

Submitted by Peggy Rogers: Robert Waskul restored a very water damaged 8 1/2 x 11 black and white photo from the late 1800s for me. On picking up the finished restored picture I was absolutely amazed that it looked as good as the original. I have since taken more photos to him and refer him to others.

Submitted by MJ Forbes: “I was absolutely amazed with the restoration of some photos I took to Robert. His skills in digital photography are excellent. The colour and brightness was restored and new life brought to old photos. I highly recommend Robert if you are looking for restoration or information about digital photography.”
