Dr. Burrows - "You're quite a grance man, Mr. Robson, and I would the to ask you if, the assessment John Duke, of the Town of Lindbring been raised last year, you can all me how much has been really ared by this year's Council ?"

Mr. Robson did not get, the drift the question, and Mayor Ray answered for him, saying that no asessment had been made by this Joseph Maunder, of the Town of mar's Council, last year's having

bes confirmed. Dr. Vromoan, mayoralty, candidate, was next on the list. A number of threns had asked him to consetn to mominated - they felt the burden taxation and said the time had gone by when they could be careless bout the men elected to Council. His sply had been that he had no strong isire for municipal honors, but their usswer was that he had no right to dirk the duties of citizenship. In nswer to that plea he had decided to meet nomination, and to those who wanted to be Mayor he would say, "Stand up-line up," and let us see which man the people want. He adn't want any hole-and-corner work. If the people elected him he had one promise to make-he would pire the affairs of the town his best and most zealous care, see that all contracts were carefully executed,

and that economy would be the Counell's watchword. Again, there must be efficiency of service - Lindsay is too good a town to have haphazard work. For Mayon Ray and the old Council he had nothing but praisethey had been very economical. Mayof Ray had said the new Council should follow the example of the old Council in that respect, but he was not convinced as to the wisdom of bing so. Some years ago he (Dr. 7) had seen any amount of public work going on in town, and he had sid to himself, "What do they men?" This year he had seen men raking around looking for work. In is opinion an effort should be made b maintain a tair average every per, but he was aware that walks stitioned for have to be built.
