MEETING HOUSE IN ORDER.

TOWN FATHERS PASSED ELECTION BY-LAW MONDAY EVENING.

By-law to go to the People—Route-Business Deal With.

The last regular monthly meeting of the present Council was held on Monday, Mayor Ray and all members were present.

Before the communications were read into Ald. Robinson referred to the Council's action at last meeting regarding a billiard license to Mr. J. B. Reeves. Last year the requests of Mr. McGregor and Mr. Veitch had been refused, and now that members had changed their minds he hoped they would be willing to give British play to all and grant Mr. McGregor or any other proper applicant a license.

Clark Knowlson had explained that Mr. McGregor had mailed an application to him in time for last session, but it had been sent to Toronto by the post office staff and did not reach him (Knowlson) until after the meeting.

COMMUNICATIONS. From Fire Underwriters, respecting care of hydrants, mains and fire apparatus generally in winter.—Town Property Committee.—Ald. O'Reilly requested against the dumping of sewage around hydrants and in some case in the east ward where the walk was covered with ice.—Ald. McCrea—"The Water Commissioners should have boxes constructed so as to enclose the stuff. It is contrary to a town by-law and I will Chief Nevison to take action."

From D. Currie, applying for position of returning officer for No. 10 ward.—Laid on table.

From Chas. Dean, Buffalo, requesting a new method of manufacturing gas, and asking that no arrangement be entered into with any other firm.

From Geo. Buck, applying for the position of returning officer for No. 10 ward.—Laid on table.

From Chas. Dean, Buffalo, requesting a new method of manufacturing gas, and asking that no arrangement be entered into with any other firm.

From D. Currie, applying for position of returning officer for No. 10 ward.—Laid on table.

From Chas. Dean, Buffalo, requesting a new method of manufacturing gas, and asking that no arrangement be entered into with any other firm.

From D. Currie, applying for position of returning officer for No. 10 ward.—Laid on table.

company until his scheme had been investigated.—Police and Lighting.

From J. R. McNeillie, County Clerk and Treasurer, enclosing blank forms of admission to the County House of Refuge.—Fyled.

From G. H. Hopkins, town solicitor, respecting the interchanging negotiations and charges for transferring cars.—Board of Trade.

From same, enclosing the order of the Railway Commissioners that the town maintain a watchman at the railway crossing on Queen-st.—Finance committee.

From same, notifying Council of the Commissioners' willingness to defer the enforcement of the order in order that the Council might have time to consider the matter.

From same, enclosing a draft of Gas by-law, with some amendments.—On table.

From same, enclosing his account, amounting in all to \$353.96.—Finance committee.

From Mr. Loftus E. Dancy, representative of the Gas Co., objecting to Mr. Hopkins' proposed amendments as unnecessary.—On table.

From Mr. J. S. Hendrie, M. E. P., respecting Electric R. R. legislation.—Fyld.

From Thos. Connors, respecting assessment on personality.—Finance committee.

From Auditor Eagleston, calling attention to several irregular payments.—Finance committee.

From Market Clerk Callaghan, reporting the collection of \$76.26 during November.—Fyld.

A number of accounts were read by the Clerk and referred to the proper committees.

IT WAS BURIED. Ald. McCrea—"Was there not a report from the Fire Underwriters respecting the failure of the water supply when their inspector visited the town last summer?"

Clerk Knowlson—"It did not come to me."

Mayor Ray—"I think one came to the Water Commissioners."

Ald. McCrea—"We should have had the report—it belongs to us."

The municipal by-law fixes the nomination of Mayor, seven Aldermen and one Water Commissioner (the latter to serve three years) for Friday evening, Dec. 22nd, between 7.30 and 8.30. Polling day, Monday, Jan. 1st. Booths and returning officers as follows:

East ward—Div. No. 1, Groszelle's shoe shop, Fremont Crandell returning officer; No. 2, Crandell's office, J. R. O'Neill returning officer.

South ward—No. 1, Smyth's office, W. J. Stewart; No. 2, Armstrong's library, A. A. J. Soanes; No. 3, Brown's hotel, Geo. Buck.

North ward—No. 1, Town Hall, John Kelly; No. 2, Skitch's wagon shop, Albert Palen; No. 3, Horn Bros.' office, John D. Smith.

The latter by-law was given its third reading when the committee rose.

Ald. Rea called attention to the lamp at the corner of Lindsay and Glenelg-st., which is not in the centre of the roadway.

Council then adjourned.

Catarrah Cannot be Cured. LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrah is a blood constitutional disease, and in order to cure it you must take internal remedies.

Two Scamps from Cambray. They Came to Town to Get Drunk and Abused Their Noses.

A story was told us last week which does not reflect much credit upon the merry-makers involved.

On Tuesday night a couple of young men from Cambray vicinity got "loaded" in town and at a late hour took their departure for home in a single rig.

