Here's an update on COVID-19 cases in Ontario as well as in the greater Kawarthas region.

Ontario is reporting 668 new cases today, with 647 reported yesterday. Over the past 2 days, the 7-day average of daily cases has decreased by 13 to 597.

Of Ontario's 34 health units, 1 is reporting a triple-digit increase — Toronto (110) — and 16 are reporting double-digit increases — Peel (65), Ottawa (55), York (55), Windsor-Essex (43), Hamilton (42), Durham (40), Niagara (32), Eastern Ontario (31), Middlesex-London (26), Chatham-Kent (25), Lambton (20), Halton (17), Waterloo (15), Simcoe Muskoka (13), Kingston, Frontenac and Lennox & Addington (12), and Huron Perth (10) — with 2 (Thunder Bay and Timiskaming) reporting no new cases at all.

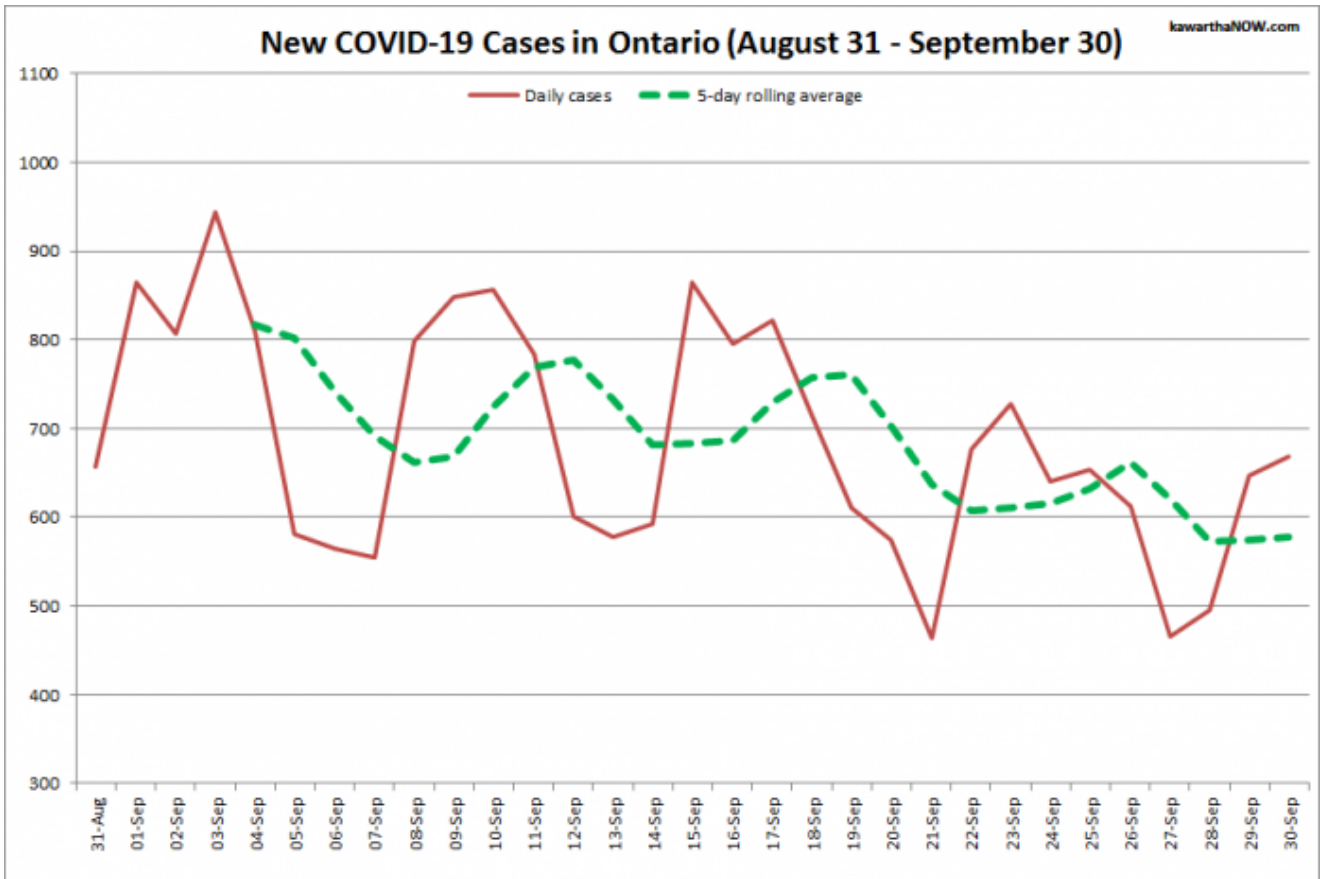

Of the new cases, 65% are people who have not been fully vaccinated (61% have not received any doses and 7% have received only one dose) and 25% are people who have been fully vaccinated with two doses, with the vaccination status unknown for 10% of the cases because of a missing or invalid health card number. The 7-day average case rate is 9.66 per 100,000 for unvaccinated people, 4.58 per 100,000 for partially vaccinated people, and 1.42 per 100,000 for fully vaccinated people.

