A Complete List For Christmas Shoppers

With reference to advertising, the present time is curious. All the stores have more or less to say about goods and prices, and shoppers are supposed to read every line and believe every word. Our notion is that people look back of the printed statement and consider a store's reputation for reliability and fair dealing. For that reason we print just enough by way of suggestion to start you thinking and make you welcome to the freest inspection of the goods themselves.

... CLOTHING FACTS ...

There is more brilliant scheming and smarter tactics in the clothing business than in all the host of dry goods combined. The most commonplace stocks are decorated with high sounding titles, and loud exaggeration tells of goods that are disappointing in results. We have excellent reason to believe that this Clothing Stock is above the average in quality and below the average in price. It appeals to gentlemen who usually fight shy of the ready-made, for the reason that our styles are different and

Not the Clothing Store Kind.

The materials are such as your Merchant Tailor would use, and the clothing itself is equal in every respect to custom made at half as much again.

We've no quarrel with clothiers, but we can't help making comparisons once in awhile for the benefit of customers. All we ask is that you see the styles these prices represent.

Gents' Fancy Mixed Tweed Suits, cut in single-breasted Sacoque Coat styles, neat fitting suits lined and finished with every care. Dark grey and brown mixtures; sizes 37 to 42. \$8.50

Gents' and Youths' Fancy Tweed Suits, in latest shades of browns, greys and greens, small neat patterns; coats are cut in latest American styles, all are finished excellently by good tailors; sizes from 36 to 44. \$10.00

Gents' Fine Tweed and Worsted Suits, made of the best imported cloths, in neat patterns, and gentlemanly shadings of greys and browns; cut with long vent in back, single and double-breasted styles; sizes 35 to 40. \$15.00

THE DIFFERENCE.

Almost all the stores use Men's Furnishings as a bait to help them sell Clothing, and yet we discount them right and left on prices. The difference is in the way we buy. We've an outlet here that calls for a hundred of any one thing where they must of necessity buy only a dozen. The men are finding out this advantage, and where a man is too indifferent to shop around and compare, his wife shops for him.
