[Third Dose of COVID Vaccine](#)
[Youth and COVID-19 Vaccination](#)

This Version Posted: November 29, 2021

COVID-19 vaccines are now available for children ages 5-11 years. [Learn more.](#)

This means anyone born in 2016 or earlier is now eligible to get vaccinated for a first or second dose of COVID-19.

Third doses are also now available for certain eligible groups. [Please review the list to see if you are eligible for a third dose.](#)

To get a COVID-19 vaccine, you can visit a Health Unit mass immunization clinic, a local pharmacy or your primary care provider to be vaccinated.

Please see below for mass immunization clinics, and links to local pharmacies.

NEW! For details on Indigenous-sponsored vaccination clinics coming up in December for urban Indigenous individuals and their family members, [click here](#).

How to Get the COVID-19 Vaccine:

- Book an appointment in the provincial booking system:
 - Click here to make appointment through [Provincial Booking System](#)
 - Call 1-833-943-3900 (TTY for people who are deaf, hearing-impaired or speech-impaired: 1-866-797-0007)
- **NOTE: If making a third dose appointment through the Provincial Booking System and checking you have an immunocompromised condition**, be sure to bring a doctor's note about this condition to your appointment *OR* a prescription for the immunosuppressant medication you are taking ([click here for a current list of medications](#)).
- Additional clinic dates are always being added to the provincial booking system. If you do not see a clinic date for a future date, please check back in a few weeks. **Please note:** The provincial booking system may only show appointments 60+ days from your

first day of eligibility for a third dose.

- Please bring your Ontario Health Card if you have one. Both mRNA vaccines (Pfizer-Comirnaty and Moderna-Spikevax) are available at clinics, unless specified otherwise.
- All children turning 5 years old by the end of 2021 are eligible to be vaccinated.. [learn more](#).

Health Unit Vaccination Clinics

Vaccination clinics are open to anyone born in 2016 or earlier. Please bring your health card. Both mRNA vaccines (Pfizer-Comirnaty and Moderna-Spikevax) are available at all mobile clinics, unless specified otherwise.

Need a ride to your COVID-19 vaccine appointment? [Click here for options in your community](#)

**Have Questions About COVID-19 Vaccine?
Speak to a Health Professional**

Make an appointment to talk with a doctor/nurse if you have questions or concerns about receiving the COVID-19 vaccine. Access these free services:

- [VaxFacts – Scarborough Health Network](#) – Click here to book an appointment online or call 416-438-2911, ext. 5738, to speak to a doctor.
- [COVID-19 Vaccine Consult Service – Sick Kids' Hospital](#) – Families with children can click here to book an appointment to speak to a pediatric Registered Nurse. You can also call 437-881-3505.

Please note:

- If you have received a dose of the Pfizer or Moderna vaccine, click here for an [After-Care Fact Sheet](#).

- There have been a small number of reports of pericarditis (inflammation of the lining around the heart) or myocarditis (inflammation of the heart muscle) after getting a COVID-19 mRNA vaccine in Canada. Click here to learn more in this [Public Health Ontario fact sheet](#).
- Before your COVID-19 vaccine appointment, drink water and eat something ahead of time. Being well-hydrated and having something in your stomach reduces your risk of feeling faint after your shot.
