Cambridge-st Methodist Church. Rev. Dr. Burwash, Chancellor of Victoria University, Toronto, delivered the annual education sermons at the Cambridge-st. Methodist church on Sunday. The addresses abounded in facts and figures of historical importance, which tended to show the great responsibilities resting upon us as a nation, as a church, and as individuals. While our sister nation—the United States—stood pre-eminent for its marvellous growth in population and commercial enterprise during the nineteenth century to Canada belonged the honor of making a mark throughout the coming century and standing foremost at its close. Her land, natural products, with a strong English-Irish-Scottish combination in her men, would achieve for her the results....The choir rendered good music at each service. Miss Walters and Mr. Arnold favoring the congregation with two solos, given with good expression and tone.

Goblers Galore. The Christmas poultry export trade with Great Britain has been seriously affected by the withdrawal of so many of the Atlantic liners for war transport service, but in spite of this tens of thousands of good fat Canadian turkeys will grace Old England's dining tables this Christmas. Our Canadian farmer has scarcely yet thoroughly realized the importance of this market; a market which is not only developing rapidly in England, but in France also. So far this season the supply has not proved equal to the demand, with the result that more of the trade has gone to our commercial rivals across the line than would have otherwise been the case. A dealer in Western Ontario declares that "Ontario farmers need to pay more attention to raising of poultry if the development which is taking place in the export business is to continue. In Ireland, Hungary, Normandy and Germany, farmers make a feature of poultry-raising, and some of them make their entire living out of it. Russia's poultry trade with England is enormous. Canadian farmers, however, seem to hate to throw grain to their fowls, and, therefore, do not fatten them sufficiently. One-third of the turkeys coming in now are fit for export. Here are the proper weights for fowl for export: Turkeys, 12 to 15 pounds; geese, 10 to 14 pounds; ducks, 4 to 6 pounds; chickens, 3 to 4 pounds.

Fair dealing without fake promises. Boys feel proud and parents feel happy.—dw.
