Here's an update on COVID-19 cases in Ontario as well as in the greater Kawarthas region.

Today, Ontario is reporting 1,172 new cases, with no new cases of the B.1.1.7 UK variant or the B.1.351 South Africa variant. The seven-day average of daily cases has decreased by 71 to 1,675.

Due to the recent migration of data from Toronto Public Health to Ontario's Case and Contact Management system, the province says fluctuations in case counts may occur.
