## The Weekly Post.

LINDSAY, FRIDAY, DEC. 22, 1899 MERRY CHRISTMAS TO ALL.

Ere another issue of The Weekly Post reaches its readers the whole Christmas world will have celebrated the great festival of Christmas. We in Canada have every reason to return heartfelt thanks to the Giver of all good for the manifold blessings enjoved during the departing year, and our freedom from great calamities experienced by other parts of the globe Aruly this Canada of ours is a chosen

achieve great things if God so wills. While we are celebrating Christmas in peace and happiness, let us have a thought for our boys in South Africa, who are enduring hardships and exposing their lives for the supremacy. of Britain's fame and British inatitutions. We owe them much.

land; our people are prosperous and

## THE RAILWAY QUESTION

The first public meeting was held Pontypool Railway-or CP. R. connec- tory wheels moving. tion. The meeting was a very successful one, a gratifying interest bethe project were clearly set forth by Mr. Geo. McHugh, M.P., and others.

he was interrupted by a ratepayer, | steering. with the remark that "John Mc-Donald, of Lindsay, says that, it will only cost \$8,000 a mile." Mr. Mc-Hugh promptly replied that this statement could not be correct, for the figusing were the same as those he had used in 1893, when the same question was before the ratepayers, and those figures had been made up and supplied by John McDonald himself, for Mr. McDonald was then warmly advocating the road. Mr. McHugh went on to point out that Mr. McDonald could not, as an honorable man, state that the cost of the undertaking would now be only \$8,000 a mile when he had in 1893 stated and shown that it would cost fully \$13,000 a mile. It is within the recollection of a great many that Mr. McDonald made this statement at several public meetings. The prices of nearly all the material to be used in railway construction are now higher, and not lower. Labor especially will cost a good deal more, and ties, fencing, bridge work, etc. will be more

expensive. It would be very interesting to know from Mr. McDonald just whether he has now been stating the road would cost \$8,000 a mile-how he explains away his statement in 1893 that it would cost \$13,000, when he was a director of the company-and when it was generally expected he would build the road. He ought to give the details of his estimate of the cost of construc-

Mr. McHugh has offered "Honest John" either horn of a dilemma; and it will be very painful to the publicnot to say disappointing-if he does not grapple with one of them. But it may also be painful to Mr. McDonald.

Mr. McDonald, in his letter printed in The Post, advocates a stock-taking plan by the municipalities. That is an attempt to drag a very red herring across the scent that will mislead no intelligent ratepayer. If Mr. McDonald's present plan is practicable, why did he not advance it and advocate it in 1893, when he expected to build the road? He knows very well it is quite impracticable. We believe he has roped in East Mariposa to the tune of \$15,000 for his stock-taking scheme. Why not take in the whole township? Why give the eastern part of, the banner township a chance to accumulate "immense wealth" in Pontypool railway stock, and not give the people of the western part a chance? :What has West Mariposa done to be left out in the cold in this heartless way? And the merest pimple on the flesh to the why wasn't Emily taken in-we don't mean "taken in," but included in Mr. McDonald's scheme? It would not surprise us to see an angry, deputation in from Downeyville and even | Ointment. In disease where outward Omemee to interview Mr. McDonald, applications make a cure Dr. Agnew's in order that they, might "get in on | Ointment never fails. One application gives instant relief.

### THE POLICE MAGISTRACY.

A statement for the year 1899 of the business transacted before the Police Magistrate, as compared with the year preceding, may not be uninteresting. The amount of fines collected and paid to the town for the year 1893 was a fraction over \$140; for the year 1899 a fraction over \$500. The total amount of fines imposed for the year

1899 is a fraction over \$817. The difference between the amount of fines imposed and collected is accounted for by the fact that a portion of the fines imposed go to the Licence funds, and in others the parties elected to go to jail rather than pay the fine.

In addition to the business represented by fines the Police Magistrate has heard a large number of cases in which no fine could be imposed, and which were punished by imprisonment, such as cases of vagrants and cases in which the Magistrate had jurisdiction in common with the General Session of the Peace. A larger number of cases have been heard, and a greater number of fines imposed and collected in the year 1899, than in any year since Lindsay has bad a Police Magistrate. Magistrate Steers has made it plain that he is willing to act vigorously for the better government of the town. and if by-laws are passed and not enforced, if street corner and shopdoor loafing be unsuppressed if juveniles secure cigarettes, and

his. He will apply the law if cases

Hon. Sydney Fisher; speaking at the Fat Stock Show in London, said that "the wave of prosperity which had now set in through Canada, he was glad to know, was being felt by the farming classes generally, and was resulting already in an increase in our enormous output of agricultural pro-That's the sort of prosperity that

does good all around. For years the Canadian parliament under tory control tried to make the country prosperous by bestowing special favors upor manufacturers, the theory being that when that class made great profits by charging such prices for goods as the restriction of competition would enable them to charge, the rich manufacturers would show their gratitude by raising the wages of their employees, who in turn would be such liberal customers of the farmers that moral, and we have the spirit to the great agricultural class would get rich, too. The theory did not work out well, because it was too much like the attempt to make the tail wag the dog. The enriched manuturers paid not the wages they could afford to pay, but the rate they had to pay to get the work done. The overcharged farmers put their properties under mortgage and got so poor that they could hardly afford to buy anything, and then the manuin Ops on Monday evening in connec- , facturers found that high tariffs and tion with the Lindsay, Bobcaygeon and | no customers could not keep the fac-

