

received at least one COVID vaccine dose compared to only 10 per cent unvaccinated. The transmissibility of Omicron has been proven to not be as deadly as prior variants but significantly more contagious. It is more likely for those who are vaccinated to be in the hospital with mild symptoms compared to those in the minority 10 per cent who test positive.

The protesters' original poster shared online noted there would be a "Maskless Shop After." However, the protesters seemed to simply disperse in various directions after the protest.
