ERS OF BACK LAKES.

Mr. Thos. Walters, Superintendent of Fyle a Protest. (Toronto World, Wednesday.)

A deputation representing the vessel owners of Peterboro, Bobcaygeon and Lakefield, who own about 45 vessels, inculding those engaged in the tourist traffic on the Kawartha Lakes, and also a number of power trict between Trenton and Fenelon Falls, waited on Premier Ross, Hon. J. R. Stratton and Hon. E. J. Davis a request from the Trent Water Conservation Association that the government take into consideration the question of arresting the enormous spring floods which pour out of the region, and husbanding the water both for navigation and power purnoses. In the deputation were J. M. Kilbourn, of the Lakefield Cement Co., which owns one of the dams on the back lakes and rents another from the Ontario Government: W. T. C. Boyd, lumber mill owner and manager of the Trent Valley Navigation Co.; A. A. Stevenson, manager of the Peterboro Electrical Co. tition, Mr. J. A. Culverwell being the and an official of the American Cer- representative. eal Co., which owns a dam at Peter-

boro; J. C. Schook, manager of the Dixon Lumber Co., which owns No. 1 dam at Lakefield. They represented to the members of the Cabinet prelakes would seriously affect the level of the Trent Canal, and asked that the waters be conserved by the construction of dams or other works. They said the cost of the necessary

Methods Suggested.

Several methods were suggested for the consideration of the Government. The province, it was pointed out. owns no less than 36 dams which have been constructed with a view to the large amount of timber dues which the province receives from the lumvoirs during the spring freshets.

Entails Heavy Damages Mr. Stratton said someone had

made a report that the suggested improvements would entail an outlay of a quarter of a million dollars for damages alone. He asked the depu-ASK FOR AID TO CONSERVE WAT- tation if the dams proposed would cost less than the figure suggested, \$100,000, but Mr. Boyd could not answer the question.

Thomas Walters, an engineer of Public Works, Says the Request is the Ontario Public Works Departan Unnecessary One-Port Hopers ment, who was present, stated that everything had been done that could be done to conserve the waters of the lakes and there was no need for the

proposed outlay. Hon. E. J. Davis asked how the proposed improvements would affect established lumber interests on the lakes. Raising the waters might entail damages which would have to be

considered. Dominion Should Move First. After listening to the representations of the deputation, the Premier observed that he would like the Dominion government to move in the yesterday afternoon and presented matter first. It was a large question, and would require very careful consideration on the part of the government. He said he would consult with his colleagues, and in the meantime he asked that the engineer of the association furnish an estimate of

the cost of the work. The dams affected by the proposed works are; American Cereal Co. dam at Peterboro; dam at Auburn; General Electric Co's dam at Nassau : No. 5 dam, leased by the Otonabee Co. : No. 4 dam, idle; No. 3 dam, leased by the Lakefield Cement Co.; No. 2 dam, idle: No. 1 dam at Lakefield, owned by the Dixon Lumber Co. The people of Port Hope protested

in strong terms against the pe-

#### Our Swifter Street Gait. (New York Commercial Advertiser.)

As a community we are compelled sent that the low water of the back to step a little more lively every year in order to keep out of the way of street traffic because of the improvements in motive power. That is the explanation of the startling increase mand, in the number of accidents. Few relize the accelerated gait of all street trutic which has been compelled by the advent of electricity as a motive power both for street carss and for vehicles. The trolley cars move at double the average speed of the old horse gars, and the automboiles at a much faster gait that other vehicles. The natural effect has been to quicken the general pace of street movement, and to make it more difficult bermen in the district. In order to for infirm, careless, absent-minded, preserve the waters of the back lakes | timid and very young pedestrians, to the government should tighten the avoid collisions. Getting across a dams it now holds, or where necess- crowded thoroughfare is much more ary raise them, and have their offic- of a venture than it was a few years track the gun in his hand discharged iais restrain the water in the reser- ago, for not only are the trolley cars and three shot entered his left foreand automobiles travelling at a fast- arm, which, with a burn, makes it er gait, but they are inspiring all very painful. #### Declare Nation Can No Longer cago Live Stock Show. Endure Being Slighted. GET MOST OF SHEEP AWARDS | THE PREMIER DENIES RUMOR

FAR EAST STRUGGLE IS NEAR

Situation More Menacing Than at Any Previous Period-Russia Determined to Reject Japan's Demands-The British Gevernment Said to Be Con-

sidering the Situation-Grave Anxiety is Felt in Cabinet.

Tokio, Dec. 2 .- All the leading Japanese journals denounce Russia's delay in replying to Japan's proposals, and declare that the nation can no longer endure being slighted. Japan, it is contended, must demand a definite answer, in default of which she must take independent steps to secure the interests of the State. Even business circles advocate a resolute policy, on which all the political parties are also agreed. The situation looks more menacing than at any previous period. The combination of the principal political parties is not yet complete, but evidently both are willing to support a resolute policy, and determined to attack the policy of inaction.

#### THE STRUGGLE NEAR.

Russin's Determination Not to Concede Japan's Demands is Fixed.

