-Conservative Leadership.

Ottawa, Dec. 20.-It was learned

last night that while there is no

immediate prospect of the resump-

tion of the sittings by the Joint

High Commission, negotiations with

respect to the Alaska boundary have

recommenced between the United

States and the British Governments,

and that an active interchange of

diplomatic notes is in progress. The

Imperial authorities are, of course,

well informed as to the contentions

of Canada in this matter, the Do-

minion Government having some time

ago placed in their possession a his-

tory of the question which was pre-

pared by Sir Louis Davies. The re-

port in question is an elaborate doc-

ument of some 300 pages, which

deals with the former treaties bear-

ing on the Alaska boundary and the

correspondence connected therewith,

and comprehensively presents the

bers of the Canadian Ministry, in

absolutely refuse to discuss or even

refer to the matter, but it is hinted

that a despatch from Washington

was some time ago laid before the

British Foreign Office, and that a

reply to this document was recently

transmitted from Canada. It is im-

possible to say, owing to the abso-

lute secrecy maintained, whether any

progress has been made towards a

settlement of the question, but pos-

It is said that 3,000 Republicans have entered Cape Colony, and that a considerable number have reached Philipstown. The report adds that Dewet, with about 4,500 men, northwest of Ladybrand, and that an on Winberg is momentarily

KITCHENER'S SILENCE Increases Public Disquiet Regarding the Cape Colony Invasion.

London, Dec. 20 .- The War Office last evening could give no information regarding the reports of a Boer invasion of Cape Colony. The officials expressed the opinion, however, that the newspaper accounts were exaggerated, and that probably the troops who had been employed chasing Dewet will be diverted to deal with the invaders. Having regard to the customary methods the War Office, this can only be interpreted as confirming the reports. Lord Kitchener, in the meantime, keeps a tight rein over the news, which increases the public disquiet. There is a persistent rumor that he

has demanded heavy reinforcements. According to The Daily Mail, private telegrams received in London to-day depict the situation in Cape Colony as somewhat ominous. It seems that the invading Boers are receiving considerable assitance from the local Dutch, and that the troops at the disposal of the British authorities are not sufficient to cope with any serious spread of the military operations. It is believed that the Government has at last awakened to the seriousness of the situation, and is making the utmost efforts to provide Lord Kitchener with

horses and mules. Many Boers Were Hilled. peautiful Home Burned. St. Halaire, Que., Dec. 19 .-- M: A GREAT SCHEME.

Whereby It Is Hoped to Add 5,000 Yearly to the Population of the Province of Quebec.

Montreal, Dec. 20 .- There is a great scheme on hand to add very largely to the population of this Province. It is understood that negotiations are progressing between the Quebec Government and certain representatives of Finland to secure a concession of a million acres of land on the Perabuka River, Lake St. John, and that the proposition is to settle 5,000 Finalnders every year on these rich agricultural lands

of the Iake St. John. The Perabuka is 450 miles long, and millions of acres of fine land, and well-wooded, are to be found on both sides of this great stream. The delegates who represent the

Finlanders say that the climate of Quebec is not so severe as that of their own country, and, with the pulp mills and other industries now under way, they claim that these proposed newcomers will make prosperous homes for themselves, end, at the same time, become valuable settlers.

French-Canadians to Return.

Lake St. John also expects a heavy French-Canadian immigration from the State of Maine next season, no less than 1,800 new settlers having gone in this year.

Reports say that in spite of the alleged manufacturing prosperity of the New England States, the French Canadians operatives throughout Maine and other States are only working about half the time, and that they have decided to look to the motherland for homes.

Mr. Rene Dupont, the Colonization Agent of the Lake St. John country, declares that, while the very few French-Canadians who have succeeded in the States oppose the repatriument movement, the masses have but one dream, and that is to return to the Province by the St. Lawrence. Lake St. John, in 1898, exported butter and cheese valued at \$150,000 and in 1899 \$290,000, which will have increased to \$400,000 by the end of 1900.

OUR GRAIN IN ENGLAND.

British Buyers Complain of Shipments to Canadian Authorities and an Investigation Will Be Held.

Ottawa, Dec. 19 .- Lord Strathcona was presented with complaints from the purchasers of grain in Britain as to the character of the certificate on which the grain was forwarded from Canada. The High Commissioner laid the matter before the Canadian authorities, and it is now understood the Minister of Inland Revenue has recommended the appointment of a commission to investigate the whole matter so that it may be remedied.

The question is a very important one, as it affects the standing of Canadian wheat in the British markets.

UNITY OF THE EMPIRE.

Principal Theme of Lord Strathcona's Inaugural at Aberdeen University.

London, Dec. 19 .- Lord Strathcona and Mount Royal, the Canadian High Commissioner, was installed yesterday as Lord Rector of Aberdeen University. He met with a demonstratively cordial greeting from the students. In his rectorial address, Lord Strathcona dealt with the unity of the Empire. He referred to the gratifying growth of the Dominion of Canada, the Federation of Australia, and the similar Federation of South Africa, to follow the war. The speaker did not altogether favor an Imperial Parliament. He thought a consultive Imperial Council would

give £25,000, provided £50,000 more was raised within a year, to wipe out the debt of the University.

COMPULSORY EDUCATION.

Manitoba Government Will Introduce Such a System Shortly. Winnipeg, Man., Dec. 20 .- Hon. C. H. Campbell announces that it is the intention of the Local Government to introduce a system of compulsory education into the province at an early date. This step had been decided upon after mature consideration by the Government, and it was felt that something must be done to ensure the proper education of the large foreign population, which, in the near future, the prevince will have to take into account. It could not afford to allow these people to grow up in ignorance of the English tongue, and consequently compulsory education was felt to be a good remedy. There was also a large class besides foreigners who would be compelled, under the new law, to send their children to school. The Government would not at present con-

sider the matter of free text books. Hon. C. H. Campbell, Attorney-General, left yesterday afternoon for Ottawa, where he, with Hon. J. A. Davidson, will interview the Federal Government on the matter of Manitoba's school lands and school funds. Mr. Davidson will go east to-day and the first interview with Premier Laurier will probably be held on Monday next. Mr. Campbell has prepared the statement of case on the school lands question, and Mr. Da vidson will deal more particularly with the swamp lands, which he in tends to request from the Dominion authorities, along with all arrears of dues since 1886. Mr. Campbell will visit Montreal before returning.
