

On Thursday afternoon, the Ontario government announced expanded booking eligibility in 10 public health unit regions, including all three in the greater Kawarthas region: Peterborough Public Health, Hastings Prince Edward Public Health, and the Haliburton, Kawartha, Pine Ridge District Health Unit.

Appointments at local mass immunization clinics can be made online at ontario.ca/bookvaccine.

The government also announced the AstraZeneca vaccine will be available at 350 more pharmacies across the province, including selected pharmacies in the greater Kawarthas region. The AstraZeneca vaccine is available by appointment to those 55 or older in 2021.

Residents of the greater Kawarthas region can contact the pharmacies below to make an appointment. You will have to join a waitlist if the selected pharmacy has not yet received its vaccine doses.