The liquor made them feel gay, so they proceeded to drive their young horse at top speed and make record time home.

Owing to the roads being hard and rough the animal frequently stumbled, and when they reached their destination a veterinary surgeon had to be called in to doctor the poor animal's knees and legs, which were bleeding profusely.

It is a pity that Magistrate McSweeney cannot be given an opportunity to manifest his opinion of such conduct.

Utterior Motive. Miss Gasser—"I hear Gotrox is going to throw open his immenses private park to the public."

Miss Whinger—"Yes. He says that there's no fun speeding his auto there with nobody to run over."

Group. Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. It never fails, and is pleasant and safe to take. For sale by all druggists.

WATER COMMISSIONERS MET.

BIG CONSUMPTION OF COAL CAUSES A SHORTAGE.

Standpipe Will Supply Fire Pressure for a Couple of Hours.

The Board of Waterworks Commissioners met on Monday afternoon in Secretary Hopkins' office at 4 p.m. Chairman Flavelle in the chair, and Messrs. T. Brady, Mayor Ray and J. R. McNeillie, members, present.

After the reading of the minutes of previous meetings, general business was disposed of.

The question of the shortage of coal at the pumphouse was dealt with, there not being enough coal to run last night.

The Commissioners found out that there had been a very large consumption of coal during the past month.

Mr. Hammond explained that about 30 tons had been used in the last 15 days, or nearly two tons a day.

28 tons had been delivered on the 27th of October and 30 tons about the 15th of November.

Mr. Hammond had not expected the coal to go so fast, but attributed it to the fact of there being two practically new men at the pump house.

Later on in the meeting a suggestion re purchasing a set of scales met with the approval of the Commissioners.

Mr. Wm. McLennan was present and told the Commissioners that they were just about out of coal on account of not being able to get their orders in owing to the shortage of cars, but they would send a load to the pumphouse at once.

Mr. Wallace, Sussex-st., was present. He had only been using the service for one basin, bath and a closet upstairs, but was paying the same as his neighbors, who also had the use of the kitchen tap.

Chairman Flavelle said he had been overcharged and the matter would be rectified, but at the same time all the flat meters should be examined.

Mr. Flavelle then said he had been in the Simpson house the other day and was asked why the Waterworks did not send in their bill, which had not been rendered for a year.

It looked serious, but Supt. Hammond said he thought it was run from a check meter at Armstrong's. This was found correct, but the bill will be rendered at once.

The Board then discussed the broken hydrant on Lindsay-st., which was still leaking fast, the new one not yet having arrived, although it had been ordered about Nov. 24th.

Mr. Flavelle telephoned the Stevens Mfg. Co., London, and got the answer that it had been shipped on the 25th and was likely on the road somewhere.

Mr. Hammond was instructed to enquire of the G. T. R.

FIRE INSURANCE.

The Insurance Company of North America, Founded 1792.

In over one hundred years of honorable business experience this Company has paid out in fire losses to its policy-holders over \$15,000,000.

W. R. WIDDESS, Agent, LINDSAY.

Nov. 18..... 34.45 Nov. 25..... 21.21 Dec. 2..... 20.70

The Treasurer's statement for the month were handed to the Commissioners and pocketed.

Applications for services were read from Messrs. Thos. Ringland and Geo. Calvert, Bond-st., Mr. Ringland was putting in a sewer connection, and the waterworks service could be put in at the same time, although he would not use it till next spring.

Mr. Calvert's service had already been put in.

The charge for services at the Ontario Bank will be reduced.

A communication was read from Town Clerk Knowlson re the fire hall service.

Application was made by Mr. Jas. Graham, chairman of the House of Refuge committee, asking for a service to the new barn.

Before adjourning Chairman Flavelle referred to the talk on the street re the Beal fire, when for the first four minutes there had been hardly any water, and four minutes, in some cases, meant a serious fire.

Supt. Hammond explained that the low pressure was caused by the G. T. R. people, who were pumping and filling their large tank at the time of the fire, and were then taking about 10 or 15 lbs. pressure from the standpipe.

As soon as the pump-house received the alarm they immediately telephoned the G. T. R. to shut off their supply at the station and roundhouse.

They are supposed to at once comply, but in the Beal case they had not done so for some reason or other. It was a serious matter.

Mr. Hammond was asked why full pressure was not put on from the pump-house, and he replied that as a rule they hardly ever put on the full pressure, but let the standpipe supply it.

The reason why they did not put the full pressure of some 120 pounds on the pipes was because it was a very heavy strain, and nine times out of ten it was not needed because most of the fires were only chimneys or fires of small consequence.

The standpipe was quite efficient and would supply a fire at night for two and perhaps three hours.

Another thing which Supt. Hammond thought should be attended to was that the firemen should notify the pump-house when the fire was over, as very often the pumps were working hard when perhaps there was no fire at all, or a false alarm, and the strain on the pipes was severe.

The Board then adjourned.
