Kawartha Lakes to develop plan to promote community safety and well-being in the wake of COVID-19

Plan will focus on developing a strategic framework and resources to help manage current and future risks across the municipality

A community's safety and well-being should be a municipality's top priority and Kawartha Lakes is no different.

At the Feb. 9 Committee of the Whole meeting, staff brought forward a presentation to Council regarding the development of a Community Safety and Well-being Plan which will focus on developing a strategic framework and resources to help manage current and future risks across Kawartha Lakes.

In 2019, the province legislated under the Police Services Act that municipalities are required to develop and adopt such a plan that allows municipalities to take a leadership role in defining