Now the farmers are having their innings. When they get hold of a few, ing manifested. The main features of extra dollars, they hasten to spend their money on factory products. The Mr. S. J. Fox, M. P.P., Dr. Vrooman, | dog wags the tail. In a country like Canada, agricultural prosperity is the An incident in the meeting is worthy | basis of general prosperity. When the of special notice. When Mr. Geo. Mc- farmer is given a chance to make a Hugh, M.P., was speaking and dealing little money, other classes can get a with the probable cost of the railway, share of it without any government

## MUNICIPAL MATTERS.

The municipal elections, which will take place on the first day of next year, are not stirring up the interest they should among those who desire good civic government. The only aclivity displayed, it seems, is by those who covet municipal honors on less worthy grounds.

Now is the time for the citizens to decide upon the character of the into whose hands government of the town shall placed for another year. The people must realize that a heavy responsibility rests upon them, as on their choice hangs the good or bad government of the municipality. Only men of good character and business ability should sit at the council board It is a safe rule that those who are successful in their own business are more apt to give better and safer service in public capacities.

If the people could be induced to recognize merit and character there would be no lack of good men in the field. The fault of selecting men who cannot at all times be depended on; make those who would make good civic rulers, tardy indeed in offering their ! services.

It is rumored that a number of the old councillors will not offer for reelection, so that new men will have to be selected to fill the vacancies. While we have every respect for many of the older men who have so long and faithfully served the town, we submit that a few smart, snappy, young business men both in the council and the board of trade, would do more to instil fresh life and proper methods in both bodies, than anything else the people could do. This has been the experience of some neighboring towns, notably Orillia, whose council and board of trade are composed of young business men. Youth is synonymous with

enterprise, push and success. For a live, active, progressive policy in town affairs, give us young men. Cannot we induce a sufficient number of these to devote a share of their time to town affairs? It will pay the town. It will pay them."

SPECIAL MEETING HELD LAST MONDAY EVENING

> Cadet Corps Uniforms Ordered - Public School Staff Vacancies Filled-Communications and Reports-Music in A special meeting of the board of

education was held Monday evening, necessitated by the lack of a quorum on regular meeting night, Dec. 5th. The members present were: Chairman McNeillie and Messrs. D. R. Anderson, J. Kennedy, R. Kennedy, Thos. Stewart, Col. Deacon, J. D. Flavelle and Dr. Jeffers; absent, R. J. Mc-Laughlin, J. Staples, W. McWatters and P. G. Pilkie.

Secretary Spier read the minutes of last meeting, which were confirmed.

Communications. From Principal Harstone, reporting 173 pupils on the roll of the Collegiate for November-112 from town, 56 from county, 5 from outside county; average attendance for month, 157 .- Fyled. From Headmaster Broderick, reporting 872 pupils on the rolls of the public. schools for November; average attendance, 811.-Fyled.

From Mrs. Amelia Bell, caretaker north school, asking that her salary. be increased from \$150 to \$200.-Referred to managing committee. From Misses Camelon and Lumsden,

of the public schools staff, tendering their resignations .- Fyled. From Chairman of Truancy Committee, Guelph, asking particulars as to the method pursued by the Lindsay board in dealing with truants .-Reffered to Principle Broderick.

Will Receive Testimonials. On motion of Messrs. Deacon and Anderson, the resignations of Miss Camelon and Miss Lumsden were accepted, and Chairman McNeille was authorized to furnish them with fitting testimonials.

The Vacancies Filled.

Mr. R. Kennedy, chairman, presented the report of the Advisory committee, which recommended that Miss B. Laidlaw, of Caledonia, and Miss Jessie Ferguson, be engaged to fill the vacancies on the public school staff. -Carried.

Report of Finance Committee.

Mr. Stewart, chairman, presented the report, which recommended that Miss Walker and Miss Watson be retained at their present salary, till 1st Sept., 1960, and after that date till the end of 1930 at the rateof \$320 per year each; and that the other members of public school staff be retained for the ensuing year at their present salaries. The following accounts were endorsed for payment: Public Schools-

The Wood is Good Wood.	

Mr. Anderson, chairman of the Managing committee, made a brief explanation concerning the quality of the wood furnished by several tenders. The wood supplied by the Rathbun Co. was perhaps the best ever secured by the board. Some fault had been found with Mr. Carew's, but it turned out all right.

Music Hath Charms.

Headmaster Broderick presented a report giving the views of a number of school boards relative to the advisability of having music taught in

Mr. Flavelle asked Mr. Broderick to state briefly the expected advantages. Mr. Broderick-"It is generally admitted that music has a high value as an exercise and as a relief from the ordinary routine of school study, and it also has a high value as a social accomplishment."

