An Exciting Contest for the Reveship Certain.

OLD TOWNSHIP HALL CROWDED TO THE DOORS FRIDAY.

Addresses by the Candidates and Others

-3ome Warm Passages. There was a red hot nomination meeting last Friday afternoon, when tha Ops ratepayors met to nominate candidates to the field to represent their interests on the Ops Township Council for the year 1906, and the with interested farmers. At times | year. eloquence toomed up stiff, strong

and lengthy, while again brevity was the soul of wit. ! Out of the four reeves nominated two will oppose each other, John Jackson and Jas. H. Hopkins and out of the ten nominated for Councillors seven will run, Roche, Hickson, Best, Coulter, Wilson, Sluggett, Hawkins, and the canvassing among these gentlemen will be warm. Secretary O'Boyle occupied the chair, very acceptably, and first called on Reeve Jackson to speak, a synopsis of whose remarks were as follows; First Mr. Jackson thanked the ratepayers for the majority which they give him last year. In Reaboro they had given him a majority. of 40. The principal reason of his wictory was that all knew him and woted because he was not a partisan. His victory over Mr. McLean had been a great one. To-day he had beentried a year and had many sins to his record. When he had been elepted to Reeve the Fec caso had been brought up, which cost the township at the finish \$1405.05. Mr. -Jackson proceeded to tell why taxes were highter. When the debts were all paid at the first of January there and N. Q. McEachern. twas \$1490.38 in the treasury and deducting from that \$572, which Mr. McLean had expended, some \$800 was left to carry on the busiseems of the township, and he had to borrow money. Other claims had to be paid, the Board of Health \$30 and Home for the Aged \$146.40. Mr. Japkson read the judgment given at Osgcode Hall on the Fee case, in which he maintained they were not to blame as the court said they had to pay costs. The street had been sold and they considered they had done well. Tho Reeve then couched on the new Assessment Act. The assessment in 1904 had been \$1,-568.91 and in 1905 had increased to \$1820,465. The total taxes collected in 1904 had been \$15755 and in 1905, \$16,750.16. They had raised Chamberlain's Cough Remedy given \$754 more than the former Council. When they left office they had some \$800, and to-day the present Councit had \$1,100. They had raised more and paid all old debts and the next Council got in with a clean sheet. It was for ratepayers to say whether they had spent too much money or not, but they had to. It had been said that the closing of the Omemee road had cost lots of money, but it had never cost one cent. They had spent a lot of money, but the township was in better shape. A story. had been circulated that he had act-

ics and didn't want a man in the not fill the position. The township swas \$300 better off to-day than a year ago and not \$1 had been misspent by him. He hoped for a fair fight, with no hard feelings. ! Council Jas. Roche was then heard and he touched on the Fee case and

better off than last year. He also touched on the Fee case. Mr. Jackson would have to explain how the left the treasury better. He would have to give the taxes another jump next year. If you spend money you have got to raise it, and the best man isn't too good for the Council by the present state of affairs. Mr. Newton Smale made a

striking address. He considered public dollar as sacred as a private THE one, and on general principles he held that it was right to criticize. He was not a candidate but hoped to ,be one at a future date, but it would be for Council and not for Reeve. He was sorry to pay good money out for what seemed nothing, but the of experience. Mr. Smale then spoke on the assessment. He thought the Council had not tackled it in the right way. It was a serious busiious way. The Council should levy assessment in the summer and not in the winter. A poor farm looked just as good as a good one in winter. He would favor the appointment of ship was divided. Mr. Wm. I. Reid said that some criticism was right and some was wrong. ## Where People Are the Safest.

(Woodstock Express.) A majortiy of people will recall that a humorist came to the startling conclusion that a person was safer travelling on a train than sleeping in a bed at .home. This conclusion was reached from the fact that more people die in bed than die in railway wrecks. The same reasoning has brought the unexpected conclusion that the safest place for a person township to vote for him if he could to be is in an elevator. This is true, statistically speaking, according to the superintendent of a big office building in Philadelphia. In the set ol elevators for which statistics have been kept by the superintendent there has been an average transportation of 2,400,000 persons each year for seven years, an aggregate of 16,800,000, and of this number but one person has been injured and that injury did not result fatally.

Commenting on these statistics the Rochester Post-Express says; "In view of these figures, the elevator is a safer place even than the ocean portation is more free from danger, according to the compilers of statistics, although it would be difficult to convince a ship-wrecked person that there is any comfort in figures. Compared with the figures just given the trolley car is a place of grave danger and a railroad train affords Ex-Reeve Jas. McLean said it was a risk that few persons, statistically of his intention to be a candidate, speaking, would care to take. But happily humanity does not live on the statistical plan, and men and women travel here and there, on land

The question hardly needs an answer, Since the first Christmas eve in the stable of Bethlehem Santa Claus has yearly been making more and more extended visits. They who doubt him are merely the scepties of a very scientific age. They do think that nothing is true which is not comprehensible for their little minds, for all minds, whether those of grown folks or younger ones are really little. Yes, there certainly is a Santa Claus. He exists as truly as love and generosity and devotion exist and we know that they abound and give to life its highest beauty and Joy.
