THE IMPERIAL FEDERATICNISTS OF THEIR DAY.

Sir John Pourinot's Address at the Collegiate Institute-Enthusiastic Avdience-A Notable Address-Word of Appreciation-A Spi it of Fatriot-

Seldom has a finer or more enthusiastic audience greeted a lecturer in Lindsay than filled the Collegiate Institute hall last Friday night. The Lecture Course is evidently beginning to take hold of our citizens, and the opening of this year's course was a

Warden Bryans occupied the chair and appropriately introduced the distingu shed speaker of the evening, after the instrumental numbers by Mr. Peace and Miss Cora Walters, which received hearty encores. Sir John Bourinot's address on the U. E. Loyalists was a masterpiece.

The subject of the lecture is an opportune one: "Canada's Debt to the United Empire Loyalists." At a period of progress and expansion of every material sort, it is well that our patriotism should flower into action such as the Canadian Contingent, and also that it should lead us back to note the origin of our country and the

builders of our nation. After a sketch of the early settlesions of his theme, the character of the Loyalists and their influence upon Canada. In all about 40,000 Loyalists found their way to Canada at the period of the American Revolutionary war The great bulk of these came from the New England states and settled in the Maritime Provinces. A few hundreds settled in the Eastern Townships of Quebec, and 10,000 settled along the northern shore of Lake Ontario and through Western Ontario. Graham is Putting on an Extra Spurt.

Our End-of the Year Bargain Sale which started last week is destined to revolutionize the prospects for profits on Winter Suits, Overcoats, Ulsters, Feefers, and all Men's and Boys' Winter garments.

The non-appearance of heavy snows and blizzards has upset calculations up to this date. Winter purchases have been delayed beyond everybody's expectations, although we confess we have had remarkable sales under the circumstances; we are not overstocked and haven't to be pulled out of the hole on that account. We were cautious in our purchases, and didn't let the wholesale baiters tempt us to "bite off more than we could chew."

All the same, we can't allow overstocked dealers to undersell us. We have cheering news for late buyers! 150 Boys' Ulsters, from \$2 to \$5

You may hunt the town over and you won't be able to duplicate such bargains as Graham offers, for same quality goods. Here's a few Price List Proofs.

The Key Note of the Mayors of Wanv The New York Journal asked the mayors of some of the American cities last week what was their view of the city ownership of street railways. Some of the replies given are the following: "It is undemocratic, as well as unscientific, to place our officials in such temptation as the officials in Chicago have been placed. Absolute municipal ownership and operation of street railway lines, and all other public vehicles, is the one, only and final cure. The briber will then be without a vic-

Very Perplexing. (To the Editor of The Post.) Dear Sir,-Our position as ratepayers respecting the two projects that we are requested to deliberately dccide on the first day of next January is of a rather paradoxical nature. A portion of our representatives ask us to reclaim our franchises by owning and controlling works that are supported and maintained entirely by the community, so that the town will receive the profits that may accrue over and above all working and other expenses. Another representative body of citizens, (and largely the same), are very solicitious for the ratepayers to vote a large sum of money to a company of capitalists to build a connectting link for the Canadian Pacific Railway. For such sums they will not participate by means of any controll. ing interest or in surplus earnings that may or may not accrue. This puts