Col. Deacon-"We have a great many subjects on our curriculum now and I do not want to see it byerloaded." On motion Messrs. Flavelle and R. Kennedy, the matter was referred to the Advisory committee for further consideration.

Protecting the Board.

Moved by Mr. Stewart, seconded by Mr. Flavelle, that hereafter all teachers be required to give this board two months' notice of their intention to resign their position on the staff, instead of one month, as heretofore, and that all teachers on the public schools and Collegiate Institute staffs be informed of this change.-Carried.

There's a Time for Everything. Moved by Mr. Stewart, seconded by Mr. Flavelle, that hereafter the confidential report of the headmaster of public schools, relative to the work of the staff of teacher be presented on the day of the regular meeting of this board in October in each year, and before that meeling .- Carried

Cadet Corps Uniforms.

Moved by Mr. Anderson, seconded by Col. Descon, that the resolution passed by the board authorizing a committee to expend, \$200 for Cadet Corps uniform; be be rescinded, and that | Poult a grant of \$200 be made to the Cadet Corps for that purpose.

Mr. Anderson explained that after considering the tenders it was made evident that a considerable saving could be effected by making the change 7 000 8 501 Byle

Col., Deacon-"Of course the grant is made with the disfinct understand. ing that the government grant of \$50 will go to the board for four years to balance the amount advanced." The resolution was adopted, and the butchers', as well as exporters, was Rye.... 0.48 to 0.48

board then adjourned.

AND-

No Full Statement Yet Possible, but Hon Dr. Borden, Minister of Militia, Promises One for To-Day-Volunteers in Plenty-All Arms of the Militia Eager to I e

Ottawa, Dec. 20.-For five solid hours from 2.30 till 7.30 vesterday afternoon, the Cabinet sat. One topic monopolized the attention of the Ministers, and it, of course, was the question of details for the sending of the second Canadian contingent to South Africa. When the Council rose Hon. F. W. Borden announced to the newspaper correspondents that there was no statement ready for the press, but that one would be ready to-day. The Minister of Militia, as has been said, has his plans well matured, and it was to minor details only that the delay in making the final an-Three tield listteries.

The composition of the contingent is as published yesterday, with the exception that three field batteries will be sent. They will likely be organized at Quebec, Kingston and Ottawa. At the two former places A and B Batteries of the Royal Canadian Artillery have their headquarters, with all the supplies necessary for immediate active service. The Ottawa Field Battery is one of the most efficient in the country, and the capital from its central situation wil be a very accessible point for men desiring to join. Recruiting will also be done a Kingston and Quebec. The three batteries will each number 161 men, 5 officers and 131 horses, with 6 guns per battery and six wagons. The two commandants of the regular artillery, Colonels Hudon and Drury, will certainly command the Quebec and Kingston batteries, while Major Hurdman of the Ottawa batter; is named as the to be recruited in this city. The artillerymen will each be provided with two uni ferms, one of the regular blue material and the other of khaki. The superintendent of stores, Lieut.-Col. Macdonald. al-le to equip the men within ten days. The artillerymen will be farnished with revolvers and sabres. As for the mounted infantry, they likewise will wear khaki in the field, but will be also given ordinary tifle uniforms. The statement that the mounted men will carry carbines is er roncous. They will carry the Lee-Enfield. which on account of its superior range and penetration is a much more useful arm of precision than the short carbine. Order for env. lry Sadd es.

The Militia Department, acting for the Imperial authorities, asked the firm of Adams Bros. of King-street east, Toronto, whether it would be possible for them to furnish five hundred cavalry saddles for the War Office, to be delivered at Southampton by January 17, but the Messrs. Adams, on account of pressure of business in their factory and the difficulty in getting an extra force of skilled saddle makers, had to decline the offer, for the reason Great Western Saddlery Company of Winnipeg has contracted to furnish 500 saddles under the terms of the contract. Thus, the War Office will get half of the thousand saddles required. The firm may furnish the necessary number of saddles of a slightly different pattern, which will be equally satisfactory.

Bealth of the Contingent. Almost all the troops sent out by the Imperial Government have been inoculated against enteric fever, and arrangements are now making whereby, if possible, a supply of the necessary lymph will be obtained, to be used by the surgeons of the second contingent in inoculating the officers and men during the voyage. In addition to two surgeons, two or pessibly three vecerinary surgeons will accompany the centingent. These appointments, like the others, will not be announced until to

Private Cablegram Indicates That the Canadians Have Had a Brush With the Boers,

"NOTHING LIKE LEATHER When well put together."

We wish to inform those who have been waiting for our rush to be over, "Now let them come," and everyone else who wante a good pair of Boots. The whole talk through the country is FORBERTS BOOTS; the whole cry is, "Rubbers are no good, therefore we must get Forbert's Boots - they keep your feet warm and dry. We also make a covered Felt Long Book, superior to all others; they are a real frost protector. We invite everyone to call and see them. We are the only manufacturers of that line of goods. It doesn't matter where you buy your boots-bring in your repairs ; you can get them done neatly and durably, for we keep

everything to make them so.

F. FORBERT,
