DEADLY COAL GAS CAME NEAR CAUSING A FATALITY.

Family.

Escaping coal gas came near causing the death of five persons last Friday, and the incident should prove a warning to citizens who do not thoroughly understand the management of coal stoves, or are careless in looking after them.

The victims were the members Mr. Frank Stinson's family, who reside on Albert-st., near the corner of Durham-st., south ward. Mr. Stinson had spent Thursday night with his brother, Thomas, whose daughter died on Tuesday. He returned home about 5 o'clock, changed his clothing, and after shaking down the coal stove, he added more fuel before leaving for his work at the Butler house.

Shortly after 8 o'clock a little girl called at the house with milk, and she found Mrs. Stinson very ill and the other inmates-including two lady visitors-either insensible or nearly so She ran out and called a neighbor, and later on Dr. McAlpine was summoned. The three children were the first to recover from the effects of the poisonous gas. Mrs. Stinson and two lady visitors being very ill for serted, that the worst of these "disbalance of the day.

Colonial Secretary Says Attacks on the Queen Must Cease.

THE NEW TRIPLE ALLIANCE,

His Strong Words With Reference to the Sacredness of Her Majesty Cheered to the Echo-Anglo-Saxon and Tentonic Races in Essential Unity -A Guarantee for

Peace.

London, Dec. 1 .- Mr. Joseph Chamberlain, the Secretary of State for Colonies, in a speech at a luncheon at Leicester yesterday, said that ever since the great split in the Liberal party he had found himself a mark for the slanders and misrepresentations of the "baser sort of politicians." But, he added, he had found compensation in the generous appreciation of the majority of his countrymen.

Continuing, Mr. Chamberlain said he was deeply gratified that the foreign relations of Great Britain were so satisfactory and he asserted that country owed a debt of gratitude to Lord Salisbury for the great improvement in Great Britain's position. It was especially gratifying, he pointed out, to note the friendly relations existing between the Anglo-Saxon branches, saying that the understanding between the United States and Great Britain was indeed a guarantee of the peace of the world. This statement was greeted with cheers.

Ward It was of the utmost importance Mr. Chamberlain further remarked that Great Britain should not remain isolated in Europe and her natural alliance was with the great German Empire. They had had difficulties with Germany, but their interests and sentiments were the same, and an understanding between the Teutonic and Anglo- axon races might do more than any combination of armies to preserve the peace of the world. The world, he asserted, was not governed entirely by interest. Sentiment was one of the greatest factors.

A Pointer to France.

Referring to the attacks of the foreign press, Mr. Chamberlain said these newspapers had not even spared the "Almost sacred person of the Queen." This, continued, the speaker, provoked natural indignation, "which may have serious consequences if our neighbors do not aend their ways."

An outburst of cheering greeted this threat of the Colonial Secretary. It was a matter for congratulation, Mr. Chamberlain afterwards asgraceful attacks" did not appear in the German papers.

Dealing with the attitude of foreign nations, Mr. Chamberlain said : "I rejoice, and it is, perhaps, natural, for I have taken a personal interest in the matter, in the friendly feeling which I hope is now permanent between the two great branches of the Anglo-Saxon race. I have so many friends in the United States, almost as many as I have here, and I can conceive of no greater disaster to the two countries than to find themselves hostile to each other. Yet I remember, when I first visited America, my surprise and astonishment at the evidences given me by statesmen and politicians, and in articles in the press of constant suspicion of the objects of Great Britain, constant doubts as to her integrity, and a generally unfair estimate of our prospects and char-

Angle-American Unity Sentiment.

"Once, addressing a great meeting in Philadelphia, I ventured to say that what we wanted was a new Columbus to set out from Arr rica, discover the United Kingdom eturn to America and tell something they did not know the character of the strange inhabitants of those islands.

The ill-feeling was due, no doubt, to many causes, due to the fact that the United States had never been at war with any great power but England, due to their traditions, extending over a century, due to a feeling that the sympathy of Great Britain was not with them in the of Harvey. Strange to say, the wolf, civil war, and to the general belief that the people of Great Britain would see with satisfaction any harm that might befall them.

"It aupeared to me almost useless to contradict these mistaken opinions, but what the asserveration of statesmen could not do was done by the sympathy we were able to give when the United States found itself the object of the suspicion which has so often accompanied our own transactions when engaged in a war of justice against oppression, a war in favor of civilization and good government. Our action proved to the Americans that we were indeed one people, of the same thoughts and guided by the principles. The assurance that was given them in the course of Spanish war will, I believe, never be forgotten, and has placed our re-

lationship in an admirable position. "The union, the alliance, if you please, the understanding between these two great nations is, indeed, a According to announcement, the guarantee of the peace of the

We have had our quarrels, differences, and contentions, but they have all been about petty matters. Those difficulties have been gradually removed, until now I cannot conceive that any point can arise in the immediate future which can bring ourselves and Germany into antagonism of interests. On the contrary, I can foresee many things do more, perhaps, than any combination of arms to preserve the