Hospitalizations have decreased by 14 to 278, ICU patients has decreased by 9 to 163, and ICU patients on ventilators has decreased by 6 to 117. Ontario is reporting 12 new COVID-related deaths over the past 2 days.

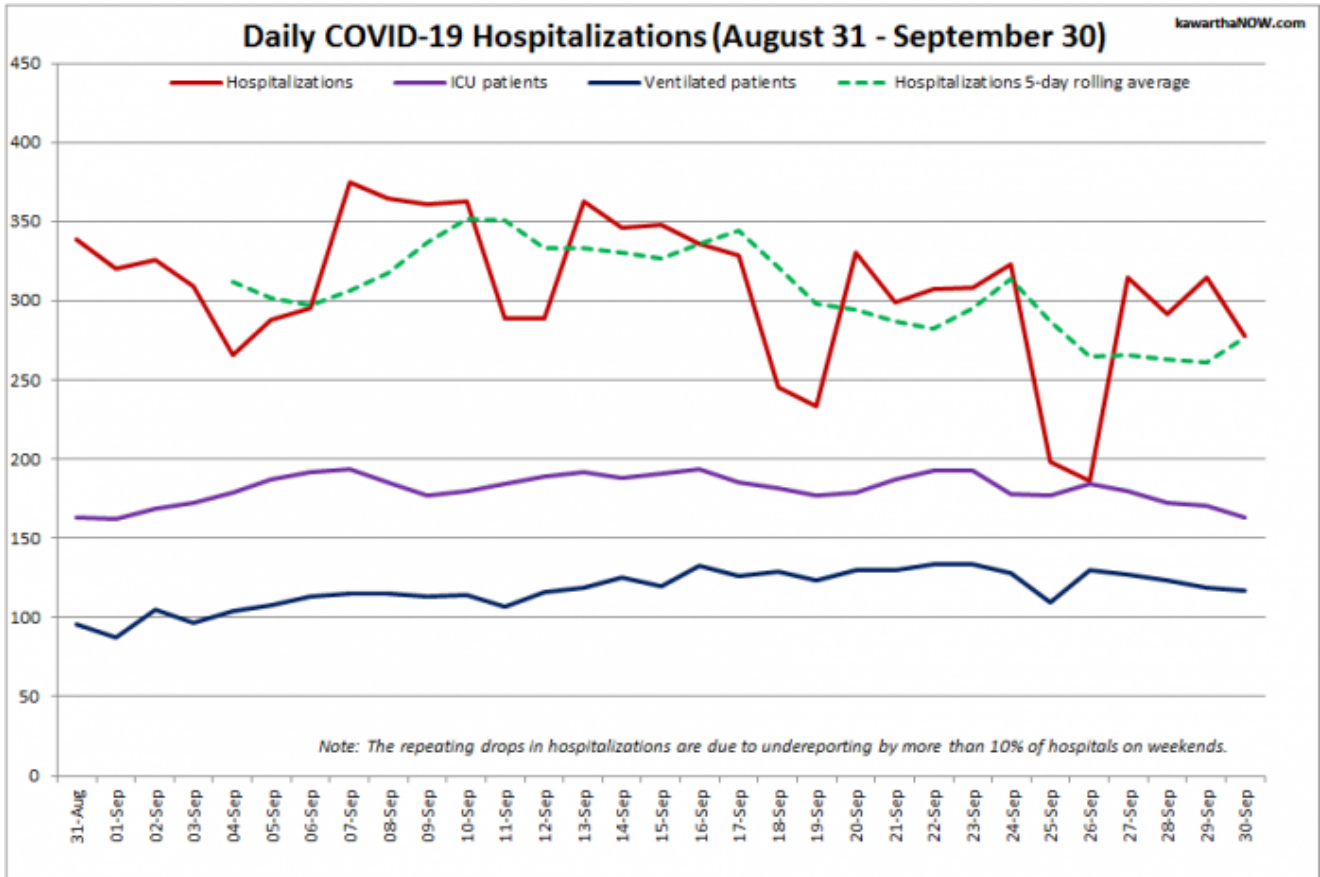

Over 21.8 million vaccine doses have been administered, an increase of 29,704 from yesterday. Over 10.55 million people are fully vaccinated, an increase of 18,784 from yesterday, representing 71.39% of Ontario's total population.