London, Dec. 2.-The Daily Mail this morning says it thinks it most likely that the Cabinet has received an intimation that Japan is aware of Russia's fixed determination not to concede her demands, in which case a struggle between Japan and Russia is within reasonable distance. According to The Daily Mail's Tokio correspondent Marquis Salonyi, addressing members of the Sciyuai party yesterday, said that the coming session of the Dict involving the consideration of the problem of the Russo-Japanese relations would be one of the most momentous ever held and that a single false step might precipitate a national calamity. The Marquis depreciated any vexatious interference with the Government.

Alarm in Cabinet. George Wyndham, Chief Secretary for Ireland, speaking at Workington last night, said that the Government had still a great deal of work to do and that it was not true that a general election was impending. This official confirmation that the Government is not meditating a dissolution of Parliament will increase the curiosity as to the reason for the holding of frequent Cabinet councils. Premier Balfour, Austin Chamberlain, the Chancellor of the Exchequer, and Lord Lansdowne, Secretary of Foreign Affairs, had a conference at the Foreign Office and another Cabinet meeting will be held on Friday.

It is the general belief that the situation in the far East is causing anxiety, owing to the unexpected protracted negotiation between Russia and Japan.

## Urge More Speed.

Tokio, Japan, Dec. 2.-A mass meeting of the Metropolitan section of the Seiyukai party yesterday passed a resolution denouncing the delay in the negotiations with Russian and urging their speedy prosecution.

BIRTHDAY OF QUEEN ALEXANDRA.

All Children on the Royal Estate Will Remember It.

London, Dec. 2 .- Alternating sunshine and snowfalls marked Queen Alexandra's birthday celebrations yesterday at Sandringham. The Queen was busy all the morning receiving telegraphic and other greetings and replying thereto.

In the afternoon all the children on the royal estate were entertained at tea, the Queen personally supervising the wants of her guests.

Royal salutes were fired at all the naval and military stations at home and abroad, the warships were dressed, and there was a liberal display of bunting on the public buildings.

## Terribly Burned By Acid.

Buffalo, Dec. 2.-Four men were terribly burned by hydrochloric acid at the Eric freight sheds at Tifft Farm late last evening. Nicholas Forugga's eyes were burned out. His face, shoulders and the upper part of his body were also badly burned. The other three were less seriously burned, but all of them suffered intense pain. The men were engaged in removing a carboy of the acid from a freight car when it exploded.

## The Hold-Up a Fake.

Toronto, Dec. 2 .- Charles Winters. the farm laborer, who told the police day before yesterday that he had been held up for \$480 in Hogg's Hollow, vesterday confessed that he had fabricated the story in order to stand well with the people of his young wife. He was let go with a repri-

## Want Yukon Railway.

Vancouver, B.C., Dec. 2 .- The City Council last evening passed a resolution urging the Dominion and Provincial Governments to secure the construction of an all-Canadian railway from Vancouver to the Yukon by granting the necessary bonus in cash and land.

## Shot in Percarm.

Toronto, Dec. 2 .- As Colin Campbell was jumping the low fence on the lake shore side of the Woodbine

#### and South America. Coming to Quelph.

Preparations are completed for many of the largest exhibits on the grounds to be shipped to the Guelph Fair as soon as this one closes. Col. Ferguson, Messrs. Richardson, Gibson and others interested in sending exhibits to Guelph say the exhibition there ought to be the largest in the

history of the province. Challenger, owned by the University of Nebraska, is grand champion of the International Live Stock Exposition of 1903. Challenger is grade Hereford. He is 2 years and 7 months old and weighs 1,755 pounds. almost every ounce of him being good solid beef, while other and finer looking animals to the unpracticed eye

#### rolled in fat. St. Lawrence Casualties.

London, Dec. 2.-The Times' Lloyd's correspondent says casualties on the St. Lawrence have been numerous this year, in spite of the improvements the Canadian Government claims to have introduced. Of fifteen casualties eight got off with slight damage, three badly damaged, one damaged and three total loss. In 1902 there were eleven casualties, no total loss; in 1901 five strandings without total loss; in 1900 five casualties, four total losses; 1899, four casualties, one total loss; 1898 three total losses out of five strandings.

## Te Be Buried in Ottawa.

Ottawa! Dec. 2 .- The body of G. E. Casey, ex-M.P., who died Monday hight, will be buried this afternoon in Beresford Cemetery. His brotherin-law, Colonel Biggar, is making the arrangements. The funeral will take place from the Protestant Hospital.

Prizes for Canadians at the Chi- Mr. Lloyd-George Refutes Some Clever Arguments.

Ne Instance of Permanent Injury to British Trade Through Dumping-Celenial Secretary Lyttleton's Address at the Northcote Banquet-Mr. Stead Makes Offer to Newsgirls-

Cheap Wheat.

London, Dec. 2.-(C.A.P.)-Lloyd George, M.P., speaking at Paisley, last night, said there was not a single great industry the production of which had not increased considerably out of proportion to the poputhe famous Scotland expert, who is a lation, and the only thing that had gone down was the hours of the laborer. Dumping was not killing the ners here would take prizes of equal iron and steel trade, as last year value in any continental live stock | they bought eight and a half milexhibit. He said they were top- lion pounds' worth of half manufacnotchers for the best standard of the tured steel from foreigners dumped at a loss, and exported steel to the
