The factory business will be conducted as usual, and Mr. Chaimers will assume full control at the beginning of 1907.

NEW KNITTING FACTORY.

(To the Editor of The Post.) Dear, Sir,-The importance of the above industry induces me to trespass on your space. I am informed business men and those who have the interest of the town at heart think dustry? With the influx of hundreds of thousands of new settlers into our great West, the rigors of that climate absolutely requiring knitted goods, and the impossibility of producing these goods themselves, leaves the supplying of this need to the older provinces. I know of no branch of manufactured trade in which the possibilities are so great Only a limited number of the inhabitants of the West require harvesting machinery, farm implements or manufactures of woods or iron, but every inhabitant must use knitted goods. This plass of goods can be manufactured just as cheaply in Lindsay as any other place in Canada, and let us use our opportunity. The amount asked for is small, and, if we will only make the effort, can to, upon receipt of price, 6 boxes for easily be raised. I have only words townsmen, and I am sure it must be a pleasure and pride to each one who has assisted in erecting the fine new foundry that now graces the bank of the mighty Scuroz. I am informed there are \$10,000 worth of orders waiting to be got out by this institution. The Canadian Swensons are rushing their goods out, and some thousands of dollars' worth have gone to purchasers in the last two weeks. We hope to see these machines turned out in our own town in a short time.

Neither of these have the possibiities of this proposed industry, and which is only intended to start in a tmodest way with about twenty or twenty-five hands, it would not in the least surprise me to see this industry employing one hundred hands in less than two years. We have in it just what we want - a thoroughly practical man at the head of it, who is quite willing to be assisted in the business direction by some of our business men. Then why should ourselves - let us venture a little of our money to bring our town into the front rank of enterprising towns -even if we do make a mistake occasionally. Remember this enterprise is not being urged for the benefit of any person in the flotation - just like our foundry, every dollar sub-

scribed goes into the business. Mr. Editor, I trust that I have not been too insistent, but I am wery anxious to see Lindsay secure this industry, for I happen to know that there is another town not fifty miles from Lindsay that offers to loan the \$5,000 with easy terms of repayment, and if this opportunity is not taken, field may be filled. If taken up now we can place these goods on the market next fall and be amongst the first to establish a lasting trade. We must build the ladder that reaches up to success - let each put in a rung.-Yours, etc.,

H. J. LYTLE. Lindsay, Nov. 15th.

MERRY WEDDING BELLS

Mix-Totten. The marriage of Miss Florence

Totten and Mr. Oscar Mix, of Warkworth, took place on Nov. 14th at the Methodist parsonage, Claramont. Rev. J. W. Totten, father of the bride, performed the ceremony, The bride wore a handsome gown of white silk and embroidered mousseline de soie. Miss Mary Brick, of Toronto, was maid of honor in pale blue silk eolienne over taffeta of the same shade. Dr. E. A. Totten, of Lindsay, brother of the bride, supported the