A new alliance between the Teutonic race and great branches of the Anglo-Saxons would, said the secretary, be a potent influence in the future of the world. The speaker explained that he used the word "Alliance," but he added, "it mattered little whether they had an alliance committed to paper or an understanding which existed in the minds of the statesmen of the respective

South African news is now six days yet permit details of the Modder River battle to be transmitted. Some vague statements have been published in Cape Town papers, and, according to these, the Boers numbered 8,000 men, and were encamped on both banks of the stream, although mostly on the northern bank. The British, according to these accounts, drove the enemy across the river, compelling them to retreat, and established themselves on both banks. These details, however, are too meagre to enable an accurate idea of the engagement to be formed.

A despatch has reached London announcing that Lord Methuen is again in the field, and it is said that Count Gleichen, who was wounded in the fighting at Modder River, was struck by a bullet in the neck.

Serious news comes from the northern sections of Cape Colony. The whole border district between Colesburg and Burghersdorp has declared for the Boers. In Venterstadt alone more than 2,000 have joined the rebellion. The farmers have formed a commandering committee, and talk confidently of a triumphant march to Cape Town. General Buller's proclamation has been torn down and trampled upon, and the loyalists are bidden to hurry to Cape Town to prepare coffee for the rebels. The wreck of the troopship Ismore

may result in the loss of 350 horses.

London, Dec. 5 .- At the War Office conference, which practically decided the arrangements for the colonial contingents, Sir Redvers Buller sisted strongly that not more Canadians and Australians should be accepted than could be put to really offective use.

"I mean," said he, "to put those colonial boys right in front. We will then see who will win."

Yesterday's news shows that General Buller is fulfilling his promise. The Canadians, with the Australians, have been sent north in company with several Imperial detachments from Cape Town, to watch the De Aar and Belmont Rallway line in rear of Lord Methuen's column. Military experts say that this

force will be ample to remove danger from the Boers now retiring from their invasion of Cape Colony. The colonists may, perhaps, be able to harass the Boer retreat when the Boers are falling back before

Was the Most Steady Fire in the Annals of the British Army-The Roers

Driven Cut. London, Dec. 4.-The Daily Chronicle publishes the following despatch, dated Wednesday, Nov. 29 (morning), from its correspondent at Modder River Camp: The severest engagment our column has yet had, and probably the severest of the whole campaign, was fought yesterday on the banks of the Modder River. The battle was waged nercely for nearly fourteen

It Was a Fearful Battle. The enemy occupied a strong entrenched position, their front extending five miles along the bank of the stream. They were well supplied with artillery and fought desperately. Our force consisted of the 2nd Battallon of the Coldstream Guards, the 1st Battalion of the Scots Guards, the 3rd battalion of the Grenadier Guards, the 1st Battalion of the Northumberland Fusiliers, the 2nd Battalion of the Yorkshire Light Infantry (the King's Own), a part of the 1st Battalion of the Loyal North Lancashire Regiment, the 9th Lancers, the Mounted Infantry, three batteries of field artillery and the 1st Battallon of the Argyll and Sutherland Highlanders (Princess Louise). The latter reinforced us from Gen. Wauchope's brigade, and arrived just in time for the fight.

Started at Daybreak, The battle started at daybreak, our guns shelling the Boer's left. The enemy re, lied with artillery, Hotchkiss and Maxims, and the artillery duel lasted some hours. Then there was a brief bull in the enemy's operations, of which the general immediately took advantage. Our infantry advanced across the plain towards the river in two brigades, The Guards at the right were met by an awful hall of bullets from the enemy's sharpshooters posted close to the river on the opposite banks.

BOERS SHELLED THE HOSPITAL

Their Number There Estimated at Between 10,000 and 15,000 Men. London, Dec. 4 .- The fact that the De Beer's Mines foundry is casting shells, while the garrison seldom replies to the Boers' artillery, is said to point to a scarcity of ammunition at Kimberley, partially accounting for General Methuen's haste.

Boers Shelled the Hospital. It also appears that General Schalk, the burgher commanding the Boers, sent a message, suggesting that all the wounded be sent to a neutral camp, and that General White peremptorily refused, whereupon the Beers deliberately shelled the hospital. All accounts agree that the Boers' shells were much more damaging than previously. A number of civilians and police were killed or wounded, while the Liverpool and Gloucester Battallons lost 11 men Nov. 24. The siege of Ladysmith was then growing stronger. The Boers were estimated to number from 10,000 to 15,000 men. The health of the British garrison was good. The Boer force at Colenso is estimated to be 15,000 men, with 15 guns,

# OUR CALENDARS FOR 1900

What about getting out a pretty Calendar, with name and business printed on them? We have a very pretty line of these goods, also Christmas Cards and Novelties, which will be sold at reasonable prices.

A Calendar is one of the best ways of advertising, and is a most useful and handy article. Write for prices and samples,
