In New York State last year 910 persons were killed and about 40,-600 injured in factories. In the Cuban war the United States lost 208 killed and 1,557 wounded.

Already eight applicants have signified their desire to take advantage of the Ontario government's offer of 160 acres of land to returned soldie's. No doubt when the legislature approves the government's offer, and the conditions are announced, there will be many applications.

Shortly before the late elections we published a paragraph that Mr. S. J. Fox, M.P.P., at Dr. Vrooman's meeting at Jackson's schoolhouse, had called on the farmers to condemn the expenditure on the river between Bobcaygeon and Lindsay, and the matter was commented on editorially. On learning that the statement was disputed we ceased further publication of it. Mr. Fox assures us that never made such statements either at Jackson's schoolhouse or at any other meeting. We have made enquiries and are satisfied that Mr. Fox never made any such statements, and we greatly regret having published the

A complaint is being made that the Labor Gazette, issued by the Department of Labor at Ottawa, makes dull reading. Possibly the journals which urge this, look to see the Gazette take part in the political controversies. It is of the very nature of the publication. if it is to fulfil its destined end, that it should be a record of facts, and not a vehicle of opinion. The Gazette is doing what it was intended to do, that is, to give the workingmen of Canada reliable information regarding conditions of labor, rates of wages, prices of commodities, and other statistical information bearing upon their inter

Collegiate Staff Ask to be Furnished with a Typewriter, and a Teacher Hints at Reprisals if the Request is not Granted-The Motion Given a Six Months' Hoist-Committee Reports and Other Business.

The members of the board of educaion made a brave showing last Tuesday in the council chamber, the full board being present. For the information of forgetful citizens we give a list of the men who have our educational interests in their charge; Chairman Thos. Stewart, and Messrs. Jos. Staples, W. McWatters, J. D. Flavelle, Richard Sylvester, R. Kennedy, RJ McLaughlin, P. G. Pilkie, D. R. Anderson, John Kennedy, R. Kylie, Jas. Deacon and Dr. Jeffers. The minutes of the last regular meeting were read by Secretary Spier,

and on motion were confirmed. Reports of the Principals.

The report was adopted. Report of Managing Committee

Mr. Staples, chairman, presented the report, which was as follows: . 1. We would recommend the purchase of a typewriter for the Collegiate acquired under a competent teacher.

2. Having measured and examined argument with reference to the ne-the wood furnished by Mr. John Carew cessity of a machine for the preparato the Collegiate Institute and Public Schools, we find the measurements correct and the wood at the Public Mr. Flavelle—"I fancy I got it from Schools all right, while the supply delivered at the Collegiate is somewhat statement." inferior, and we would recommend that Messrs. proper thing; we can't afford the money just now, and I would like to see the clause referred back for further consideration." Mr. Staples said he felt convinced that the Collegiate was losing pupils

because no chance was afforded to learn typewriting, the board could save the money by reducing the salary of the teacher about to be engaged from \$1,000 to \$900. Mr. Anderson said that typewriting was purely mechanical, and he fail-

ed to see any necessity for its introtroduction into the Collegiate, as it was not mentioned in the curreclum. Personally, if in need of a typewriter he would rather engage one who knew November, 147. Principal Har- I nothing about the machine. Ability to punctuate and spell correctly was e main consideration—the use of the muchine could be learned in half a day. Speed was important in a stenographer, but not in a typewriter. Mr. McLaughlin said that for

some years the teachers had been writing the examination papers with a Cyclostyle, thus saving a considerable sum, because the papers were formerly printed. The board might expect to have to arrange for the printing of the papers again, because the work fell on two of three teachers, who felt disinclined to give so much of their time to the preparation of the papers. The purchase of a typewriter would permit of the work being done with rapidity and legibility.

Mr. Flavelle, said he was opposed to the teaching of typewriting at the Collegiate. If the request for a machine had been made by the staff on their own behalf it would have come with a better grace. He might favor the proposal next year, but not now. He did not agree with the view of a certain teacher who took the ground that he had no duties to perform after four o'clock-he had been greatly surprised to hear that view enunciated, and he differed with it. While he would be the last man to seek to impose unnecessary burdens upon teachers, the people were entitled to their services whenever and for as long a time as the work of the schools de-

Principal Harstone said that all the teachers were able to use the Gyclostyle in the preparation of their reports, hence a typewriter was not needed solely for their convenience.

of the report being adopted. The Eyesore Removed. Mr. R. Kennedy, chairman of the

sites and buildings committee, reported verbally that: the fence between Francis-st. school grounds and Mrs. Gregory's property had been repaired, the board to pay half the cost; also that the high fence skirting the street line of the Central school grounds had been removed and sold for \$10. The chairman also reported that it was his intention to have Francis-st. school and one room in the north ward school kalsomined during the Christmas holi-Pardonable Truancy.

Mr. Staples referred to the fact that a number of boys had absented themselves from the schools with their parents' consent in order to earn money at turkey picking, and he understood that the truant officer was about to take action. It was pointed out that picking was nearly finished, and that as the boys would be free in a day or so there was no need to take action.

The Collegiate Vacancy. On motion the board went into committee of the whole to consider the applications for the vacant position of Specialist in Modern Languages. Mr. R. Kylie was voted to the chair

We understand that between 40 and 50 applications had been received, for the position, and the board' found great difficulty in making a selection, The lot had been sifted down to three or four, and the members decided that the qualifications and record of 'Miss Addison, late of Stratford Collegiate staff, were superior to the others, and her engagement at a salary of \$1,000 was ratified on motion of Mr. Kennedy, seconded by Mr. Flavelle, Mr. Staples adding that he deemed a salary of \$900 sufficient.

The treasurer was instructed to puy Miss Whiteside, who has been filling the vacant position since midsummer, at the rate of \$750 per annum. The board then adjourned
