Majority of area seniors have still not received their first dose of COVID-19 vaccine

Possible reasons include fear of increasing the risk of contracting the virus at a clinic to insufficient supplies resulting in long waiting lists

The province has been consistently pushing for herd immunity and the importance of vaccinating those most vulnerable, yet an estimated one million individuals aged 60 and older have not received a first dose.

Overall, the Haliburton, Kawartha, Pine Ridge District Health Unit is seeing “good
