Ye Olde Firme

Heintzman & Co.

95% of the Pianos used in colleges, convents and conservatories throughout Canada are

Heintzman Pianos

In the tonal range of the Heintzman Piano, made by Ye Olde Firme, each note of the human voice finds its perfect complement, sustaining it with sympathetic sweetness and flawless purity. This is why Tetrizzini and so many other world-famous singers insist on having a

Heintzman & Co. Art Piano

at their concerts on their Canadian appearances, and the beauty of it is that this tone is permanent—does not deteriorate with age—whether it be a Grand, Upright or Player Piano. It is its superior excellence which produces the universal admiration for this.

Free to green keepers and others who desire the latest information on the building of a new Club Green or renovating an old lawn.

We quote Special Prices to Clubs, Institutions, Parks and others who require seed in large quantities.

LAWN AND GREENS

It is most important that the lawn should be sown with a mixture of grass seeds especially adapted for the purpose required. A mixture suitable for a Park or Golf Course would be quite unfit for a private lawn, Bowling or Putting green. All the finest grasses that are most suitable for the formation of a lawn when grown for seed, produce very much less weight of seed per acre than do the coarser growing varieties, consequently the cheaper the mixture the coarser the turf. We maintain that the finest dwarf growing grasses are the most economical even for large areas, as the turf formed by the dwarf compact habit of the finest grasses requires to be mown only about half as many times as a turf formed of coarser growing varieties.
