GOES AFTER GERMS. How Hyomei Does its Work in Curing

Nature's remedy for catarrhal troubles is the oils and balsams found in Hyomei. It is a specific, not a care all. It has but one mission, the cure of catarrh.

The natural way of curing a disease is always the scientific way, and the scientific way of curing catarrh is the simple way, with Hyomei. Catarrh is a garm disease, and can

be cured only by using Hyomei, the treatment that reaches and destroys all catarrhal germs.

Breathed through the neat pocket inhaler that comes with every outfit, Byomei's medication reaches the most remote air cells of the nosa, throat and lungs, going after the disease germs wherever present, destroying them and preventing their growth, thus making catarrhal troubles im-

There is no dangerous stomach dosing when Hyomei is used. It is solely an inhalation treatment, prepared specially to kill the catarrhal germs. Begin its use at once and see how quickly it gives relief and lasting

We positively guarantee Hyomei, for should you buy a complete outfit, price \$1, and be dissatisfied with results, your money will be refunded. Hyomei is sold by druggists everywhere, Write for literature.
